“Delivered by backstop” means the auditor gave an opinion by the statutory backstop date. Many opinions given that way were disclaimed or qualified because the deadline cut the audit short; PSAA publishes which type of opinion each council received only as national totals, so it is not shown here. Inspections happen at different times, so a rating can be several years old; the date is shown with each. Planning figures are measured differently in each nation: share of decisions made within the statutory time (13 weeks for major, 8 for non-major) or an agreed extension, over 24 months. Recycling rates are measured differently in England, Scotland and Wales, so compare within a nation.

## Does the council think something here is wrong?

If you represent Bolton and think a figure here is wrong, out of date or unfairly presented, email [hello@whereyourmoneygoes.co.uk](mailto:hello@whereyourmoneygoes.co.uk) with this page's address and the source you would point to. Every correction is logged, with its date, on the [corrections page](#).

## How much of the council's spending does this cover?

Council tax paid for 15.8% of the money Bolton had to spend in 2025-26. The rest came from government grants (48.1%), business rates (16.6%) and fees, charges and other income (19.0%), with 0.6% taken from reserves. That is why a grant cut can raise your bill even when the council has not changed what it does. [See where it goes](#).

**What this data does and doesn't show**

- These are each body's own figures, as reported to government in its revenue outturn return. Net spending is after the fees, charges and grants a service brings in.
- Your bill is for 2026-27; it is shared out using the latest published return, which covers an earlier year. The mix of spending changes little from one year to the next, but it does change.
- Council tax is not ring-fenced: this shows your bill in proportion to spending, not what your money bought. Where a precept is set aside for adult social care, it is shown against adult social care.
- No council publishes spending at street or property level, so nothing here says what was spent near you.
- Sub-service lines are the ones the national returns itemise. Councils describe their own budgets differently; their budget books and statements of accounts have more detail.

## Common questions

- **What does council tax pay for in Bolton?** A Band D bill of £2,399.74 is split between Bolton, Bolton: adult social care precept, this year's increase, Greater Manchester Police, Greater Manchester Combined Authority, Parish and town councils (average for the area). In proportion to spending, the largest line is adult social care, £654.91.
- **Is council tax ring-fenced for particular services?** No. Council tax is pooled with grants, business rates and fees. The adult social care precept is the exception: councils raise it for adult social care.

What can Bolton spend a surplus on?

On-street parking charges and all council parking penalty charges (England and Wales)

Ring-fenced by law a ring-fenced parking account. A surplus may only be spent on parking, public transport, highway and environmental improvements and similar purposes; a deficit is made good from the general fund.

Council car park (off-street) tariffs

Kept by the body that collects it the council's general fund. Section 55 covers on-street parking and enforcement income, not car park fees. Not verified
