What this data does and doesn't show

- These are each body's own figures, as reported to government in its revenue outturn return. Net spending is after the fees, charges and grants a service brings in.
- Your bill is for 2026-27; it is shared out using the latest published return, which covers an earlier year. The mix of spending changes little from one year to the next, but it does change.
- Council tax is not ring-fenced: this shows your bill in proportion to spending, not what your money bought. Where a precept is set aside for adult social care, it is shown against adult social care.
- No council publishes spending at street or property level, so nothing here says what was spent near you.
- Sub-service lines are the ones the national returns itemise. Councils describe their own budgets differently; their budget books and statements of accounts have more detail.

What this data does and doesn't show

- Every figure is as Glasgow City printed it, in accounts that have not yet been audited. Counts in the £100,000 figure are our sum of the council's bands.
- Comparisons are with the other Scottish councils read so far; no national figure is published for England.
- Scottish councillors are paid salaries set by national regulations rather than a local basic allowance plus SRAs, so basic and SRA are not published separately; senior councillor pay is included in 'Salary'. Published Total row: Salary £2,613,145.25; Car Mileage £10,765.22; Other Travel £40,089.71; Accommodation £10,605.40; Subsistence £1,014.43; IT & Telephone £562.07; Conferences £2,613.60; Total Expenses £65,650.43; Total Salary and Expenses £2,678,795.68. Basic rate is the national councillor remuneration for 2025-26 (SSI 2025/8); the published list shows £25,984.21 salary paid to ordinary councillors for 2025/26. The accounts state maximum 2025/26 salaries of £71,519 (Leader), £53,640 (Civic Head) and £53,640 (senior councillor).
