Auditors' value-for-money findings are in each auditor's annual report on the council's website.

Planning and development	£4.62	£5.56
Housing (not council homes)	£4.22	£2.98

- Surrey County Council spent **27.0%** of its gross service spending on its own staff in 2025-26 (median for county councils: 28.8%); the rest went on suppliers, contractors, grants, benefits and other running costs.
- Its published payments of £500 or more came to **£2.45bn** between 2025-10 and 2026-09. These include capital and council housing spending, so they are not a share of the figures above.
- Payments we classify as consultancy and agency staff came to **2.9%** of its staff costs (median among the 1 other county councils whose £500 data is read: 4.1%). The two come from different sources and periods, so this is a guide to scale, not an exact share.

What this data does and doesn't show

- These are each body's own figures, as reported to government in its revenue outturn return. Net spending is after the fees, charges and grants a service brings in.
- Your bill is for 2026-27; it is shared out using the latest published return, which covers an earlier year. The mix of spending changes little from one year to the next, but it does change.
- Council tax is not ring-fenced: this shows your bill in proportion to spending, not what your money bought. Where a precept is set aside for adult social care, it is shown against adult social care.
- No council publishes spending at street or property level, so nothing here says what was spent near you.
- Sub-service lines are the ones the national returns itemise. Councils describe their own budgets differently; their budget books and statements of accounts have more detail.
