What this data does and doesn't show

- These are each body's own figures, as reported to government in its revenue outturn return. Net spending is after the fees, charges and grants a service brings in.
- Your bill is for 2026-27; it is shared out using the latest published return, which covers an earlier year. The mix of spending changes little from one year to the next, but it does change.
- Council tax is not ring-fenced: this shows your bill in proportion to spending, not what your money bought. Where a precept is set aside for adult social care, it is shown against adult social care.
- No council publishes spending at street or property level, so nothing here says what was spent near you.
- Sub-service lines are the ones the national returns itemise. Councils describe their own budgets differently; their budget books and statements of accounts have more detail.

What this data does and doesn't show

- Every figure is as Aberdeen City printed it. Counts in the £100,000 figure are our sum of the council's bands.
- Comparisons are with the other Scottish councils read so far; no national figure is published for England.
- No 2025/26 unaudited accounts were found on the council website or committee portal at the time of checking, so the audited 2024/25 accounts are used. Scottish councillors are paid salaries under national regulations; basic rate is the national councillor remuneration for 2025-26 (SSI 2025/8). The accounts state that in 2024/25 the Leader's salary was £49,810 and 15 Senior Councillor posts were paid £506,820 in total.
