How much of the council's spending does this cover?

Council tax funds **28%** of this authority's budget. The rest comes from central government grant, business rates and fees. That is why a grant cut can raise your bill even when the council has not changed what it does, and why cutting council tax would not shrink services by the same proportion.

What this data does and doesn't show

- These are each body's own figures, as reported to government in its revenue outturn return. Net spending is after the fees, charges and grants a service brings in.
- Your bill is for 2026-27; it is shared out using the latest published return, which covers an earlier year. The mix of spending changes little from one year to the next, but it does change.
- Council tax is not ring-fenced: this shows your bill in proportion to spending, not what your money bought. Where a precept is set aside for adult social care, it is shown against adult social care.
- No council publishes spending at street or property level, so nothing here says what was spent near you.
- Sub-service lines are the ones the national returns itemise. Councils describe their own budgets differently; their budget books and statements of accounts have more detail.

What this data does and doesn't show

- Every figure is as Wrexham printed it, in accounts that have not yet been audited. Counts in the £100,000 figure are our sum of the council's bands.
- Comparisons are with the other Welsh councils read so far; no national figure is published for England.
- Wrexham's finance documents page lists only a statutory-deadlines notice for 2025-26; the latest statement found is the draft 2024/25 statement (committee appendix dated March 2026). accountsTotal is our sum of the elected (£1,382k) and co-opted (£9k) figures; the elected-member figure alone is £1,382k (2023/24 £1,274k). The members' remuneration page publishes schedules of remuneration (rates) rather than annual totals paid. Basic rate is the national Welsh basic salary for 2025-26.
