### Your police precept

In London the police precept is part of the Mayor's precept on your bill. It funds **Metropolitan Police**, which has £4.0bn in all for 2026-27. ## What have the auditors said?

### Audit of the accounts: Westminster

| Accounts year | Status recorded by PSAA | Opinion signed   |
|---------------|-------------------------|------------------|
| 2024-25       | Delivered by backstop   | 12 November 2025 |
| 2023-24       | Delivered by backstop   | 28 October 2024  |

“Delivered by backstop” means the auditor gave an opinion by the statutory backstop date. Many opinions given that way were disclaimed or qualified because the deadline cut the audit short; PSAA publishes which type of opinion each council received only as national totals, so it is not shown here. Auditors’ value-for-money findings are in each auditor’s annual report on the council’s website.

## What are senior staff and councillors paid?

### Pay and allowances: Westminster, from the statement of accounts

| Measure                        | 2025-26    | 2024-25    |
|--------------------------------|------------|------------|
| Employees paid £50,000 or more | 1,717      | 1,543      |
| Councillors’ allowances        | £1,136,000 | £1,099,000 |

The count is up 174 on the year before. Note 10b ‘Other Employees with Remuneration over £50,000’: ‘The Council’s other employees receiving more than £50,000 remuneration for the year (excluding employer’s pension contributions)’. Totals 1,717 (2025/26) and 1,543 (2024/25). Footnote: ‘For 2025/26: Five employees had remuneration (basis for Note 10b) of more than £150K but their salaries (basis for Note 10a) are less than £150K. Therefore, persons are included in £150K or above in the banding note but excluded from the senior officer’s remuneration note.’ The note does not say whether school staff are included. The accounts describe the allowances figure as “The Council paid allowances to its members of £1.136m in 2025/26 (£1.099m in 2024/25). Allowances 1,136 (1,099); Expenses - (-) £’000”. These are draft accounts and may change at audit. Thresholds are not adjusted for inflation, so more staff cross them each year as pay rises.

Inspections happen at different times, so a rating can be several years old; the date is shown with each. Planning figures are measured differently in each nation: share of decisions made within the statutory time (13 weeks for major, 8 for non-major) or an agreed extension, over 24 months. Recycling rates are measured differently in England, Scotland and Wales, so compare within a nation.

**How much of the council's spending does this cover?**

Council tax paid for 6.1% of the money Westminster had to spend in 2025-26. The rest came from government grants (40.1%), business rates (6.1%) and fees, charges and other income (41.3%), with 6.4% taken from reserves. That is why a grant cut can raise your bill even when the council has not changed what it does. [See where it goes](#).

| Roads and transport                   | £-389.96     | £1.75  |

- Westminster spent **24.3%** of its gross service spending on its own staff in 2025-26 (median for London boroughs: 33.7%); the rest went on suppliers, contractors, grants, benefits and other running costs.
- Its published payments of £500 or more came to **£1.31bn** between 2025-07 and 2026-06. These include capital and council housing spending, so they are not a share of the figures above.
- Payments we classify as consultancy and agency staff came to **29.1%** of its staff costs (median among the 5 other London boroughs whose £500 data is read: 12.4%). The two come from different sources and periods, so this is a guide to scale, not an exact share.

### What this data does and doesn't show

- These are each body's own figures, as reported to government in its revenue outturn return. Net spending is after the fees, charges and grants a service brings in.
- Your bill is for 2026-27; it is shared out using the latest published return, which covers an earlier year. The mix of spending changes little from one year to the next, but it does change.
- Council tax is not ring-fenced: this shows your bill in proportion to spending, not what your money bought. Where a precept is set aside for adult social care, it is shown against adult social care.
- No council publishes spending at street or property level, so nothing here says what was spent near you.
- Sub-service lines are the ones the national returns itemise. Councils describe their own budgets differently; their budget books and statements of accounts have more detail.

### Common questions

- **What does council tax pay for in Westminster?** A Band D bill of £1,049.55 is split between Westminster, Westminster: adult social care precept, this year's increase, Greater London Authority (Mayor, TfL, London Fire Brigade), Mayor's Office for Policing and Crime, Parish and town councils (average for the area). In proportion to spending, the largest line is policing, £334.13.
- **Is council tax ring-fenced for particular services?** No. Council tax is pooled with grants, business rates and fees. The adult social care precept is the exception: councils raise it for adult social care.

What can Westminster spend a surplus on?

On-street parking charges and all council parking penalty charges (England and Wales)

Ring-fenced by law a ring-fenced parking account. A surplus may only be spent on parking, public transport, highway and environmental improvements and similar purposes; a deficit is made good from the general fund.

[Road Traffic Regulation Act 1984, s55, as applied in England by SI 2022/71, regs 25 and 27](#)

Council car park (off-street) tariffs

Kept by the body that collects it the council's general fund. Section 55 covers on-street parking and enforcement income, not car park fees. Not verified

## Spending by the council's own service areas

Westminster: payments by service area, as the council labels them

## Who is paid for grounds, street cleaning, roads and bins?

The suppliers paid most for each kind of work, where the council's own labels say what the payment was for (our matching). A council that does the work with its own staff pays mostly wages, which are not in this data, so a short list here can mean the work is done in-house.

**Consultancy and agency against the pay bill**

Payments we classify as consultancy and agency staff came to **29.1%** of Westminster's own staff costs in its 2025-26 revenue return, against a median of 12.4% for the other London boroughs read so far. The payments and the staff costs come from different sources and periods, so this is a guide to scale.

**What this data does and doesn't show**

- It is the council's own record of payments of £500 or more. It leaves out salaries, most staff costs and many internal costs, so it is not the council's whole spending.
- Descriptions are the council's own and vary in quality; some are codes, some are blank, and some supplier names are withheld to protect individuals.
- A large payment to one supplier is often a routine instalment on a long contract that was tendered openly.
- The categories and the matching to services are this site's classification from keywords, not the council's. The rules are on the [methodology page](#).

**What this data does and doesn't show**

- Every figure is as Westminster printed it, in accounts that have not yet been audited. Counts in the £100,000 figure are our sum of the council's bands.
- Comparisons are with the other London boroughs read so far; no national figure is published for England.
- Published 2025-2026 list (54 members; columns Basic, Special Responsibility, Overall Annual Total) prints no totals; figures are our column sums. In one row the printed Overall Annual Total is £404.20 less than Basic plus SRA; the printed total is used. No expenses column is published.
