Local government: what councils spend, where the money comes from, and every council

Public services · Last updated 13 November 2026 · https://whereyourmoneygoes.co.uk/local-government/

£202.4bn was spent on local government services in the UK in 2024-25, **£2,922** per resident. That is +2.5% on a year earlier after inflation (+6.5% in cash). In 2025-26 prices it has gone from £222.3bn in 2007-08 to £209.2bn. Counted with accounting adjustments (the Treasury's total managed expenditure basis) it was £244.2bn. Central government paid for about 69% of it.

21.0%
Of English local authorities' money from council tax, 2025-26
As of 28 September 2026

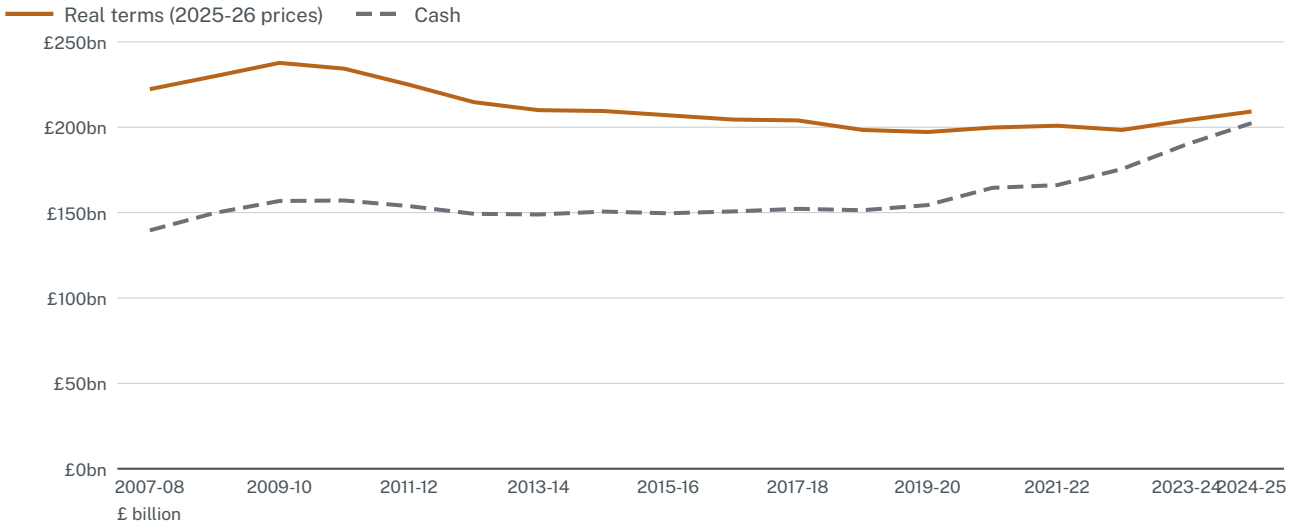

1,970k
People employed in UK local government, 2026 Q2
-33.3% since 2007
As of 14 September 2026

The short version

- **Mostly paid for by central government:** council tax pays for 21% of English local authorities' money; grants, business rates and fees pay for the rest.
- **Social care is the biggest council cost after schools:** 38% of English councils' net spending in 2025-26 went on adult and children's social care.
- **Fewer staff:** local government employs 33% fewer people than at its 2007 peak, partly because schools and services moved out of it.
- **Every council has its own page:** the table at the bottom links to each one.

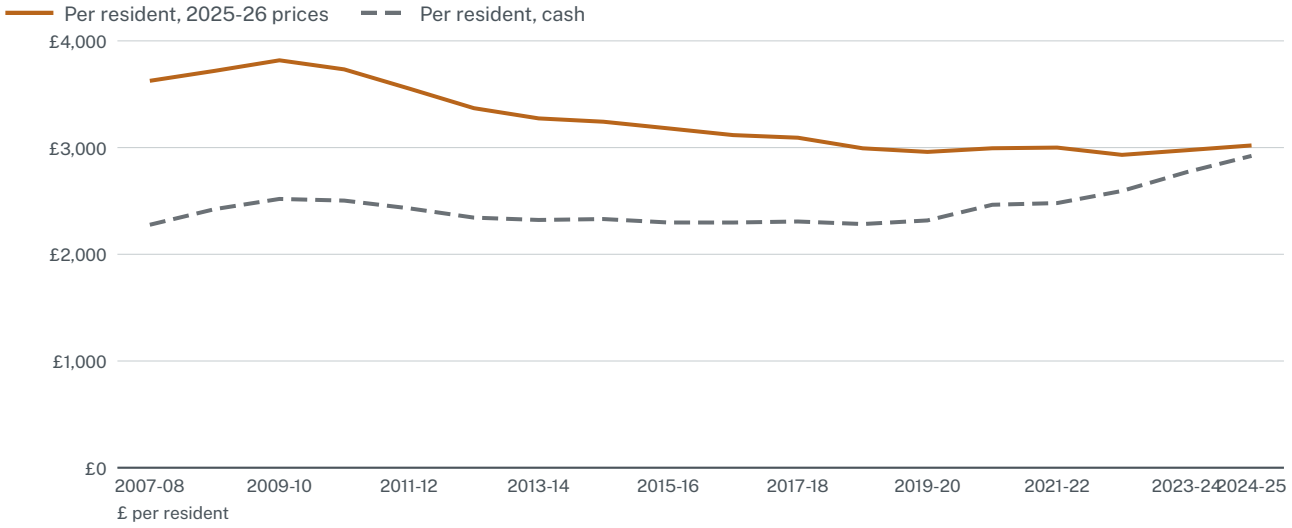

Over the longest run published: cash, real terms and per head

United Kingdom: spending in cash and in 2025-26 prices, £ billion

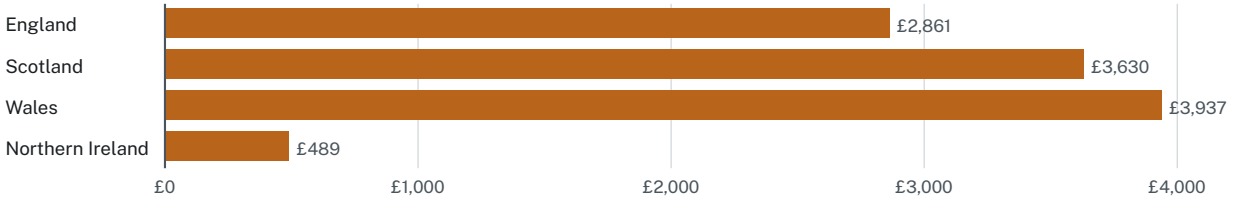

Line chart of United Kingdom spending from 2007-08 to 2024-25: £139.6bn to £202.4bn in cash; £222.3bn to £209.2bn in 2025-26 prices.

United Kingdom: spending per resident, 2025-26 prices

Line chart of United Kingdom spending per resident in 2025-26 prices from 2007-08 (£3,626) to 2024-25 (£3,020).

Spending per resident by nation, 2024-25

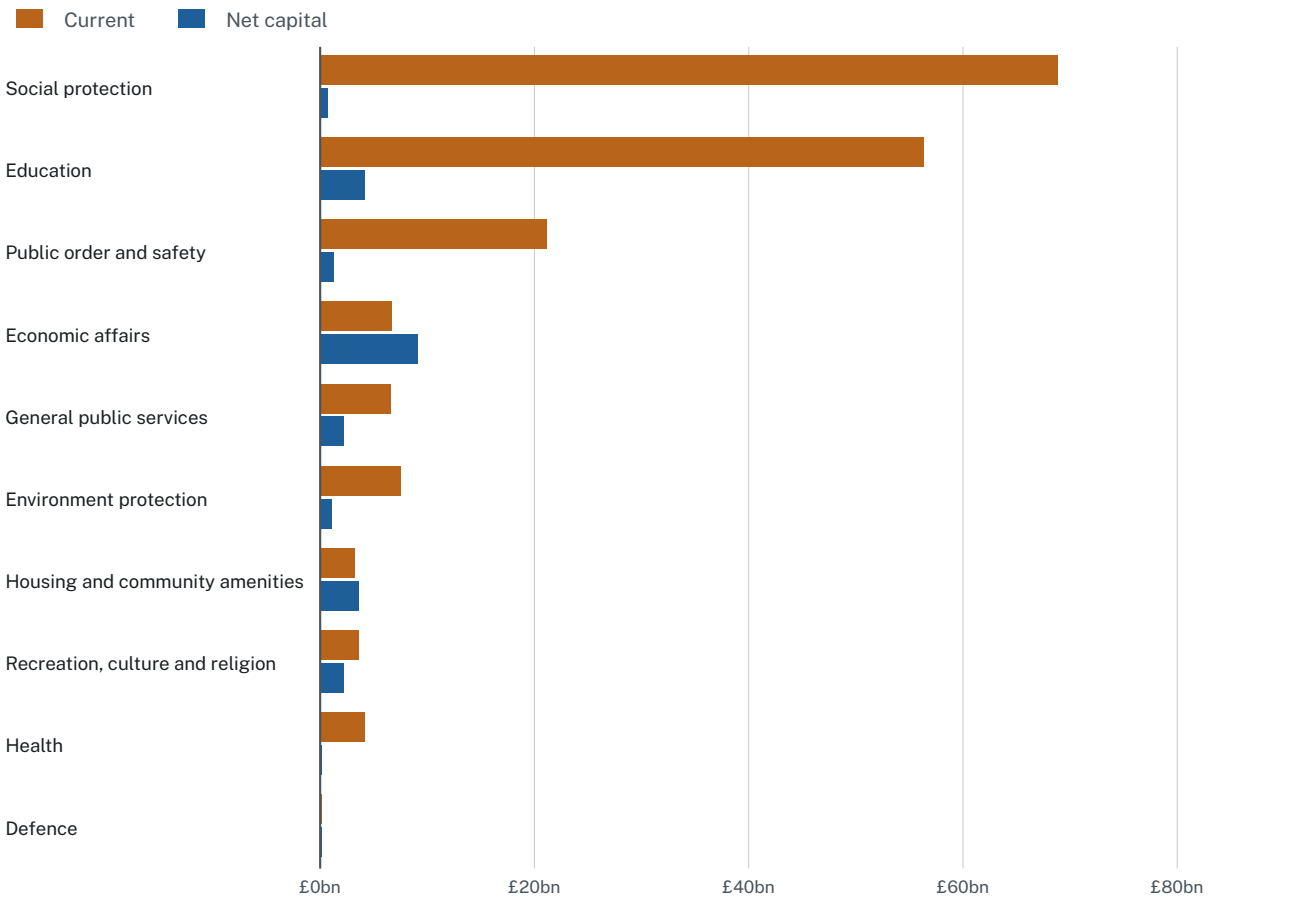

Bar chart of spending per resident by nation in 2024-25: England £2,861, Scotland £3,630, Wales £3,937, Northern Ireland £489.

Source: HM Treasury, PESA 2026: chapter 7, local government financing and expenditure, published 16 July 2026; HM Treasury, PESA 2022: chapter 7, local government financing and expenditure, published 20 July 2022; HM Treasury, PESA 2019: chapter 7, local government financing and expenditure, published 18 July 2019; HM Treasury, PESA 2016: chapter 7, local government financing and expenditure, published 21 July 2016; HM Treasury, PESA 2012: chapter 7, local government financing and expenditure, published 13 July 2012.

What it is spent on

Across the UK, most local government money goes on social care, schools, and (in England and Wales) the police and fire services. What councils themselves spend their net budgets on is in the second table, by nation, in each nation's own terms.

UK local government spending by function, 2024-25, £ billion

Bar chart of UK local government spending by function in 2024-25: Social protection £69.5bn (34.3%), Education £60.5bn (29.9%), Public order and safety £22.3bn (11.0%), Economic affairs £15.8bn (7.8%).

Councils' net spending per resident by service, and its share of the total: England 2025-26, Scotland 2024-25, Wales 2025-26

Service	England, 2025-26	Scotland, 2024-25	Wales, 2025-26
Education	£819 (41%)	£1,403 (50%)	£1,276 (41%)
Adult social care	£466 (23%)	£734 (26%)	£657 (21%)
Children's social care	£288 (14%)	£145 (5%)	£374 (12%)
Environment and regulation	£110 (6%)	£144 (5%)	£166 (5%)
Public health	£73.00 (4%)	—	—
Running the council	£59.00 (3%)	£72.00 (3%)	£101 (3%)
Housing (not council homes)	£58.00 (3%)	£59.00 (2%)	£273 (9%)
Parks, leisure, libraries and culture	£44.00 (2%)	£117 (4%)	£78.00 (3%)
Roads and transport	£38.00 (2%)	£79.00 (3%)	£108 (4%)
Planning and development	£29.00 (1%)	£38.00 (1%)	£61.00 (2%)
Other services	£4.00 (0%)	−£9.00 (-0%)	—

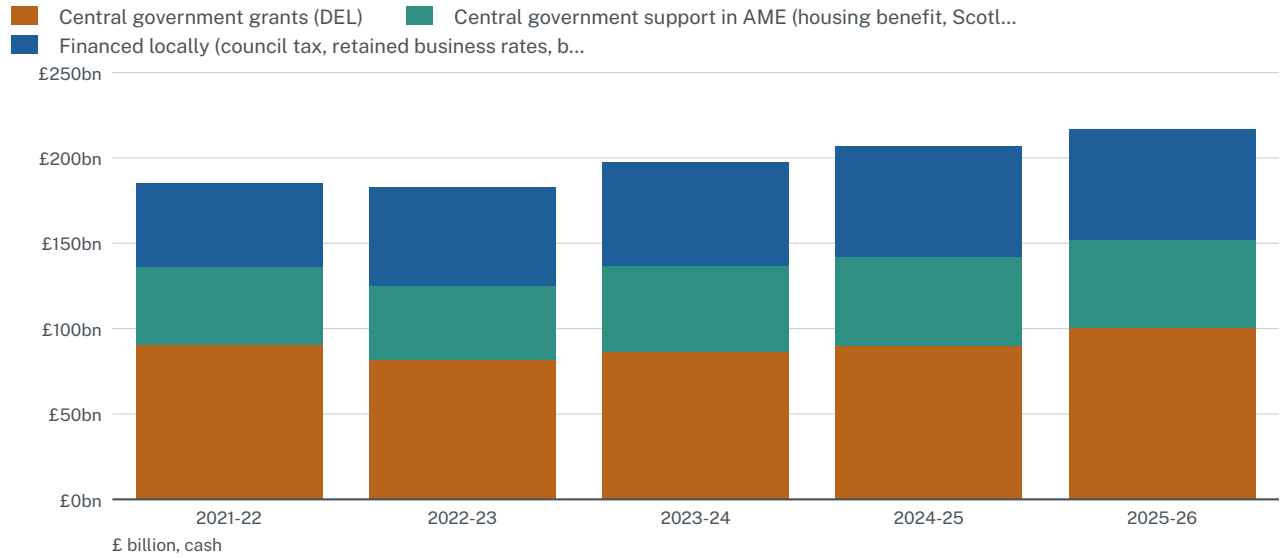

- **England:** Net current spending by English councils (not police, fire, the GLA or combined authorities). Education includes schools funded by the Dedicated Schools Grant.
- **Scotland:** Net revenue expenditure by Scottish councils, after every government grant. Adult social care is mostly councils' contributions to integration joint boards.
- **Wales:** Net revenue expenditure by Welsh councils, before specific grants. "Other" includes council tax reduction and levies.

Source: HM Treasury, PESA 2026: chapter 7, local government financing and expenditure, published 16 July 2026; Ministry of Housing, Communities and Local Government, Local authority revenue expenditure and financing: Revenue Outturn multi-year data set, published 28 September 2026; Scottish Government, Scottish Local Government Finance Statistics, published 3 February 2026; Welsh Government, Local authority revenue outturn expenditure and financing (StatsWales), published 21 October 2026.

Where the money comes from

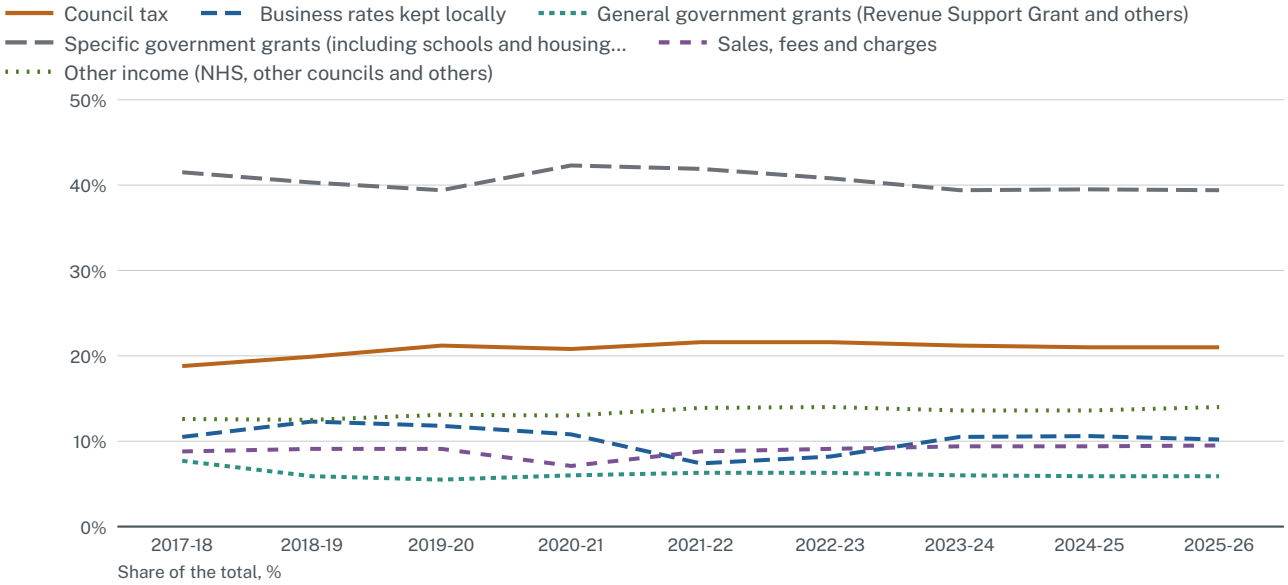

Central government pays for most of it. Council tax is the one tax councils set themselves, and it pays for 21.0% of English local authorities' money, less in Scotland and Wales, where more comes as general grant from the devolved government.

How UK local government spending is paid for, £ billion, cash

Stacked bar chart of how UK local government spending was financed from 2021-22 to 2025-26: central government paid 70.1% in 2025-26.

Where English local authorities' money comes from, share of the total, %

Line chart of the sources of English local authorities' money from 2017-18 to 2025-26: council tax 21.0%, business rates kept locally 10.2%, general government grants (revenue support grant and others) 5.9%, specific government grants (including schools and housing benefit) 39.4%, sales, fees and charges 9.5%, other income (nhs, other councils and others) 14.0% in 2025-26.

Where each nation's local authorities' money comes from, share of the total, latest year

Nation	Council tax	Business rates	General grants	Specific grants	Fees, charges and other income
England, 2025-26	21.0%	10.2%	5.9%	39.4%	23.5%
Scotland, 2024-25	11.6%	11.9%	40.2%	8.7%	27.6%
Wales, 2025-26	13.3%	6.0%	56.1%	14.2%	10.3%

- **England:** Every English local authority (councils, police and fire authorities, the GLA and combined authorities), MHCLG's England total, which includes its figures for authorities that had not returned. Police grant counts as a general grant.
- **Scotland:** All 32 councils (Scotland's police and fire are national bodies), from the Scottish Local Government Finance Statistics.
- **Wales:** All 22 councils and the Welsh police and fire authorities, from StatsWales. Council tax includes the police precept. Wales publishes fees, charges and other income as one figure.

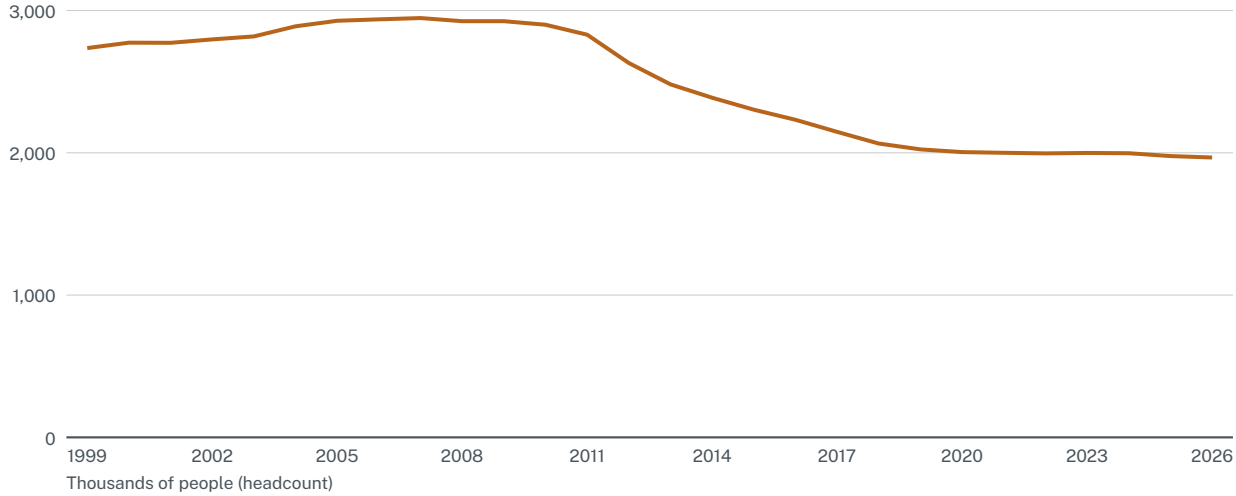

What your own council tax bill pays for, line by line, is on your council's page: find it on the councils page or from what council tax pays for.

Staff

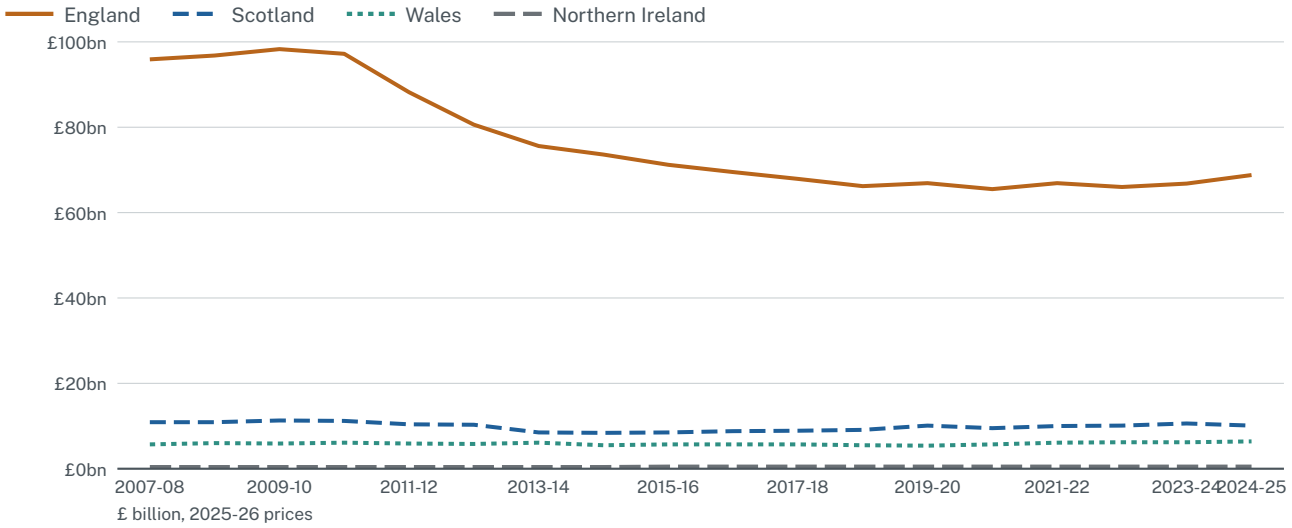

1,970 thousand people worked in UK local government in 2026 Q2, 33.3% fewer than at the peak of 2,952 thousand in 2007 Q2, and 11.0% fewer than ten years earlier. Headcount by council is not published for England; each council's pay bands and senior pay are on its pay and allowances page.

People employed in local government, UK, thousands (March each year)

Line chart of UK local government employment from 1999 (2,736 thousand) to 2026 (1,967 thousand).

Local government pay bill by nation, 2025-26 prices, £ billion

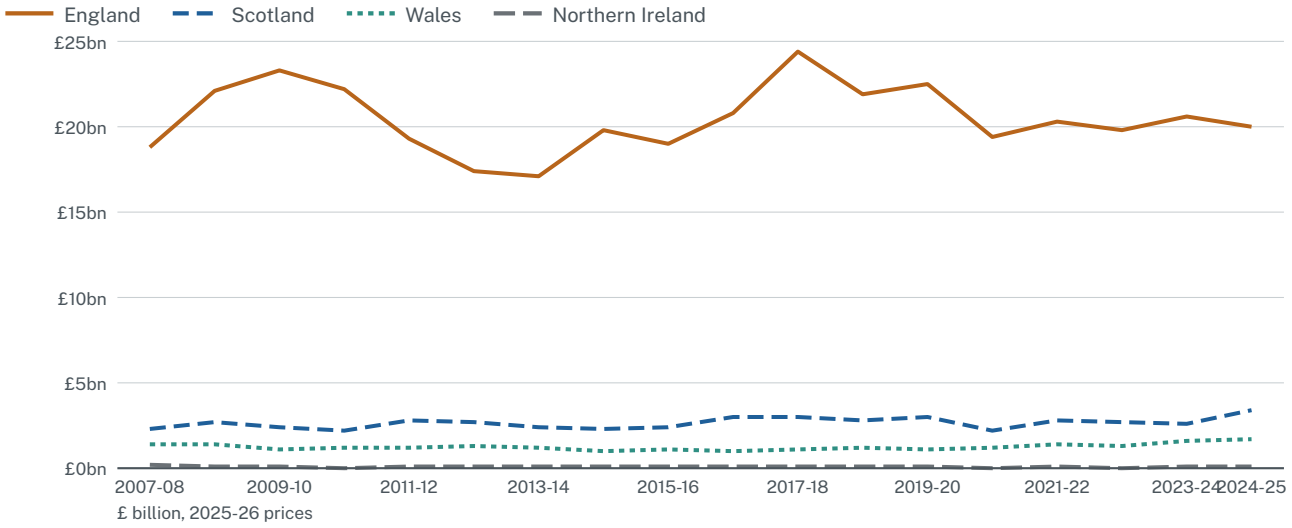

Line chart of the local government pay bill in each nation from 2007-08 to 2024-25, in 2025-26 prices.

Source: Office for National Statistics, Public sector employment: local government, UK, headcount, seasonally adjusted (G6NT), published 14 September 2026; HM Treasury, PESA 2026: chapter 7, local government financing and expenditure, published 16 July 2026.

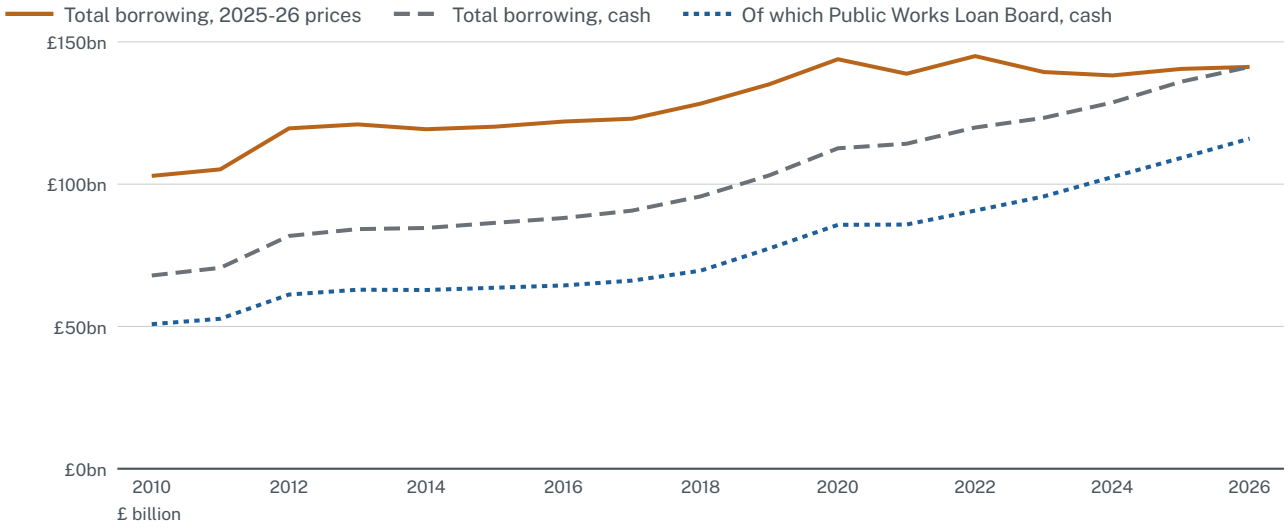

Capital spending, borrowing and reserves

Local government net capital spending by nation, 2025-26 prices, £ billion

Line chart of local government net capital spending by nation from 2007-08 to 2024-25 in 2025-26 prices: England £20.0bn, Scotland £3.4bn, Wales £1.7bn, Northern Ireland £52m in 2024-25.

UK local authority borrowing at the end of March, £ billion

Line chart of UK local authority borrowing from March 2010 (£67.9bn) to March 2026 (£141.2bn), of which from the Public Works Loan Board £116.0bn.

Councils' revenue reserves and borrowing by nation, £ million

Nation	Revenue reserves	Year	Outstanding borrowing	Borrowing at
England	£24.4bn	2025-26	£100.7bn	30 June 2026
Scotland	£2.5bn	2024-25	£20.4bn	30 June 2026
Wales	not published	—	£6.4bn	30 June 2026

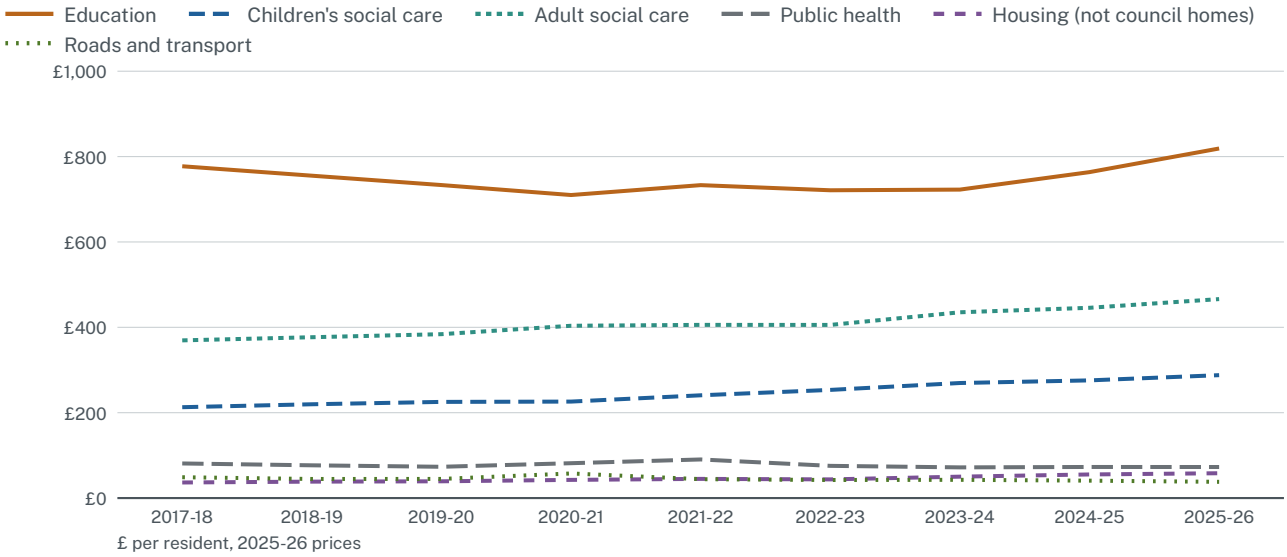

- **England:** Reserves: the 292 councils with a 2025-26 figure (county, unitary, metropolitan, London and district), excluding schools and public health reserves.
- **Scotland:** Reserves: general fund reserves, including earmarked amounts.
- **Wales:** Wales publishes council reserves as a PDF report only, so no total is shown.

Councils in difficulty. 8 English councils have issued a section 114 notice (saying they cannot balance their budget) since 2018: Barnet, Birmingham, Croydon, Northumberland, Nottingham, Slough, Thurrock, Woking. 35 have the government's permission to use capital money or borrowing to balance their 2026-27 budget (exceptional financial support): Barnet, Bedford, Bradford, Brighton and Hove, Cheshire East, City of London, Croydon, Cumberland, Gloucester, Halton, Haringey, Havering, Hillingdon, Isle of Wight, Isles of Scilly, Lambeth, Medway, Peterborough, Redbridge, Redcar and Cleveland, Sefton, Shropshire, Slough, Somerset, Stoke-on-Trent, Swindon, Thurrock, Trafford, Waltham Forest, Warrington, West Berkshire, Windsor and Maidenhead, Wirral, Woking, Worthing. Each council's notices, interventions and audit status are on its area page.

United Kingdom

Spending on services by councils, police and fire authorities, combined authorities and the Greater London Authority: current spending plus net capital spending, as HM Treasury counts it in PESA. It excludes accounting adjustments and money councils pass between themselves; the plans year is left out. Each year comes from the newest edition that has it as outturn.

£202.4bn in 2024-25 (cash); £209.2bn in 2025-26 prices; £2,922 per resident; +6.5% on a year earlier in cash, +2.5% in real terms.

United Kingdom: by nation, 2024-25

Nation	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
England	£167.7bn	£173.3bn	£2,861	+2.7%	HM Treasury	Broken down below
Scotland	£20.1bn	£20.8bn	£3,630	+1.4%	HM Treasury	Broken down below
Wales	£12.5bn	£12.9bn	£3,937	+2.8%	HM Treasury	Broken down below
Local government debt interest (UK, not split by nation)	£1.1bn	£1.1bn	£15.85	−4.4%	HM Treasury	On its own page
Northern Ireland	£943m	£975m	£489	0.0%	HM Treasury	Department or service body not published: Northern Ireland's 11 district councils run a narrower set of services (no schools, social care, roads or social housing, which the Executive's departments and the Housing Executive run). Each publishes its own audited accounts; no consolidated return by council and service is published in a form this site reads.

England

Local government spending on services in England, current and net capital, as HM Treasury counts it (PESA). The level below is the authorities' own revenue returns to MHCLG: net current spending on services (after fees, charges and other income the services raise, before most government grants). It leaves out capital spending and is on a different basis from HM Treasury's figure above, so the rows do not add up to it.

£167.7bn in 2024-25 (cash); £173.3bn in 2025-26 prices; £2,861 per resident; +6.7% on a year earlier in cash, +2.7% in real terms.

On the map

An interactive map or explorer appears here on the live page.

The map covers the whole UK. Where the nations publish the same measure, they share one scale. Where they publish different ones, each nation is shaded against its own measure on its own scale, named in its own part of the legend, and the nations cannot be compared with each other. Where a nation publishes nothing for a measure, the map says so and links to what it publishes instead. Pick an area for its figures and a link to its page.

Every one of the councils, on each measure on the map England: Net spending per resident, before ring-fenced grants, 2025-26. Scotland: Net spending per resident, after every grant, 2024-25. Wales: Net spending per resident, before specific grants (includes Housing Benefit), 2025-26. Northern Ireland: Total council expenditure per resident (Local Government Auditor), 2023-24. The nations' figures are different measures and are not directly comparable.

Council area	Nation	Spending per resident	Adult social care	Children's social care	Change since 2017-18

Every council

Every council in England, Scotland and Wales, on the measures that can be read side by side within a nation. Each name links to the council's own page, where its spending is broken down by service and each part of its council tax bill is traced. Its total spending and spending per resident are in the drill-down above, under its kind of council.

Every council: spending per resident in the area, council tax share, change since 2017-18, reserves and borrowing

Council	Council spending per resident in the area, excluding schools, police and fire, 2025-26	Share of income from council tax, 2025-26	Real change since 2017-18, 2025-26	Reserves, share of net spending, 2025-26	Borrowing per resident, 2026-06
England, all councils	£1,173	20.8%	23.6%	44.2%	£1,712
Scotland, all councils	£1,379 (2024-25)	11.6% (2024-25)	—	16.0% (2024-25)	£3,679

What each measure counts

- **Council spending per resident, excluding schools, police and fire** Net current spending per resident by every council serving the area, on all services except education, police and fire. Keyed by the district or unitary council (local authority district). In two-tier areas the county council's spending per resident is added to the district's, as if spread evenly across the county. Education is left out because schools that became academies left council budgets at different rates; police and fire because most are run by separate authorities. Compare within a nation: England's figures are before ring-fenced grants, Scotland's after every grant, Wales's before specific grants.

- **Share of income from council tax** Council tax as a share of the council's council tax, business rates, government grants and the income its services raise. Depends on the kind of council and the nation's funding system.
- **Change in council spending per resident since 2017-18, after inflation** The real-terms change (HM Treasury GDP deflator) in council spending per resident excluding schools, police and fire, from 2017-18 to the year shown. England only, where the revenue outturn runs back to 2017-18; areas whose councils were reorganised since then have no figure.
- **Revenue reserves as a share of net spending** From the council report cards. England: earmarked and unallocated revenue reserves at the end of the year, excluding schools and public health, as a share of net revenue expenditure. Scotland: general fund reserves, including earmarked amounts, as a share of general fund net revenue expenditure. Wales publishes council reserves as a PDF only.
- **Outstanding borrowing per resident** Outstanding borrowing at the latest quarter end (MHCLG borrowing and investment live table) divided by residents. Includes borrowing for council housing, where the council has homes, and for commercial investments.

37 English authorities had not returned their newest year's figures when MHCLG published them; their rows show their latest return: Isles of Scilly (2024-25), Barnsley (2024-25), Sheffield (2024-25), Dudley (2024-25), Sandwell (2024-25), Fenland (2024-25), Huntingdonshire (2024-25), High Peak (2024-25), East Devon (2024-25), Castle Point (2024-25), Cotswold (2024-25), Tewkesbury (2024-25), Folkestone and Hythe (2024-25), Ribble Valley (2024-25), North West Leicestershire (2024-25), North Norfolk (2024-25), Cannock Chase (2024-25), Stafford (2024-25), Staffordshire Moorlands (2024-25), Runnymede (2024-25), Waverley (2024-25), Woking (2024-25), North Warwickshire (2024-25), Rugby (2024-25), Warwick (2024-25), St Albans (2024-25), West Yorkshire Police and Crime Commissioner and Chief Constable (2024-25), Derbyshire Police and Crime Commissioner and Chief Constable (2024-25), Gloucestershire Police and Crime Commissioner and Chief Constable (2024-25), Wiltshire Police and Crime Commissioner and Chief Constable (2024-25), Cheshire Combined Fire and Rescue Authority (2024-25), Essex Combined Fire and Rescue Authority (2024-25), Leicestershire Combined Fire and Rescue Authority (2024-25), Shropshire Combined Fire and Rescue Authority (2024-25), Tees Valley Combined Authority (2024-25), North York Moors National Park Authority (2024-25), Lake District National Park Authority (2024-25).

What people say about it

Is local government in England funded well enough for what it has to do?

Those who say funding has not kept up with demand

- "Pressured public services and delays to reform the funding system are contributing to local authorities' finances becoming unsustainable." National Audit Office (28 February 2025) Summary of its report Local government financial sustainability.
- "However, while real terms funding has grown by 4% between 2015-16 and 2023-24, it has not kept pace with population growth or the demand for services, the complexity of need, or the cost of delivering services to people most in need of support." National Audit Office (28 February 2025)
- "The sector has done well to manage substantial funding reductions since 2010-11, but financial pressure has increased markedly since our last study." National Audit Office (8 March 2018) From its report Financial sustainability of local authorities 2018.

Those who say funding is rising and being matched to need

- "By the end of the multi-year Settlement, we will have provided a 15.5% increase in Core Spending Power, worth over £11.4 billion, compared to 2025-26." Alison McGovern MP, Minister of State for Local Government and Homelessness, Ministry of Housing, Communities and Local Government (9 February 2026) Written ministerial statement on the Local Government Finance Settlement 2026-27 to 2028-29.
- "Only around a third of councils were given the funding to broadly match their assessed need before our reforms. By the end of the multi-year Settlement, that will be nine in ten councils." Alison McGovern MP, Minister of State for Local Government and Homelessness, Ministry of Housing, Communities and Local Government (9 February 2026)

What these figures do and don't show

- **Two measures, not one.** The UK and nation totals are HM Treasury's (PESA): current spending on services plus net capital spending by every local authority. The kinds of authority and the councils below them are the authorities' own revenue returns: net current spending on services, after the income services raise and before most grants, with no capital spending. They do not add up to the national totals and are not meant to.
- **Compare within a nation.** England's net spending is before ring-fenced grants, Scotland's after every grant and Wales's before specific grants; police and fire are local government in England and Wales but national services in Scotland; Northern Ireland's councils run far fewer services. Per-resident figures are only compared between councils of the same kind in the same nation.
- **Councils of different kinds do different things.** A district council runs no schools or social care; a county council runs no bin collection. The "council spending per resident in the area" measure adds a two-tier area's county and district together, treating the county's spending as spread evenly per resident.
- **Schools move out of the figures.** Schools that become academies are funded by central government, so English councils' education spending falls as academies grow, whatever happens to school funding.
- **Cash, real terms and per head.** Real terms use HM Treasury's GDP deflator in the dataset's price base; per head divides by ONS mid-year population. The long run joins five PESA editions: later editions revise earlier years.
- **Some councils are late.** Where an English council had not returned its newest year, MHCLG's totals by kind of authority include MHCLG's own figure for it; the council's own row shows its latest return.
- **Spending is not results.** What councils deliver (school inspections, care ratings, road condition, recycling) is on each council's area page, beside the money and never as its result.

Figures from data/services/local-government.json, generated 13 November 2026.

Common questions

- **Is council tax most of what councils spend?** No. In England council tax pays for about a fifth of local authorities' money; the rest is government grants, retained business rates, and fees and charges. In Scotland and Wales council tax pays for a smaller share, because more comes as general grant from the devolved government.
- **Why do the council figures not add up to the national total?** The national figures are HM Treasury's, which count capital spending and every kind of local authority on one basis. The council figures are each council's own revenue return: net current spending after the income its services raise. They measure different things.
- **Where can I see what my own council spends?** Every council in the table on this page links to its area page, where its spending is broken down by service and each part of its council tax bill is traced to what it pays for.

Social care: adults and children, by council

Public services · Last updated 13 November 2026 · https://whereyourmoneygoes.co.uk/social-care/

£56.1bn was spent on personal social services (social care for adults and children) in the UK in 2025-26, **£808** per resident. That is +0.5% on a year earlier after inflation (+3.9% in cash). In 2025-26 prices it has gone from £42.3bn in 2006-07 to £56.1bn. English councils spent £31.6bn gross on adult social care in 2025-26: 46.2% of long-term care spending went on care homes and 16.6% on home care.

The short version

- **Run by councils** in England, Wales and Scotland (in Scotland adult care jointly with the NHS), and by the Health and Social Care Trusts in Northern Ireland.
- **Not all of it is council money:** people's own contributions and the NHS pay part of it.
- **Every council with social services has a page:** its adults' and children's spending, care homes against care at home, children in care and staff, against its nation.

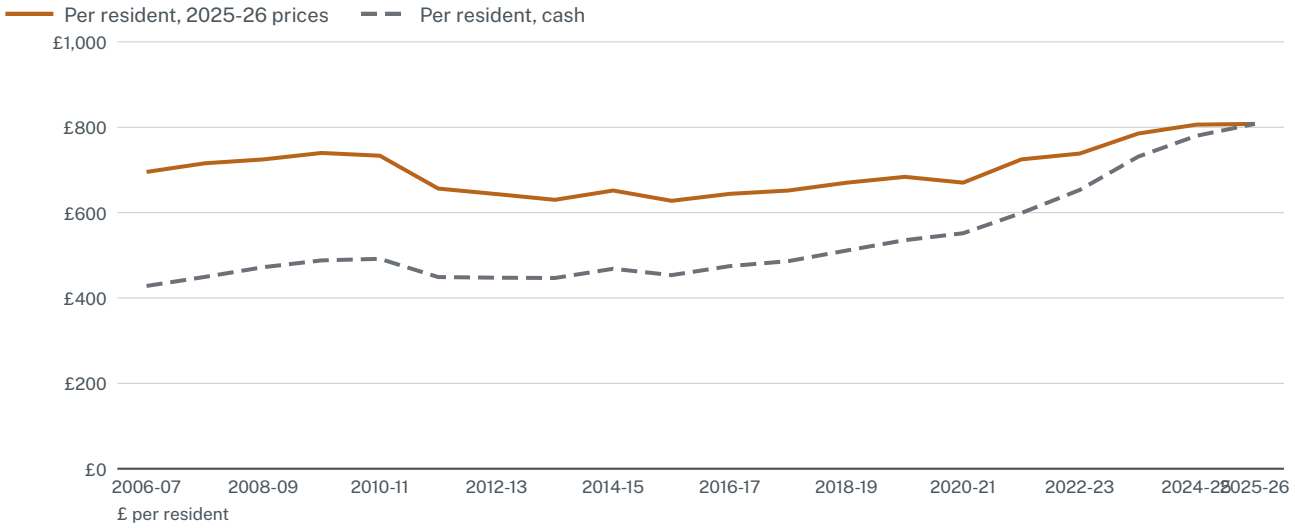

Over the longest run published: cash, real terms and per head

Adults and children

Social care is support with daily living for older and disabled adults, and help and protection for children and families. Most of the money goes on adults, and most of that on older people.

Personal social services by who they are for, UK, £ billion in 2025-26 prices

Line chart of UK personal social services by purpose from 2006-07 to 2025-26: Sickness and disability £18.1bn, Old age £17.3bn, Family and children £18.3bn, Social exclusion £2.5bn in the latest year.

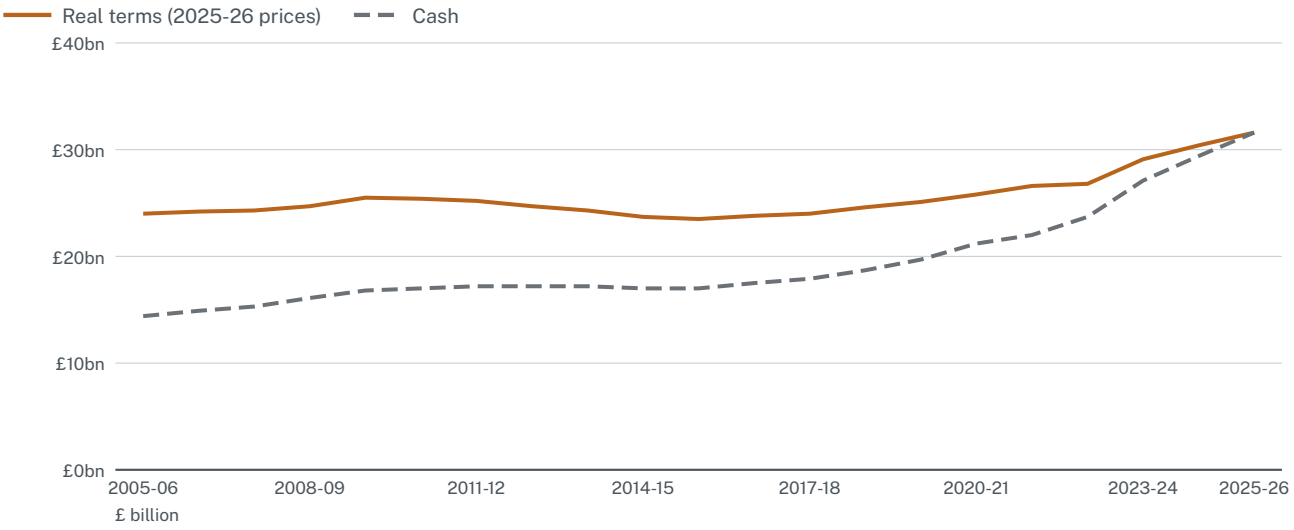

Personal social services by purpose and nation, 2024-25, cash

Nation	Old age	Sickness and disability	Family and children	Total
England	£12.7bn	£13.5bn	£15.5bn	£44.3bn
Scotland	£2.1bn	£1.7bn	£1.2bn	£4.9bn
Wales	£1.0bn	£980m	£1.2bn	£3.3bn
Northern Ireland	£803m	£572m	£305m	£1.7bn

By nation these are identifiable spending in HM Treasury's country and regional analysis. The total includes smaller purposes (social exclusion) not shown as columns.

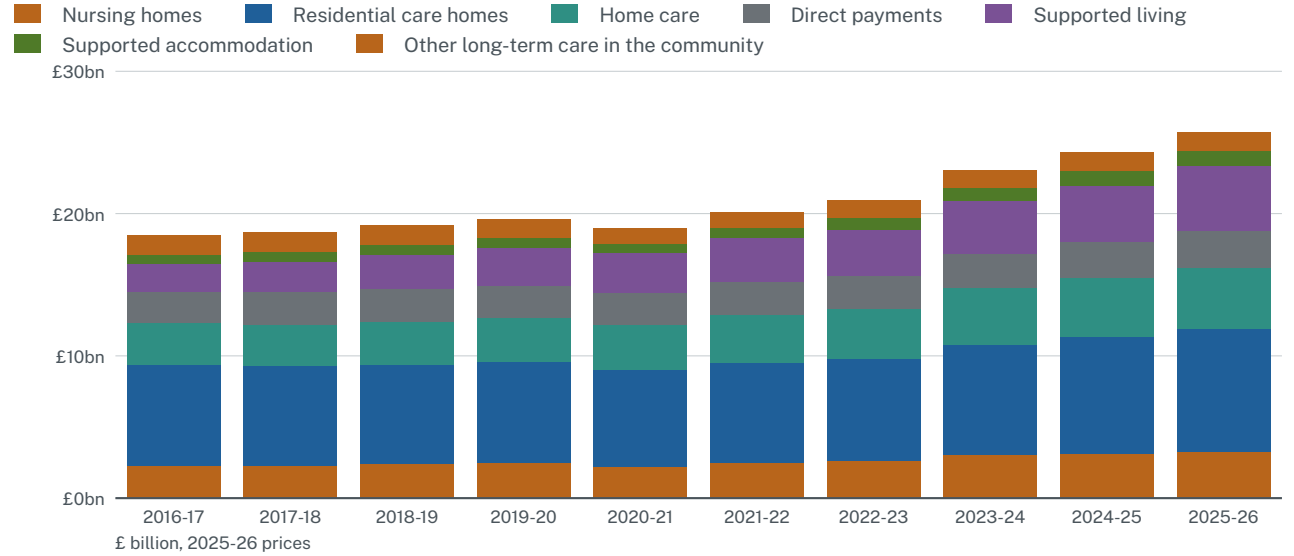

Adults in England: care homes or care at home

Councils' adult social care spending, England, £ billion

Line chart from 2005-06 to 2025-26: £24.0bn to £31.6bn in 2025-26 prices; £14.4bn to £31.6bn in cash.

Long-term adult social care by setting, England, £ billion in 2025-26 prices

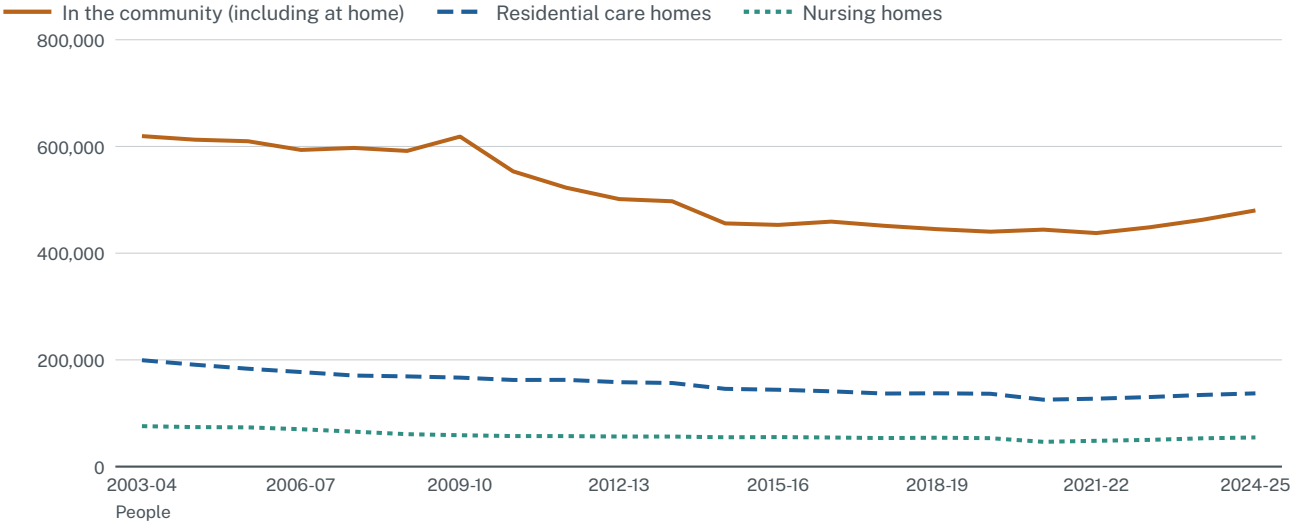

Stacked bar chart of councils' long-term adult social care spending in England by setting from 2016-17 to 2025-26. Care homes took 46.2% in 2025-26 and home care 16.6%.

Share of long-term adult social care spending by setting, England

Year	Care homes	Home care	Direct payments	Supported living and other
2021-22	47.2%	17.0%	11.3%	24.5%
2022-23	46.9%	16.7%	11.0%	25.4%
2023-24	46.7%	17.4%	10.4%	25.5%
2024-25	46.5%	17.2%	10.4%	26.0%
2025-26	46.2%	16.6%	10.3%	27.0%

Adults in long-term support on 31 March, England, by setting

Line chart of adults receiving long-term support from councils in England from 2003-04 to 2024-25: 894,615 people to 672,025 people.

What councils pay, England average

Year	Residential home, 65 and over, a week	Nursing home, 65 and over, a week	Home care bought from providers, an hour
2021-22	£747	£810	£18.88
2022-23	£811	£910	£20.57
2023-24	£916	£1,026	£22.03
2024-25	£982	£1,102	£23.56
2025-26	£1,045	£1,159	£24.72

Unit costs are cash, averaged over councils by the publisher. Every council's figures are on its own page and in the table further down.

Source: Department of Health and Social Care, Adult social care finance report, England, 2025-26: data tables, published 22 October 2026; Department of Health and Social Care, Adult social care activity report, England, 2024-25: data tables, published 23 October 2025.

Where adult social care money comes from, England

Councils spent £34.5bn on adult social care in 2024-25, counting what they spent on the NHS's behalf through pooled budgets. 72.0% came from councils' own resources: council tax (including the adult social care precept), business rates and government grants such as the Social Care Grant. The rest came from:

Adult social care, England, 2024-25: where the money came from

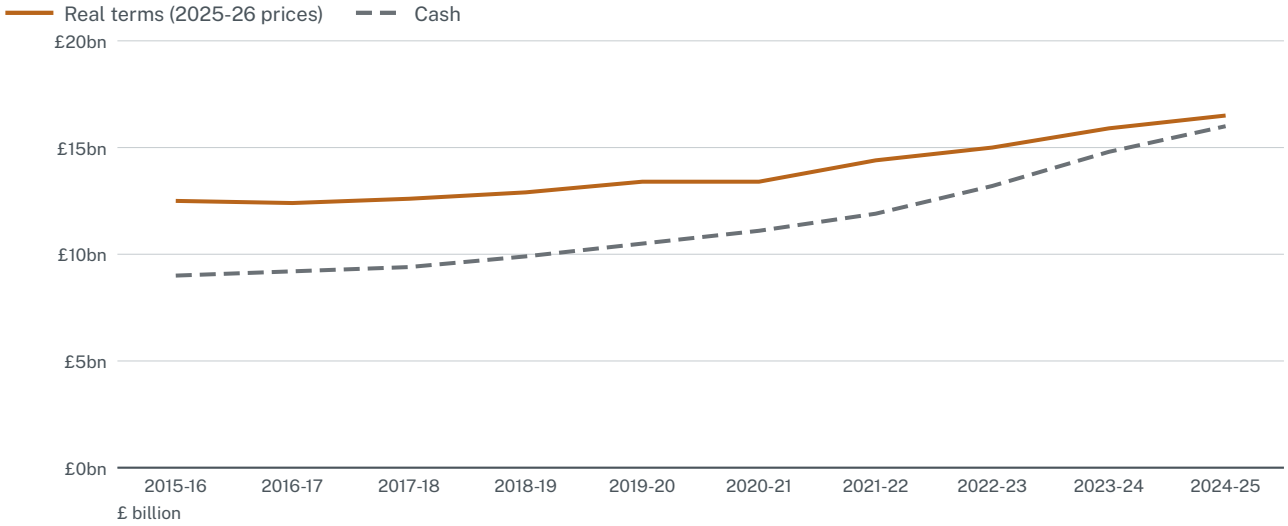

Source	Cash	Share
People's own contributions (charges)	£4.7bn	13.5%
The NHS	£4.4bn	12.7%
Joint arrangements with other councils	£144m	0.4%
Other income	£456m	1.3%
The council's own resources	£24.9bn	72.0%
All spending	£34.5bn	100%

The return does not split councils' own resources between council tax, business rates and grants: those pay for all council services together. More: what council tax pays for.

Source: Department of Health and Social Care, Adult social care finance report, England, 2024-25: data tables, published 23 October 2025.

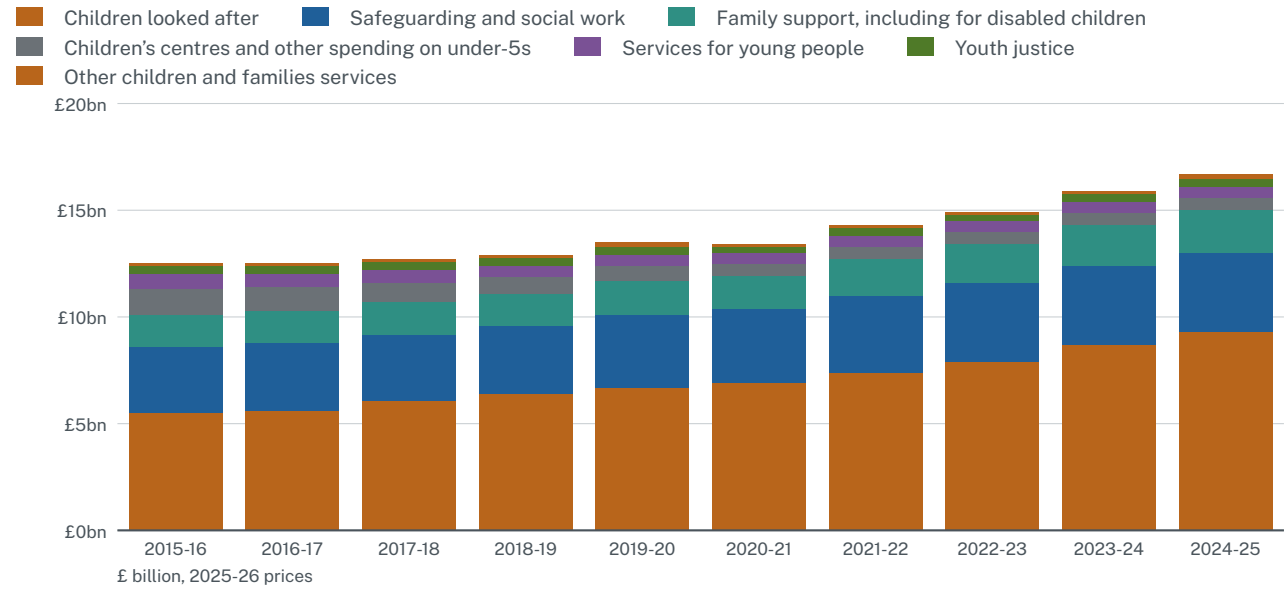

Children in England

Councils' children's and young people's services spending, England, £ billion

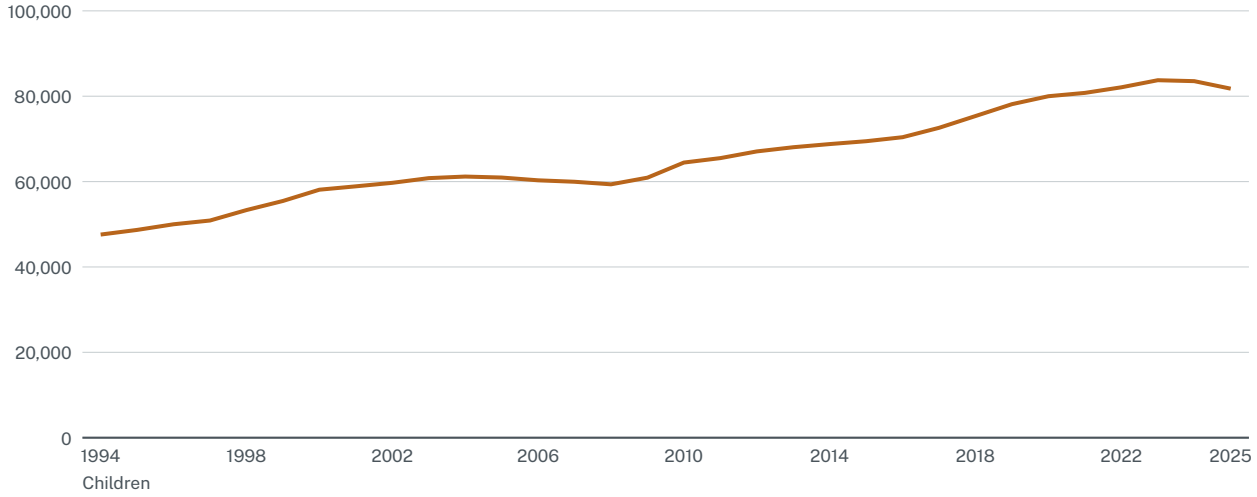

Line chart from 2015-16 to 2024-25: £12.5bn to £16.5bn in 2025-26 prices; £9.0bn to £16.0bn in cash.

Children's and young people's services by category, England, £ billion in 2025-26 prices

Stacked bar chart of councils' spending on children's and young people's services in England from 2015-16 to 2024-25; children looked after were £9.0bn in cash in 2024-25.

Children looked after on 31 March, England

Line chart of children looked after in England from 1994 (47,590 children) to 2025 (81,770 children).

Spending per looked-after child, England

Year	Cash	In 2025-26 prices
2020-21	£69,987	£85,025
2021-22	£74,643	£90,296
2022-23	£83,963	£94,921
2023-24	£97,442	£104,661
2024-25	£109,520	£113,190

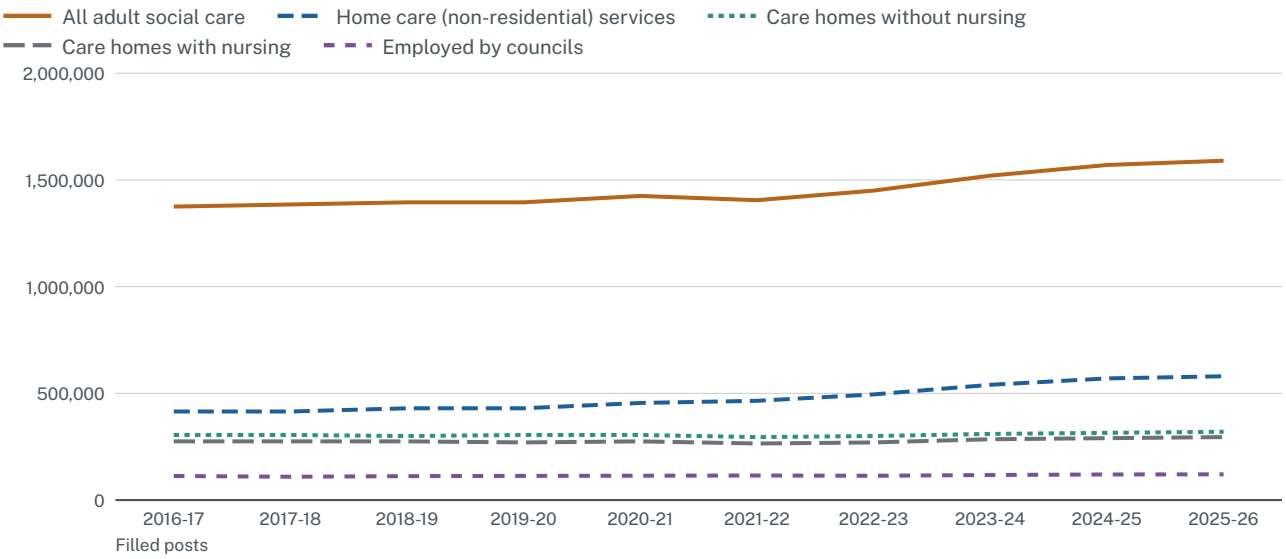

Spending on children looked after in the year divided by the number in care on the 31 March that ends it. It includes care leavers, adoption and special guardianship support, so it is more than the cost of a placement.

Source: Department for Education, LA and school expenditure: Financial year 2024-25 (s251_childrens_young_peoples_services_la_regional_national.csv), published 11 December 2025; Department for Education, Children looked after in England including adoptions: Reporting year 2025 (cla_number_and_rate_per_10k_children.csv), published 26 November 2025; Department for Education, Children looked after: time series 1994 onwards (cla_time_series_1994_2025.csv), published 26 November 2025.

Staff

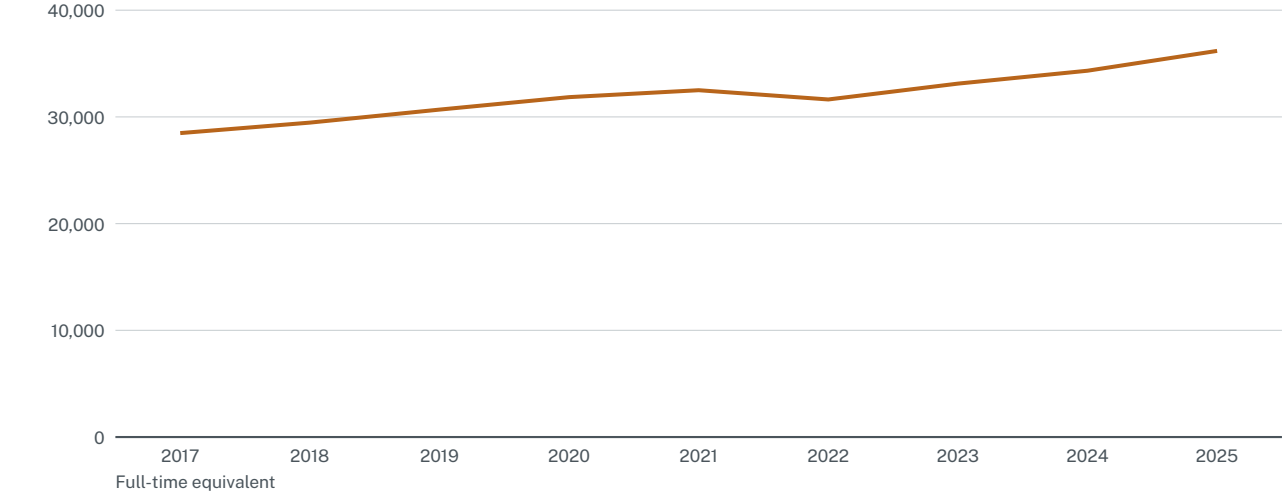

About 1,590,000 jobs were filled in adult social care in England in 2025-26, with a vacancy rate of 6.2% and 22.1% of staff leaving in the year.

Adult social care jobs in England (filled posts)

Line chart of filled posts in adult social care in England from 2016-17 (1,375,000 jobs) to 2025-26 (1,590,000 jobs).

Children and family social workers employed by councils, England (full-time equivalent)

Line chart of children and family social workers in England from 2017 (28,483 FTE) to 2025 (36,186 FTE), at 30 September.

Source: Skills for Care, Adult social care workforce estimates: trended data download; Department for Education, Children's social work workforce: Reporting year 2025 (csww_indicators_2017_to_2025.csv), published 19 March 2026.

Wales, Scotland and Northern Ireland

Welsh councils spent £3.3bn net on social services in 2025-26 (£1,030 per resident). Scottish councils spent £4.9bn net on social work in 2024-25 (£879 per resident); most adult social care money is passed to Integration Joint Boards, which run it with the NHS, so the council returns show one payment rather than services. Northern Ireland's social care is run with health care by its Health and Social Care Trusts.

Adult social care in Wales by setting, net spending, all councils

Year	Care homes	Home care	Direct payments	Everything else	Care homes share
2023-24	£665m	£344m	£97m	£678m	37.3%
2024-25	£716m	£375m	£108m	£714m	37.4%
2025-26	£784m	£402m	£108m	£791m	37.6%

Wales's shares are of all adult social care spending, including assessment and day care; England's are of long-term care only. They are not compared.

Where the money goes, level by level

6. Line or transaction

United Kingdom

HM Treasury's "personal social services": social care for older people, disabled adults, and children and families, run by councils (and in Northern Ireland by the Health and Social Care Trusts). It excludes benefits such as Attendance Allowance and Carer's Allowance, and NHS continuing healthcare. The UK figure includes spending not assigned to a nation, so the nations do not add up to it.

£56.1bn in 2025-26 (cash); £56.1bn in 2025-26 prices; £808 per resident; +3.9% on a year earlier in cash, +0.5% in real terms.

United Kingdom: by nation, 2024-25

Nation	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
England	£44.3bn	£45.8bn	£756	+4.0%	HM Treasury	Broken down below
Scotland	£4.9bn	£5.0bn	£877	+4.0%	HM Treasury	Broken down below
Wales	£3.3bn	£3.4bn	£1,030	+3.0%	HM Treasury	Broken down below
Northern Ireland	£1.7bn	£1.7bn	£872	+2.4%	HM Treasury	Department or service body not published: Northern Ireland has no council social services: social care is run with health care by five Health and Social Care Trusts, funded by the Department of Health. The trusts publish social care spending only inside their annual accounts, not in a common table by trust.

England

Identifiable spending on personal social services (council social care for adults and children, and Northern Ireland's Health and Social Care Trusts' social care), as HM Treasury's country and regional analysis counts it.

£44.3bn in 2024-25 (cash); £45.8bn in 2025-26 prices; £756 per resident; +8.0% on a year earlier in cash, +4.0% in real terms.

England: by department or service body, 2024-25

Cash is as published. Real terms are in 2025-26 prices, using HM Treasury's GDP deflator. Per resident divides by ONS mid-year population for the area the body serves. Changes compare the same body in consecutive years.

On the map

An interactive map or explorer appears here on the live page.

The map covers the whole UK. Where the nations publish the same measure, they share one scale. Where they publish different ones, each nation is shaded against its own measure on its own scale, named in its own part of the legend, and the nations cannot be compared with each other. Where a nation publishes nothing for a measure, the map says so and links to what it publishes instead. Pick an area for its figures and a link to its page.

Every one of the social services authorities, on each measure on the map England: Children looked after on 31 March per 10,000 children, 2025. Scotland: Children looked after on 31 July per 10,000 children, including those looked after at home, 2025. Wales: Children looked after on 31 March per 10,000 children, 2025. The nations' figures are different measures and are not directly comparable.

Council area	Nation	Looked-after children	Spending per adult	Spending per child	Care homes	Home care	Care home cost	Home care cost	Long-term support	Requests	Care jobs	Vacancies	Cost per child looked after	Caseload	Agency workers

What people say about it

Should there be a cap on what people pay for their own care?

Those who argued for a lifetime cap

- “We will protect individuals and families against unpredictable and potentially catastrophic care costs – so that from October 2023, no eligible person starting adult social care will have to pay more than £86,000 for personal care over their lifetime.” HM Government (Boris Johnson’s government), Build Back Better: Our Plan for Health and Social Care, Department of Health and Social Care and Cabinet Office (7 September 2021)

Those who decided not to go ahead with it

- “So it will not be possible to take forward these charging reforms. This will save over £1bn by the end of next year.” Rachel Reeves, Chancellor of the Exchequer, HM Treasury (29 July 2024) The charging reforms included the £86,000 cap, which had been delayed to October 2025.

Views are attributed to the people and organisations named, with the date and a link to where they said it. This site takes no side.

What these figures do and don't show

- **Nations are never added up or ranked.** England's adult figures are gross spending from the adult social care finance return, its children's figures gross spending from the section 251 return; Wales publishes net spending before specific grants and Scotland net spending after all grants. Each nation is compared only with itself.
- **Gross includes money that is not the council's own.** England's adult social care spending includes what people pay towards their care and what the NHS contributes (the Better Care Fund); the table of where the money comes from shows each.
- **Care homes against care at home** is a split of long-term care spending in England; short-term care, assessment and commissioning are outside it. Wales's split is of all adult spending, so the two shares are not the same measure.
- **Self-funders are not here.** People who arrange and pay for their own care home place or home care are outside these returns, so care home spending here is councils' spending, not the size of the market.
- **Cost per looked-after child** divides a year's spending by the children in care on one day; the spending also covers care leavers and adoption support.
- **Nothing here shows cause and effect.** Spending, people supported, children in care and staff are shown side by side; need, local prices and how councils record spending all differ.
- **Northern Ireland** runs social care through its Health and Social Care Trusts, which do not publish it by trust in a common table, so it appears at nation level only.

Figures from data/services/social-care.json, generated 13 November 2026.

Common questions

- **Who pays for social care?** Councils, from council tax (including the adult social care precept), business rates and government grants; the NHS for some joint care; and people themselves, through means-tested charges or by paying the whole cost. People who pay for all their own care are not counted in council figures.
- **Is social care the same as the NHS?** No. NHS care is free at the point of use and run by the NHS; social care is run by councils and is means-tested for adults. In Northern Ireland the two are run together by Health and Social Care Trusts, and in Scotland adult care is planned jointly by Integration Joint Boards.
- **Why do councils spend different amounts?** Mainly because of need: the number of older and disabled people and of children needing care, local care prices, and how many people pay for themselves. The figures here are side by side for comparison, not a verdict on any council.

Housing: public spending, homelessness and help with rent

Public services · Last updated 13 November 2026 · https://whereyourmoneygoes.co.uk/housing/

£22.5bn was spent on housing and community amenities in the UK in 2025-26, **£324** per resident. That is +0.3% on a year earlier after inflation (+3.7% in cash). In 2025-26 prices it has gone from £10.0bn in 1988-89 to £22.5bn. Help with rent (Housing Benefit and the Universal Credit housing element) is counted separately as social protection: £36.0bn in Great Britain in 2024-25. 135,580 households were in temporary accommodation in England at the end of March 2026.

Households in temporary accommodation per 1,000 households, England, March 2026
As of 13 August 2026

The short version

- **Help with rent is bigger than housing itself:** Housing Benefit and the Universal Credit housing element are counted as social protection and shown beside the housing total, not in it.
- **Temporary accommodation is the fastest-growing cost** for English councils; every council's figures are here, with households in it per 1,000 households.
- **Devolved:** each nation runs its own housing and homelessness law, so councils are compared within their own nation.

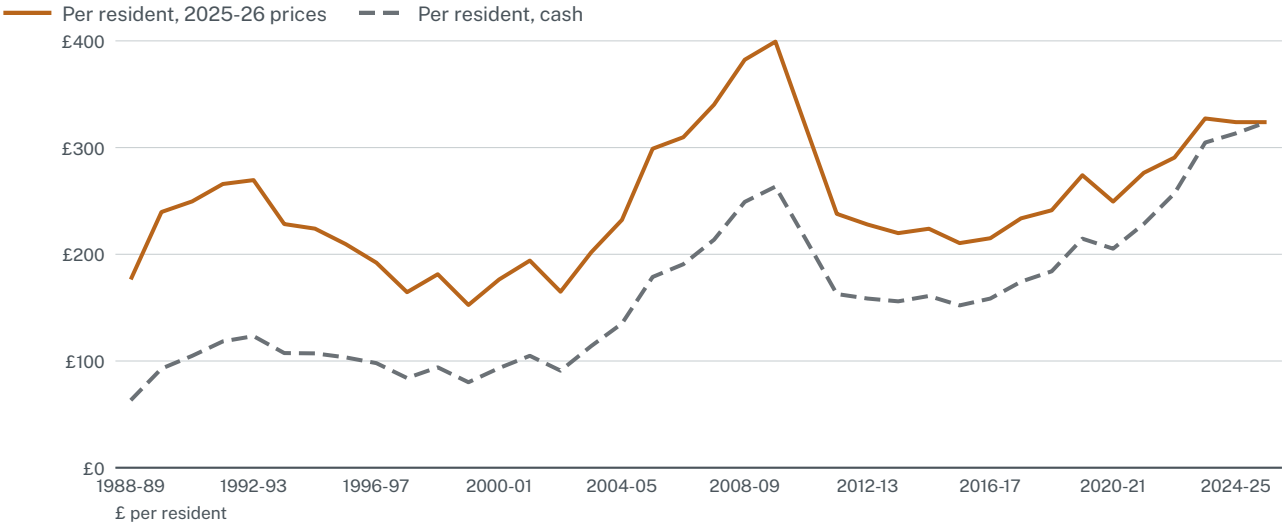

Over the longest run published: cash, real terms and per head

United Kingdom: spending in cash and in 2025-26 prices, £ billion

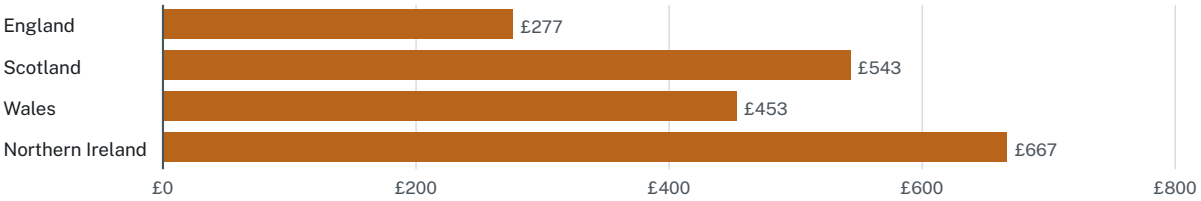

Line chart of United Kingdom spending from 1988-89 to 2025-26: £3.6bn to £22.5bn in cash; £10.0bn to £22.5bn in 2025-26 prices.

United Kingdom: spending per resident, 2025-26 prices

Line chart of United Kingdom spending per resident in 2025-26 prices from 1988-89 (£176) to 2025-26 (£324).

Spending per resident by nation, 2024-25

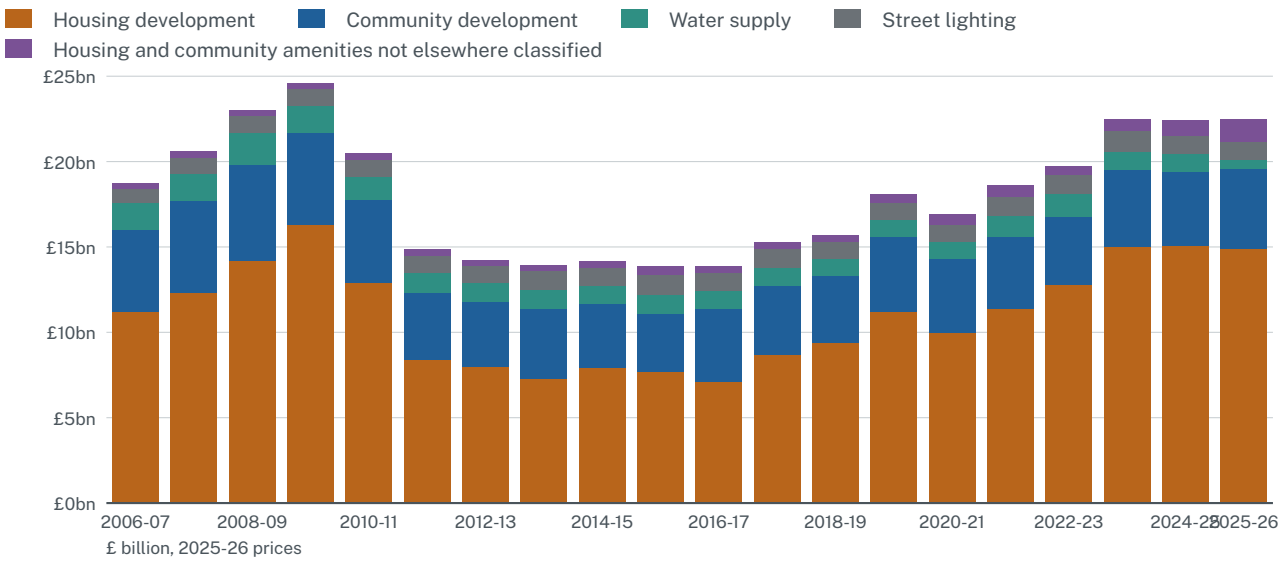

Bar chart of spending per resident by nation in 2024-25: England £277, Scotland £543, Wales £453, Northern Ireland £667.

Source: HM Treasury, PESA 2026: chapters 4 and 5 tables, published 16 July 2026; HM Treasury, PESA 2021: chapter 4 and 5 tables; HM Treasury, PESA 2016: chapter 4 and 5 tables; HM Treasury, PESA 2011: chapter 4 and 5 tables.

What the UK total is made of

Building and improving homes (housing development) is the largest part. Council housing here is mostly the Housing Revenue Account's capital spending; "other social housing" is mainly grant to housing associations. Social protection's housing line is Housing Benefit, which is not in the housing total.

UK housing and community amenities by part, 2025-26 prices, £ billion

Stacked bar chart of UK housing and community amenities from 2006-07 to 2025-26, in 2025-26 prices: Housing development £14.9bn, Community development £4.7bn, Water supply £534m, Street lighting £1.1bn, Housing and community amenities not elsewhere classified £1.3bn in 2025-26.

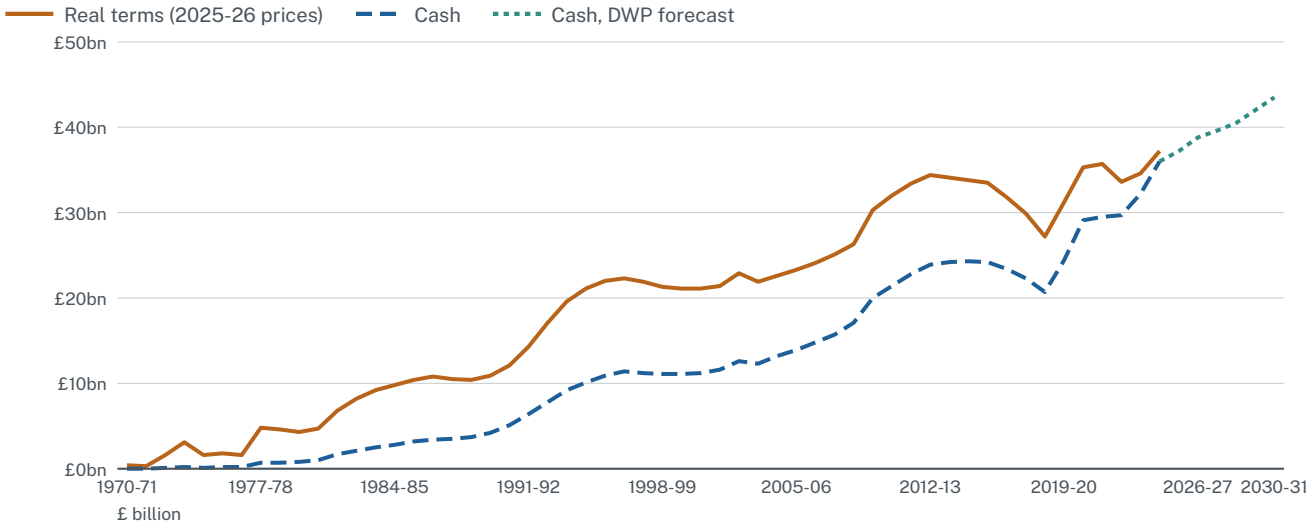

Housing development and social protection's housing line, UK, 2025-26, cash

Line	Cash, 2025-26	Real change on a year earlier	What it is
Housing development	£14.9bn	−1.6%	Building and improving homes: council housing (including the Housing Revenue Account's capital spending) and grants for other social housing.
of which council housing	£12.0bn	+0.5%	
of which other social housing	£2.9bn	−9.7%	Mainly grants to housing associations for affordable homes.
Social protection: housing (mainly Housing Benefit)	£14.5bn	−17.9%	Classed as social protection, not housing. Since Universal Credit, its housing element is counted with family benefits and income support, so this line shrinks as Housing Benefit is replaced.

Help with rent: Housing Benefit and the Universal Credit housing element

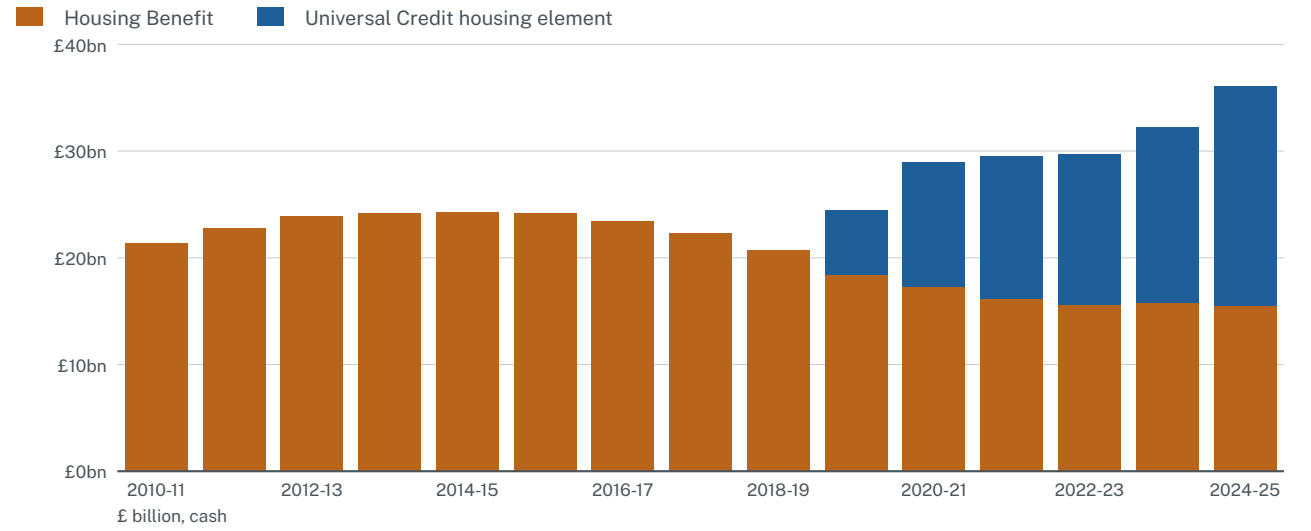

£36.0bn went on help with rent in Great Britain in 2024-25, £535 per resident: £22.0bn to social tenants and £12.6bn to private tenants, an average of £115.76 a week for a social tenant and £137.24 for a private tenant. It is social protection, not housing, so it is not in the totals above. The Department for Work and Pensions forecasts it and the rest of welfare: see the welfare spending forecast, and who receives housing support.

Housing Benefit and the Universal Credit housing element, Great Britain, £ billion

Line chart of help with rent in Great Britain from 1970-71 to 2024-25: £22m to £36.0bn in cash, £37.2bn in 2025-26 prices; DWP forecasts £43.5bn by 2030-31.

Housing Benefit and the UC housing element, Great Britain, £ billion, cash

Stacked bar chart of help with rent in Great Britain from 2010-11 to 2024-25: in 2024-25, Housing Benefit £15.5bn and the Universal Credit housing element £20.6bn.

Help with rent by nation, 2024-25

Nation	Cash	Per resident	Claims
England	£32.0bn	£546	4,851 thousand
Scotland	£2.5bn	£452	521 thousand
Wales	£1.5bn	£473	278 thousand

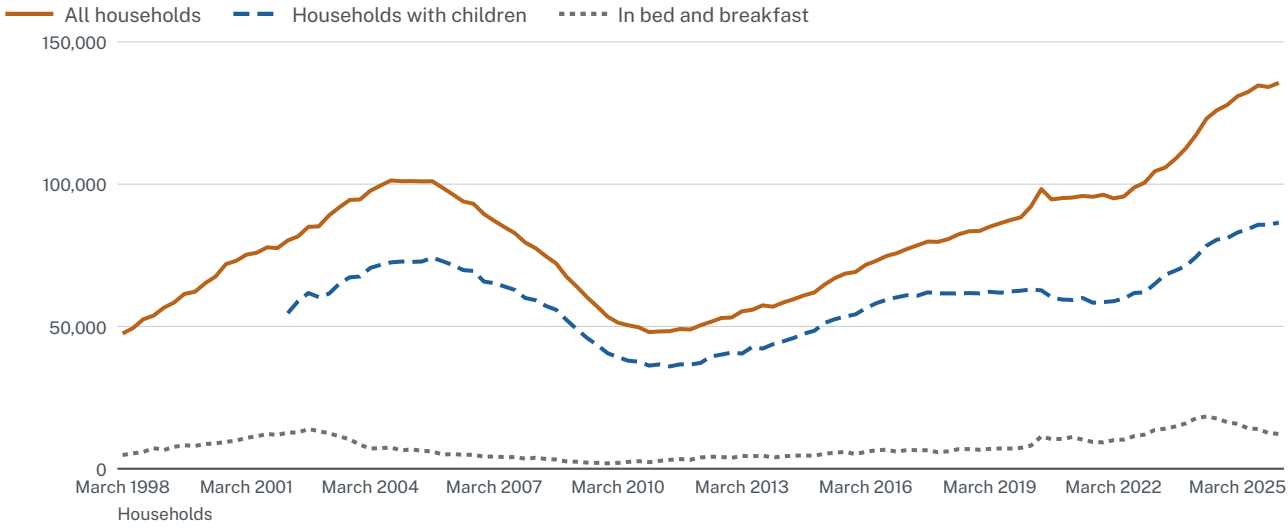

Housing Benefit for households in temporary accommodation came to £1.4bn in 2024-25; it is part of what councils recover against the cost of temporary accommodation below.

Source: Department for Work and Pensions, Benefit expenditure and caseload tables: outturn and forecast, Spring Forecast 2026 (Housing_benefits), published 14 April 2026.

Homelessness and temporary accommodation

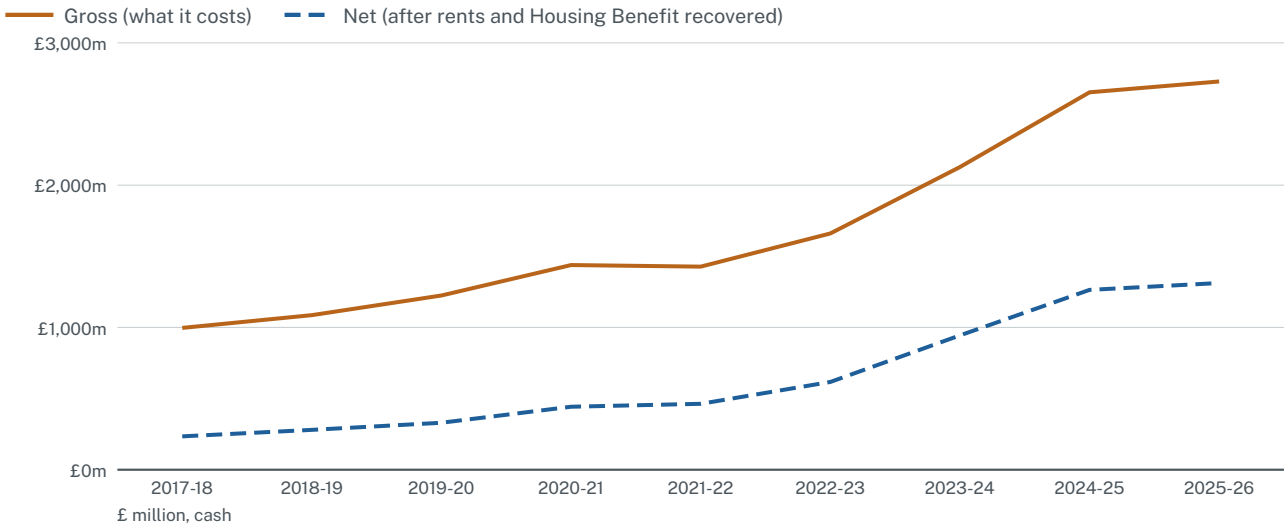

Councils in England, Scotland and Wales must house homeless households who qualify while they look for a settled home. Temporary accommodation is the largest part of what English councils spend on housing, and the part that has grown fastest. Northern Ireland's homelessness duty sits with the Housing Executive, not councils.

Households in temporary accommodation, England, end of each quarter

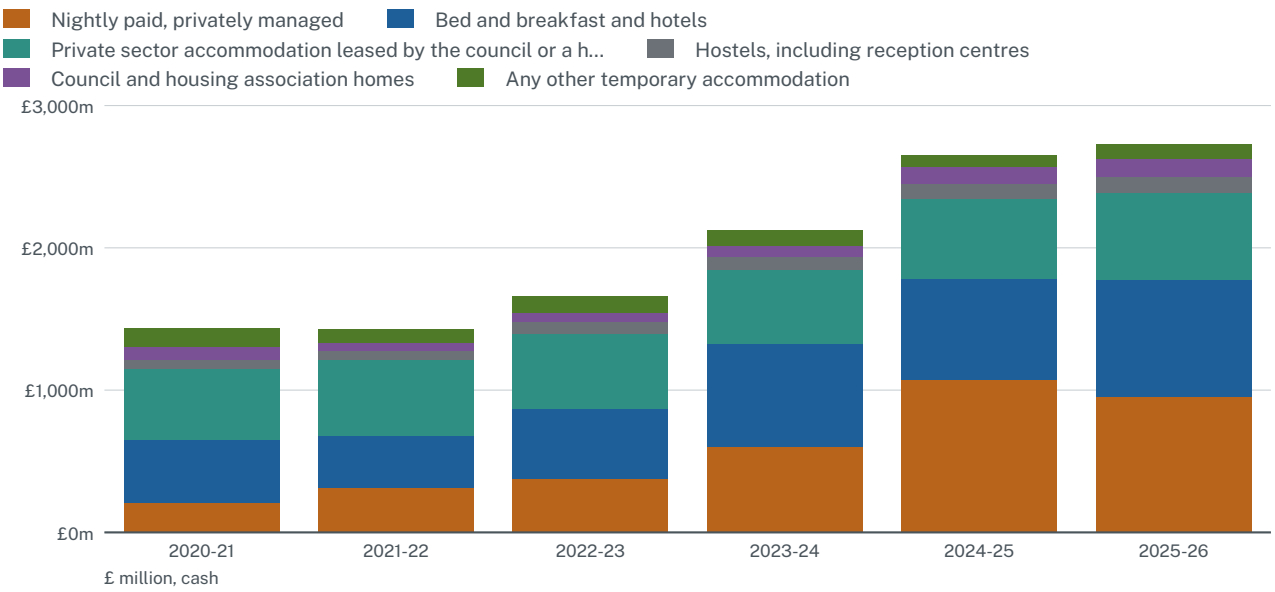

Line chart of households in temporary accommodation in England from March 1998 (47,520) to March 2026 (135,580).

English councils' spending on temporary accommodation, £ million, cash

Line chart of English councils' spending on temporary accommodation from 2017-18 to 2025-26: gross £997m to £2.7bn; net £234m to £1.3bn.

Temporary accommodation by type, England, gross cost, £ million, cash

Stacked bar chart of the gross cost of temporary accommodation in England by type from 2020-21 to 2025-26: Nightly paid, privately managed £955m, Bed and breakfast and hotels £823m, Private sector accommodation leased by the council or a housing association £609m, Hostels, including reception centres £110m, Council and housing association homes £130m, Any other temporary accommodation £103m in 2025-26.

Temporary accommodation by nation, as each counts it

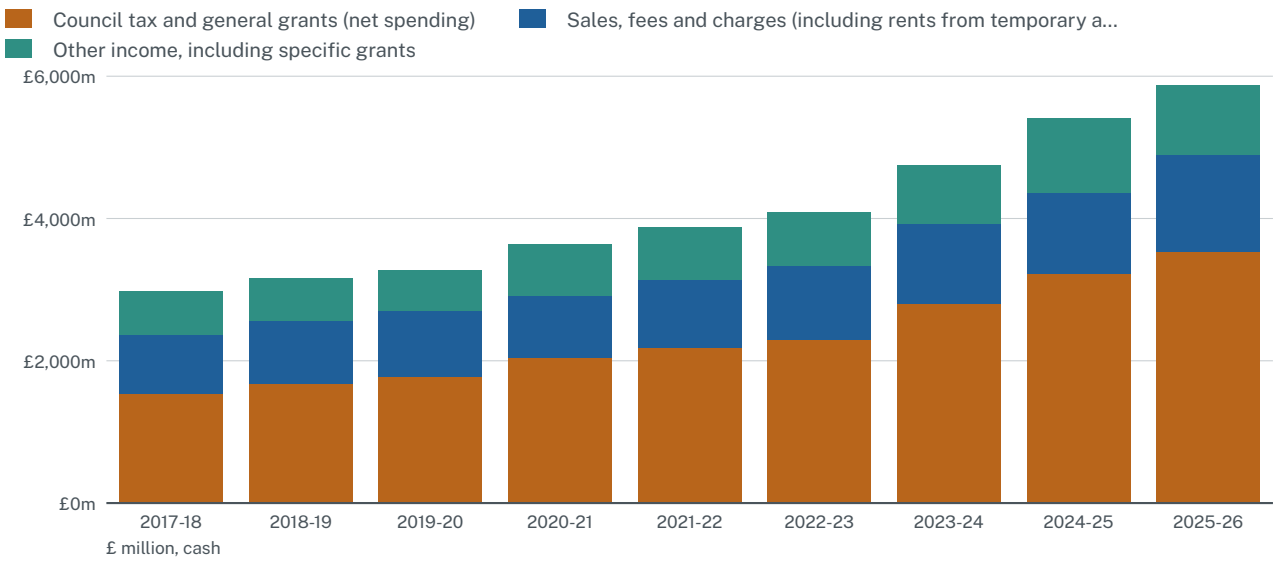

Nation	Date	Number	Per 1,000	Counts
England	2026-03	135,580	5.5 per 1,000 households	Households, under England's own homelessness law
Scotland	2026-03	19,004	3.43 per 1,000 residents	Households, under Scotland's own homelessness law
Wales	2026-03	6,201	4.5 per 1,000 households	Households, under Wales's own homelessness law

Source: Ministry of Housing, Communities and Local Government, Statutory homelessness: England level time series live tables (TA1), published 13 August 2026; Ministry of Housing, Communities and Local Government, Local authority revenue expenditure and financing: revenue outturn time series (RSX and RO4, housing), published 28 September 2026; Scottish Government, Homelessness in Scotland 2025-26: main tables (table 27), published 22 September 2026; Welsh Government, Homeless individuals temporarily accommodated at the end of the period, by local authority and accommodation type, published 29 October 2026.

Where the money comes from, and staff

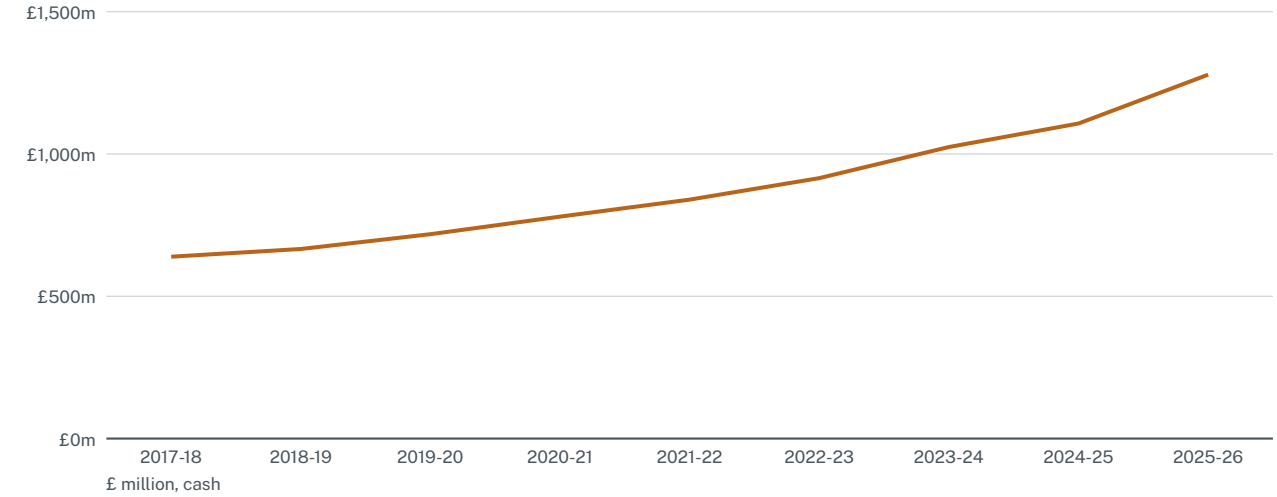

English councils spent £5.9bn on General Fund housing in 2025-26. £1.4bn came back in fees, charges and rents and £973m in other income; the remaining £3.5bn was paid for from council tax and general grants. £1.3bn of the spending was on staff.

English councils' General Fund housing: what pays for it, £ million, cash

Stacked bar chart of how English councils' General Fund housing is paid for from 2017-18 to 2025-26: in 2025-26, fees and charges £1.4bn, other income including specific grants £973m, and council tax and general grants £3.5bn.

English councils' employee costs on General Fund housing, £ million, cash

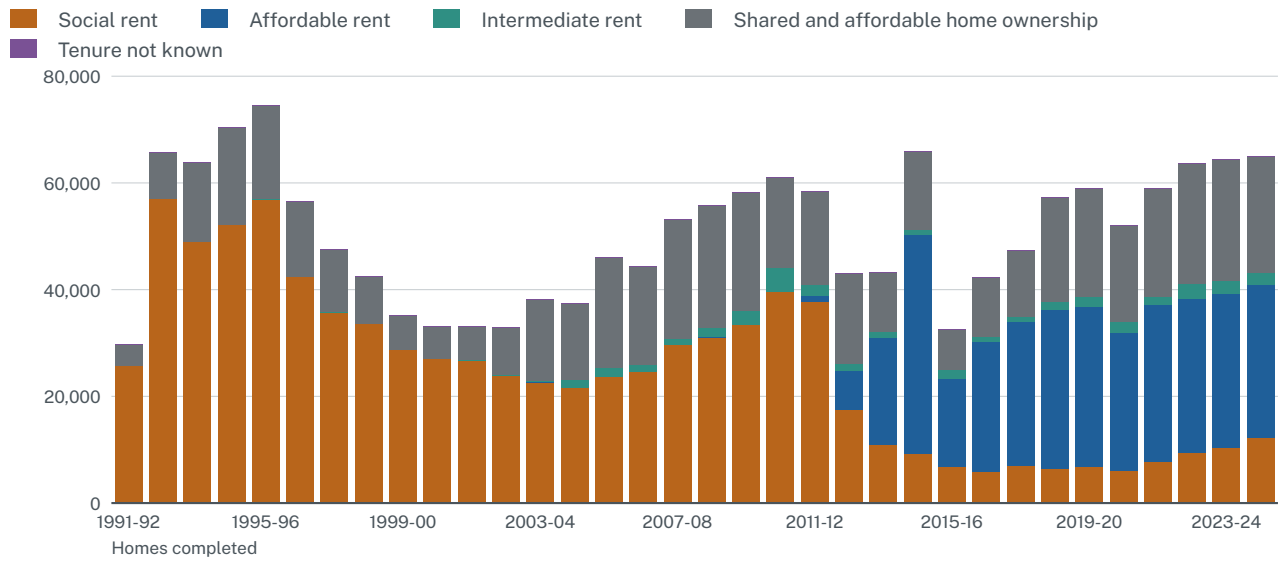

Line chart of English councils' employee costs on housing from 2017-18 (£639m) to 2025-26 (£1.3bn).

Affordable housing programmes and the homes built

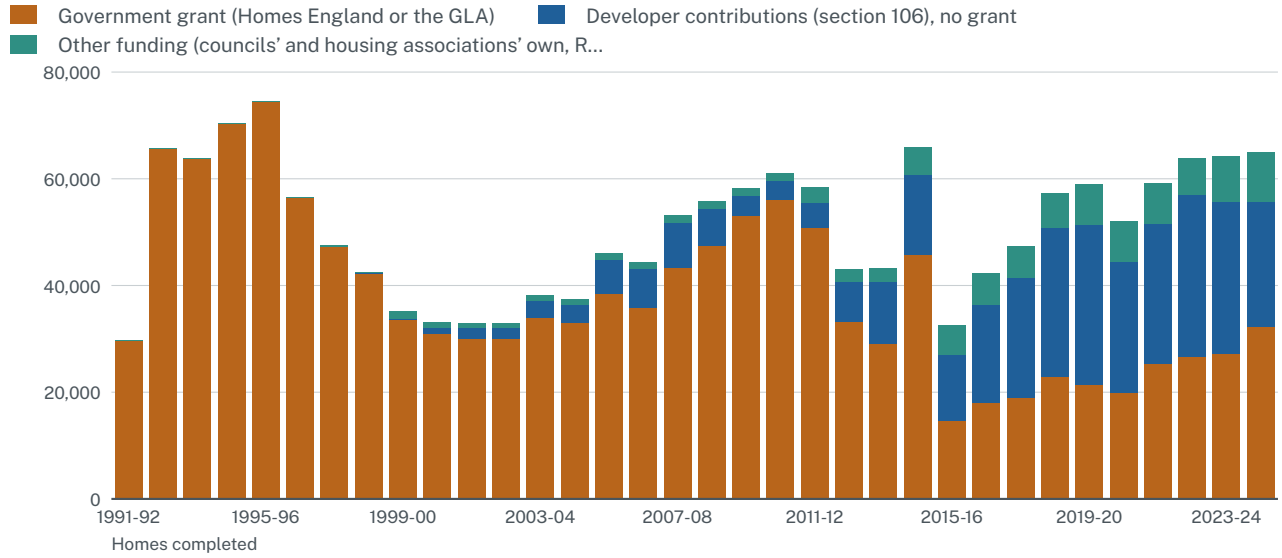

Government grant for new affordable homes in England goes through Homes England (and the Greater London Authority in London). The homes counted below are every affordable home completed, whoever funded it; they are shown beside the programmes, not as their result. Scotland's Affordable Housing Supply Programme and Wales's Social Housing Grant are published as annual reports and are not read here.

Affordable homes completed in England, by tenure

Stacked bar chart of affordable homes completed in England from 1991-92 to 2024-25: 64,921 in 2024-25, of which social rent 12,267, affordable rent 28,648, intermediate rent 2,278, shared and affordable home ownership 21,728.

Affordable homes completed in England, by how they were funded

Stacked bar chart of affordable homes completed in England by funding from 1991-92 to 2024-25: in 2024-25, Government grant (Homes England or the GLA) 32,166, Developer contributions (section 106), no grant 23,398, Other funding (councils' and housing associations' own, Right to Buy receipts, other) 9,357.

Government affordable housing programmes, England

Programme	Years	Money	Homes	What the figure is
Affordable Homes Programme 2021 to 2026 (Homes England)	2021-22 to 2025-26	£7.6bn allocated to 2025-03-31	104,948	Grant allocated by Homes England to the end of March 2025, and the homes it is to help build. Excludes London, where the Greater London Authority runs the programme. Allocations are commitments, not money spent, and not homes completed. Checked 2026-09-24.
Social and Affordable Homes Programme 2026 to 2036	2026-27 to 2035-36	£39.0bn announced	—	The budget announced for the ten years from April 2026, run by Homes England outside London and the GLA in London. An announcement of planned spending, not money spent. Checked 2026-09-24.

Source: Ministry of Housing, Communities and Local Government, Affordable housing supply open data, 1991-92 to 2024-25, published 3 September 2026; Homes England, Homes England: Affordable Homes Programme 2021 to 2026 summary to end of March 2025 (tables 1a and 1b), published 31 March 2025; Ministry of Housing, Communities and Local Government, MHCLG: Social and Affordable Homes Programme 2026 to 2036 (collection page), published 7 November 2025.

Wales

Housing and community amenities: identifiable spending in the nation, current and capital, by all of the public sector. The councils' General Fund housing below is one part of it, published separately; the rest (grants for new affordable homes, council housing capital, community development, water and street lighting) is not published by body in one series, so the parts below do not add up to this figure.

£1.4bn in 2024-25 (cash); £1.5bn in 2025-26 prices; £453 per resident; +1.6% on a year earlier in cash, −2.3% in real terms.

Wales: by department or service body, 2024-25

Cash is as published. Real terms are in 2025-26 prices, using HM Treasury's GDP deflator. Per resident divides by ONS mid-year population for the area the body serves. Changes compare the same body in consecutive years.

On the map

An interactive map or explorer appears here on the live page.

The map covers the whole UK. Where the nations publish the same measure, they share one scale. Where they publish different ones, each nation is shaded against its own measure on its own scale, named in its own part of the legend, and the nations cannot be compared with each other. Where a nation publishes nothing for a measure, the map says so and links to what it publishes instead. Pick an area for its figures and a link to its page.

Every one of the housing authorities, on each measure on the map England: Households in temporary accommodation at the end of the quarter, per 1,000 households, 2026-03. Scotland: Households in temporary accommodation on 31 March, per 1,000 households, 2026-03. Wales: Households in temporary accommodation at the end of the quarter, per 1,000 households, 2026-03. Northern Ireland: Placements in temporary accommodation made in the half year, per 1,000 households, 2026-03. The nations' figures are different measures and are not directly comparable.

Council area	Nation	Temporary accommodation	Homelessness spending	Housing spending	Affordable homes	Temporary accommodation spending	Temporary accommodation cost

Every council, compared within its own nation

Housing authorities are district, unitary, metropolitan and London borough councils in England, and every council in Scotland and Wales. Each council's name links to its area page. These figures sit beside each other; they do not show that one caused another. Demand, rents and land differ between areas, and a council that places households outside its own area still counts them as its own.

England

English housing authorities: temporary accommodation, spending per resident and affordable homes. The England row is MHCLG's published total; money is all housing authorities together.

Council	Households in temporary accommodation per 1,000 households, 2026-03	Spending on temporary accommodation per resident, 2025-26	Affordable homes completed per 1,000 households, 2024-25	General Fund housing spending per resident, 2025-26

Vale of Glamorgan	3.65 per 1,000 residents	£216.59
Wrexham	3.23 per 1,000 residents	£227.66

What each measure counts

- **Households in temporary accommodation per 1,000 households** Households the council has placed in temporary accommodation at the end of the quarter, per 1,000 households in its area (MHCLG's own household figures). England, housing authorities (district, unitary, metropolitan and London borough councils). Councils in high-cost areas often place households outside their own area; they are counted by the council that placed them.
- **Spending on temporary accommodation per resident** Net current spending on temporary accommodation (after rents and Housing Benefit recovered) per resident, cash. England, housing authorities, revenue outturn. From 2020-21 the line excludes administering it.
- **Gross cost of temporary accommodation per resident** Total expenditure on temporary accommodation before rents and Housing Benefit recovered, per resident, cash. England, housing authorities.
- **Spending on homelessness per resident** Net current spending on homelessness (temporary accommodation, prevention, relief, support and administration) per resident, cash. England, housing authorities.
- **General Fund housing spending per resident** Net current spending on housing services paid for from council tax and general grants (not council homes, which the Housing Revenue Account pays for from rents), per resident, cash. England, housing authorities.
- **Affordable homes completed per 1,000 households** Affordable homes (social rent, affordable rent, intermediate rent and shared or affordable ownership) completed in the local authority area in the financial year, per 1,000 households in the area (MHCLG's latest household figure). Counts homes by where they are, whoever built or funded them. England.

- **Households in temporary accommodation per 1,000 residents (Scotland)** Households in temporary accommodation at 31 March per 1,000 residents (ONS mid-year estimate). Scotland, councils. Scottish law on homelessness differs from England's, so this is compared within Scotland only.
- **Non-HRA housing spending per resident (Scotland)** Net revenue expenditure on housing outside the Housing Revenue Account, after all grants, per resident, cash. Scotland, councils.
- **Spending on homelessness per resident (Scotland)** Net revenue expenditure on homelessness per resident, cash. Scotland, councils.
- **Homeless people in temporary accommodation per 1,000 residents (Wales)** People (not households) in temporary accommodation at the end of the month, per 1,000 residents. Wales, councils. Wales counts individuals, so this is not comparable with the English or Scottish household figures.
- **Households in temporary accommodation per 1,000 households (Scotland)** Households in temporary accommodation at 31 March (Scottish Government homelessness statistics, table 27) per 1,000 households in the council area (National Records of Scotland household estimate for the June before). Scotland has no priority need test, so councils owe accommodation to more homeless households than English councils do; compare within Scotland only.
- **Households in temporary accommodation per 1,000 households (Wales)** Households accommodated temporarily by the council at the end of the quarter (Welsh Government statutory homelessness statistics) per 1,000 households in the council area (Welsh Government household estimate for the latest mid-year before). Counted under the Housing (Wales) Act 2014, whose duties differ from England's; compare within Wales only.
- **Placements in temporary accommodation per 1,000 households, half year (Northern Ireland)** Placements of homeless households in temporary accommodation by the Northern Ireland Housing Executive in the six months to the date shown, by council area (Department for Communities homelessness bulletin, table 3.2A), per 1,000 households at the 2021 census. A count of placements made in the half year, not of households in temporary accommodation on one day as England, Scotland and Wales count; the Housing Executive, not the council, is the housing authority.
- **Affordable homes delivered per 1,000 households (Wales)** Additional affordable housing units delivered in the council area in the financial year, all providers, types and funding (Welsh Government, StatsWales), per 1,000 households (Welsh Government household estimate for the mid-year the financial year starts). Includes homes bought or leased as well as built, so it is not the same count as England's completions.
- **Council Fund housing spending per resident (Wales)** Net current spending on Council Fund housing per resident, cash. Wales, councils. Includes Housing Benefit paid to tenants, which DWP refunds, so it is not comparable with England or Scotland.

What these figures do and don't show

- **Housing money and help with rent are kept apart.** The UK and nation totals are HM Treasury's housing and community amenities, which also covers community development, water supply and street lighting. Housing Benefit and the Universal Credit housing element are social protection in that classification, larger than the housing total itself, and are shown beside it, never added to it.
- **Different measures at each level.** Below the nation totals are councils' General Fund housing: day-to-day spending paid for from council tax and general grants. It leaves out council homes (the Housing Revenue Account, paid for from rents), capital, and the grants for new affordable homes, so the councils do not add up to the nation figure.
- **England is not the UK.** Temporary accommodation spending, affordable homes completed and the Homes England programmes are England's. Housing is devolved, and each nation's figures are shown on their own.
- **Each nation counts homelessness under its own law.** England and Scotland count households in temporary accommodation, Wales counts people; the councils of each nation are compared only with each other.
- **Net is after rents and Housing Benefit recovered.** Temporary accommodation is shown both gross (what it costs) and net (what is left for the council to fund). A council placing households in another area counts them as its own.
- **Nothing here shows cause and effect.** Homes built and households in temporary accommodation sit beside the money; rents, land prices, local demand and past building all shape them.
- **Recent years move.** The latest revenue outturn year is missing some councils' returns (MHCLG's England total includes its estimates for them); the latest affordable housing and DWP figures are revised in later editions.

Figures from data/services/housing.json, generated 13 November 2026.

Common questions

- **Is Housing Benefit counted as housing spending?** No. HM Treasury classes Housing Benefit and the Universal Credit housing element as social protection. This page shows them beside the housing total and never adds them to it.
- **Why does my council spend so much on temporary accommodation?** Councils must house homeless households who qualify while a settled home is found. Where rents are high and social homes are scarce, more households need temporary accommodation and it costs more; the page shows each council's figures beside the others in its nation, not the reasons.

Environment and rural: flood defences, farm support and waste

Public services · Last updated 13 November 2026 · https://whereyourmoneygoes.co.uk/environment/

£25.8bn was spent on environment protection and agriculture in the UK in 2025-26, **£371** per resident. That is +7.1% on a year earlier after inflation (+10.7% in cash). In 2025-26 prices it has gone from £23.5bn in 2006-07 to £25.8bn. Flood and coastal defence in England took £1.4bn of central government money in 2024-25. Farm support payments across the UK were £4.9bn in 2025.

As of 15 July 2026

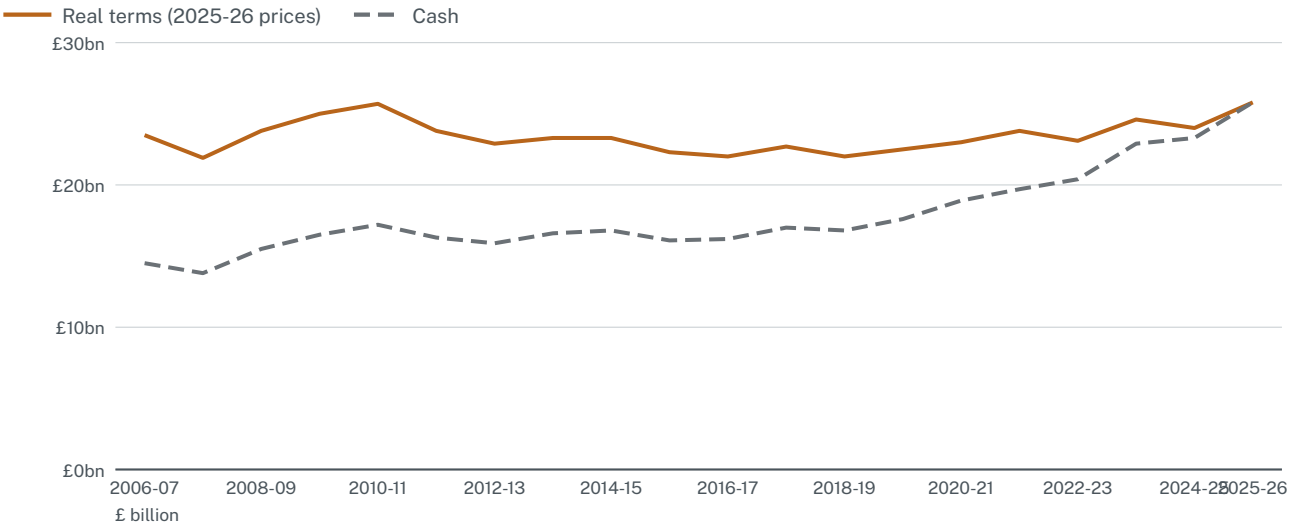

42.0%
Household waste recycled, England, 2024-25
As of 31 March 2026

The short version

- **Farm support is moving from land to actions:** in 2025 agri-environment schemes paid £1.8bn and the Basic and delinked payments £1.0bn across the UK.
- **Payments are concentrated:** the top 10% of CAP recipients in England received 54% of the money in 2024.
- **Recycling has stalled:** England recycled 42.0% of household waste in 2024-25, about the same as ten years earlier.

Farm subsidies over fifty years

Subsidies to UK farming were £3.4bn in 2025, 40% of Total Income from Farming (£8.4bn). In 2025 prices they have gone from £1.4bn in 1973 to £3.4bn. Since 2021 direct payments have been funded by the UK rather than the EU budget.

Subsidies to UK farming and Total Income from Farming, 2025 prices, £ million

Line chart from 1973 to 2025: subsidies £1.4bn to £3.4bn; Total Income from Farming £13.4bn to £8.4bn, in 2025 prices.

Subsidies and farm income, UK, cash, every fifth year

Year	Subsidies	Total Income from Farming	Subsidies as share of income
1975	£267m	£1.1bn	25%
1980	£220m	£1.3bn	17%
1985	£479m	£1.4bn	34%
1990	£462m	£1.8bn	25%
1995	£2.4bn	£4.9bn	48%
2000	£2.5bn	£1.4bn	180%
2005	£3.1bn	£2.2bn	140%
2010	£3.5bn	£3.7bn	96%
2015	£2.9bn	£3.8bn	76%
2020	£3.3bn	£5.0bn	66%
2025	£3.4bn	£8.4bn	40%

Source: Department for Environment, Food and Rural Affairs, Agriculture in the United Kingdom 2025: chapter 10 (agricultural support payments) and chapter 4 (accounts) data sets, published 3 September 2026.

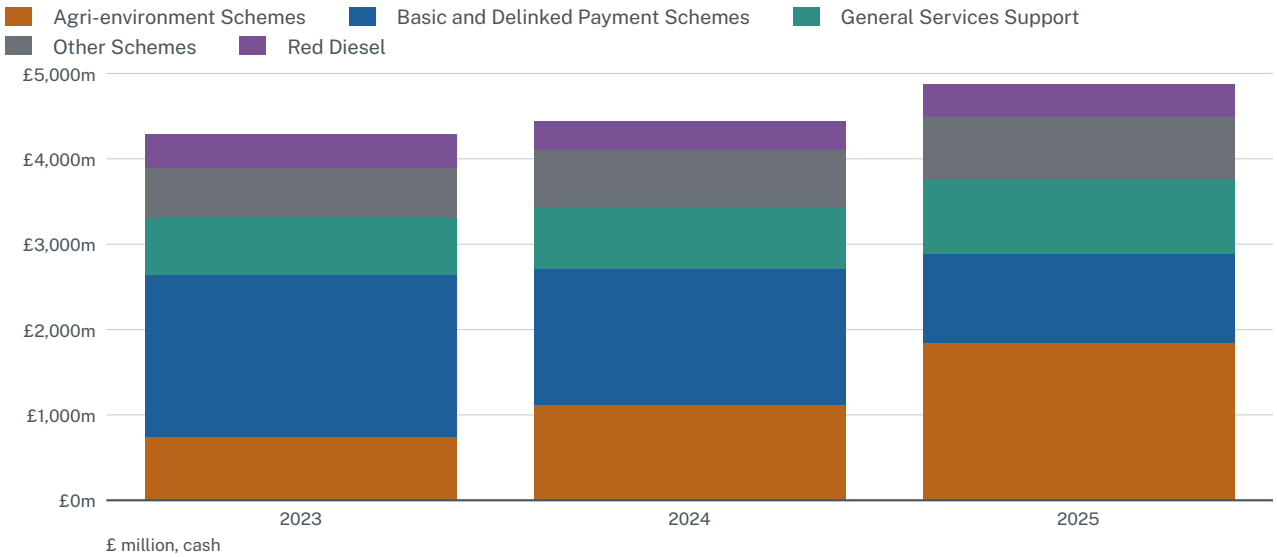

Farm support now: by kind, scheme and nation

In 2025 £4.9bn was paid to support UK agriculture, £3.0bn of it identifiably in England. Payments for land area, the Basic Payment Scheme and its delinked successor in England, are falling; agri-environment schemes, which pay for actions such as hedgerow management and cover crops, are growing. Each nation runs its own schemes.

Agricultural support payments by nation, calendar years, £ million cash

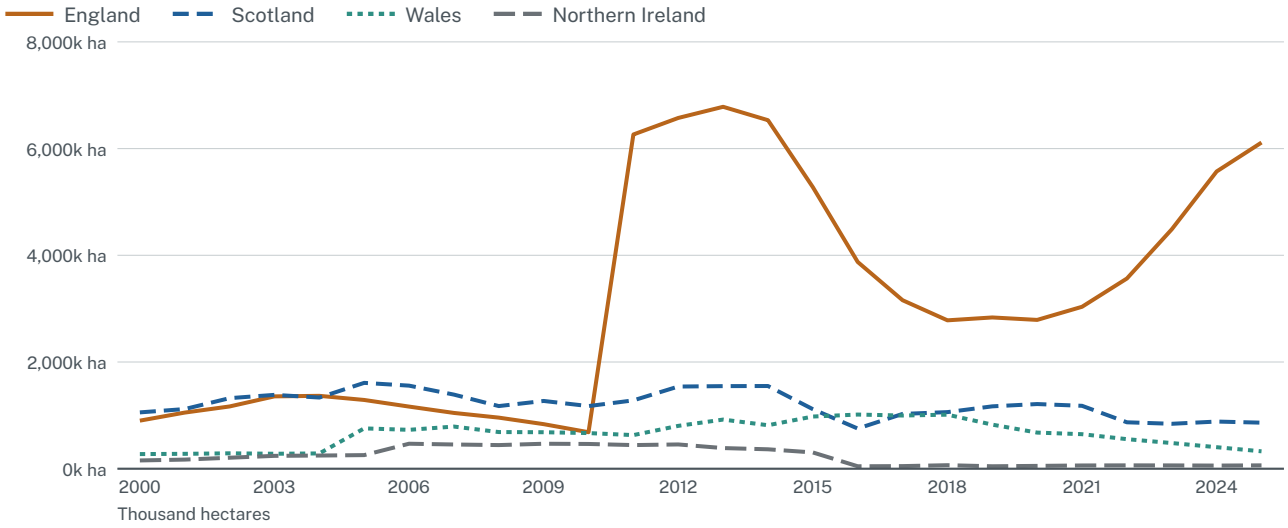

Nation	2023	2024	2025	Share, 2025
England	£2.2bn	£2.6bn	£3.0bn	61%
Scotland	£604m	£631m	£718m	15%
Wales	£407m	£245m	£274m	6%
Northern Ireland	£405m	£382m	£403m	8%
Not split by nation	£626m	£613m	£521m	11%
United Kingdom	£4.3bn	£4.4bn	£4.9bn	100%

UK agricultural support payments by kind, £ million, cash

Stacked bar chart of UK agricultural support payments by kind from 2023 to 2025: Agri-environment Schemes £1.8bn, Basic and Delinked Payment Schemes £1.0bn, General Services Support £864m, Other Schemes £731m, Red Diesel £384m in 2025.

Land under agri-environment schemes, thousand hectares

Line chart from 2000 to 2025 of land under agri-environment schemes: UK 4,796 to 7,365 thousand hectares.

England: Rural Payments Agency net scheme spending, financial years, £ million (accounts basis)

Scheme	2024-25	2025-26
Sustainable Farming Incentive	£316m	£738m
Countryside Stewardship – revenue	£566m	£533m
Capital grants	£244m	£242m
Environmental Stewardship	£96m	£111m
Fruit and Vegetables	£41m	£38m
Farming Equipment and Technology Fund	£58m	£34m
Farming Transformation Fund	£15m	£28m
Other schemes	£5m	£4m
Animal Health and Welfare Programme	£2m	£3m
Basic Payment Scheme – delinked payments	−£487m	£2m
School Milk	£2m	£2m
Other scheme related costs	−£1m	£2m
Sustainable Farming Incentive special payments	£3m	£0m
Farming Recovery Fund	£59m	−£0m
Basic Payment Scheme	£2m	−£1m
Total	£915m	£1.7bn

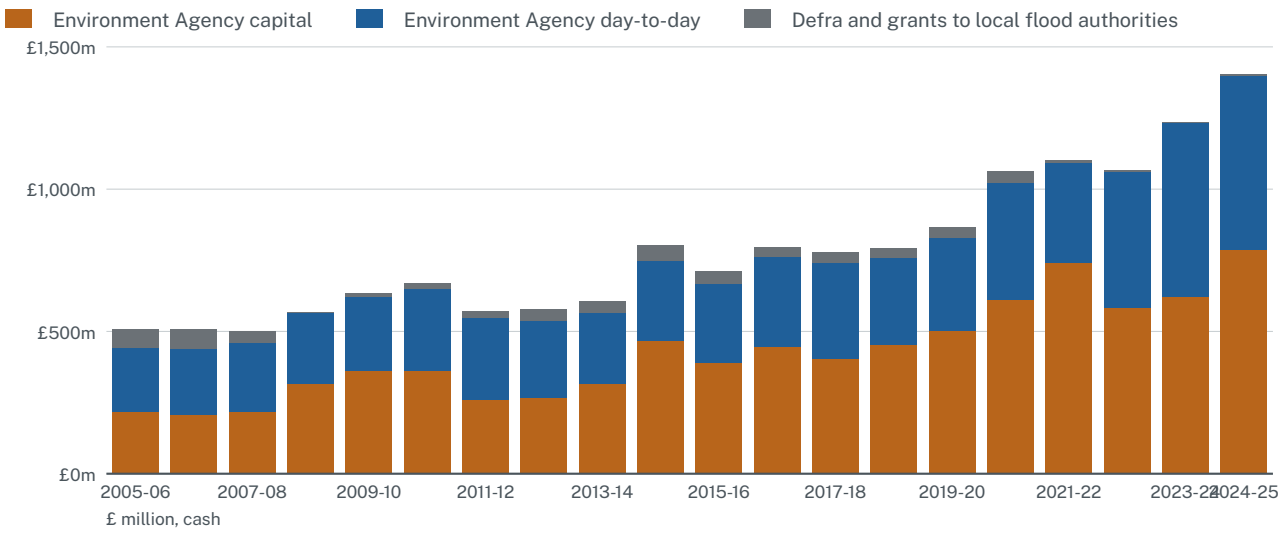

Accounts record spending when it is owed: all delinked payments to 2027-28 were counted in 2023-24, so they barely appear here, and a revaluation in 2024-25 shows as negative spending. The Basic Payment Scheme ended in England in 2023; delinked payments, not tied to farming land, replace it and shrink each year until 2027.

Source: Department for Environment, Food and Rural Affairs, Agriculture in the United Kingdom 2025: chapter 10 (agricultural support payments) and chapter 4 (accounts) data sets, published 3 September 2026; Rural Payments Agency, Rural Payments Agency annual report and accounts 2025-26: note 5 (schemes administered by the agency) and staff report, published 9 July 2026.

Flood and coastal defences in England

Central government spent £1.4bn on flood and coastal erosion risk management in England in 2024-25, against £509m in 2005-06. Most goes through the Environment Agency, which builds and maintains defences and runs flood warnings; councils, internal drainage boards and water companies also manage flood risk. Scotland, Wales and Northern Ireland fund flood defence through their own governments and councils, and their figures are in the drill-down under other environment protection.

Central government spending on flood and coastal defence, England, £ million, cash

Stacked bar chart from 2005-06 to 2024-25: Environment Agency capital £217m to £789m, day-to-day £228m to £609m; total £509m to £1.4bn.

Beside the money: properties better protected and the condition of defences, England

Year	Spending, cash	Homes better protected	Properties better protected	High-consequence defences at target condition
2010-11	£670m	79,000	not published	98.0%
2011-12	£573m	43,300	not published	98.0%
2012-13	£576m	55,700	not published	97.7%
2013-14	£606m	40,500	not published	94.0%
2014-15	£803m	32,600	not published	96.6%
2015-16	£711m	54,500	not published	97.7%
2016-17	£795m	42,500	not published	97.1%
2017-18	£777m	45,900	not published	97.9%
2018-19	£792m	50,800	not published	97.9%
2019-20	£867m	48,700	not published	96.1%
2020-21	£1.1bn	72,000	not published	94.5%
2021-22	£1.1bn	not published	32,900	94.1%
2022-23	£1.1bn	not published	26,400	94.5%
2023-24	£1.2bn	not published	28,900	92.6%
2024-25	£1.4bn	not published	27,500	92.8%
2025-26	not published	not published	34,400	93.0%

Homes better protected (to 2020-21) and properties better protected (from 2021-22, counting businesses and public buildings too) are the Environment Agency's modelled estimates for schemes completed in the year; the two series are not comparable. Asset condition is the share of high-consequence defences at or above their target grade, 93.0% in 2025-26 Q4; from 2018-19 the year's last quarter.

Environment Agency flood spending by regional flood and coastal committee, 2024-25, £ million

Committee area	Day-to-day	Capital	Local levy	Total	Share
Thames	£68m	£78m	£16m	£162m	13%

Northern Ireland	£1.3bn	£1.3bn	£657	+5.5%	HM Treasury	Broken down below

England

Identifiable spending in England on environment protection and on agriculture, forestry and fishing (HM Treasury country and regional analysis): spending that can be identified as for the benefit of its residents. It is not all devolved: some is spent by UK departments. The Defra group row is the department's own budget, a different measure that overlaps the Treasury's headings above it (it pays for flood defences, farm schemes and much else); it is not part of their total.

£17.5bn in 2024-25 (cash); £18.1bn in 2025-26 prices; £299 per resident; +0.7% on a year earlier in cash, −3.1% in real terms.

England: by spending category, 2024-25

Spending category	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Waste management	£9.3bn	£9.6bn	£158	−1.8%	HM Treasury	Broken down below
Defra group: total departmental budget (outturn)	£7.2bn	£7.5bn	£124	+2.9%	HM Treasury	Broken down below
Agriculture, forestry and fishing	£4.0bn	£4.1bn	£67.53	−16.6%	HM Treasury	Line or transaction not published: The Treasury does not split this by body. The Rural Payments Agency's schemes are under the Defra group below; farm support payments by scheme and nation, and every recipient of a CAP payment, are in the farm support sections of this page.
Other environment protection	£2.4bn	£2.4bn	£40.30	−6.0%	HM Treasury	Line or transaction not published: The Treasury does not split this further. Flood and coastal erosion risk management, the largest part, is under the Defra group below, down to each regional flood and coastal committee; the Environment Agency's own funding and staff are in the section on it.
Pollution abatement	£1.2bn	£1.3bn	£20.85	+66.1%	HM Treasury	Line or transaction not published: The Treasury does not split its sub-functions by body or area in the country and regional analysis; departmental and council returns classify the same money differently, so the two cannot be joined line by line.
Protection of biodiversity and landscape	£436m	£451m	£7.44	+0.1%	HM Treasury	Line or transaction not published: The Treasury does not split its sub-functions by body or area in the country and regional analysis; departmental and council returns classify the same money differently, so the two cannot be joined line by line.
Environmental research and development	£300m	£310m	£5.12	+21.8%	HM Treasury	Line or transaction not published: The Treasury does not split its sub-functions by body or area in the country and regional analysis; departmental and council returns classify the same money differently, so the two cannot be joined line by line.

Waste management

Collecting, treating and disposing of waste: almost all of it councils' spending.

£9.3bn in 2024-25 (cash); £9.6bn in 2025-26 prices; £158 per resident; +2.1% on a year earlier in cash, −1.8% in real terms.

Waste management: by local body, 2024-25

Local body	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Councils in England: waste services, net revenue spending	£4.5bn	£4.6bn	£76.05	+0.7%	Ministry of Housing, Communities and Local Government	Broken down below

Councils in England: waste services, net revenue spending

Every council's net revenue spending on waste, added up (438 bodies' returns, including county councils and joint waste authorities). A different measure from the Treasury's figure above it: revenue only, after charges and other income. Each council's figure, per household or per resident, is in the waste section and on the map.

£4.6bn in 2025-26 (cash); £4.6bn in 2025-26 prices; £77.76 per resident; +2.6% on a year earlier in cash, −0.7% in real terms.

Councils in England: waste services, net revenue spending: by line or transaction, 2025-26

Flood and coastal erosion risk management

Central government spending on flood and coastal defences in England: the Environment Agency's capital and day-to-day spending, Defra's own, and grants to lead local flood authorities. It leaves out Defra's administration, research and depreciation, councils' own spending from their general funding, and internal drainage boards' levies. From 2021-22 the MHCLG grant to lead local flood authorities is no longer counted.

£1.4bn in 2024-25 (cash); £1.4bn in 2025-26 prices; £23.92 per resident; +13.4% on a year earlier in cash, +9.1% in real terms.

Flood and coastal erosion risk management: by spending category, 2024-25

Spending category	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Environment Agency (capital and day-to-day)	£1.4bn	£1.4bn	£23.85	+9.0%	Department for Environment, Food and Rural Affairs	Broken down below
Grants to lead local flood authorities	not published	not published	—	—	Department for Environment, Food and Rural Affairs	
Defra: retained spending	£4m	£4m	£0.07	+44.0%	Department for Environment, Food and Rural Affairs	

Environment Agency (capital and day-to-day)

Capital (building and repairing defences) and day-to-day (maintenance, flood warnings, incident response); the split by year is in the flood defence section. Below, each committee area's Environment Agency spending with the local levy councils pay, the agency's national spending and the income netted off, as Defra publishes them for the last three years; they do not add exactly to the total above, which leaves out the levy.

£1.4bn in 2024-25 (cash); £1.4bn in 2025-26 prices; £23.85 per resident; +13.3% on a year earlier in cash, +9.0% in real terms.

Northern Ireland: by spending category, 2024-25

Spending category	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Agriculture, forestry and fishing	£890m	£920m	£462	+10.6%	HM Treasury	Line or transaction not published: The Treasury does not split this by body, and the Department of Agriculture, Environment and Rural Affairs' budget lines are not read here. Farm support paid in Northern Ireland by kind and year, and every recipient of a CAP payment, are in the farm support sections of this page.
Waste management	£272m	£281m	£141	−8.8%	HM Treasury	Line or transaction not published: Northern Ireland's councils do not publish revenue outturn by service in a form read here; the Department for Communities publishes council finance statements separately.
Other environment protection	£87m	£90m	£45.13	−8.0%	HM Treasury	Line or transaction not published: The Treasury does not split its sub-functions by body or area in the country and regional analysis; departmental and council returns classify the same money differently, so the two cannot be joined line by line.
Waste water management	£14m	£15m	£7.26	+1215.4%	HM Treasury	Line or transaction not published: The Treasury does not split its sub-functions by body or area in the country and regional analysis; departmental and council returns classify the same money differently, so the two cannot be joined line by line.
Environmental research and development	£3m	£3m	£1.56	+47.6%	HM Treasury	Line or transaction not published: The Treasury does not split its sub-functions by body or area in the country and regional analysis; departmental and council returns classify the same money differently, so the two cannot be joined line by line.

Cash is as published. Real terms are in 2025-26 prices, using HM Treasury's GDP deflator. Per resident divides by ONS mid-year population for the area the body serves. Changes compare the same body in consecutive years.

Search the department's payments over £25,000

Every payment of £25,000 or more the department published for the latest year, as published. See every department's spending over £25,000 for what each covers.

Department for Environment, Food and Rural Affairs published **13,830 payments** worth **£5.75bn** to 2,024 suppliers and recipients from March 2025 to February 2026 (12 of 12 months published).

- The newest payment published is from 2026-02, 7 months before this was read.
- 44 credits and refunds (negative amounts, £4,510,495 in all) are included, so totals are net.

Searching needs JavaScript. Every payment is in one JSON file.

On the map

An interactive map or explorer appears here on the live page.

The map covers the whole UK. Where the nations publish the same measure, they share one scale. Where they publish different ones, each nation is shaded against its own measure on its own scale, named in its own part of the legend, and the nations cannot be compared with each other. Where a nation publishes nothing for a measure, the map says so and links to what it publishes instead. Pick an area for its figures and a link to its page.

Every one of the councils, on each measure on the map England: Household waste sent for reuse, recycling or composting, 2024-25. Scotland: Household waste recycled, 2024. Wales: Municipal waste reused, recycled or composted, 2024-25. Northern Ireland: Household waste prepared for reuse, dry recycled or composted, 2025-26. The nations' figures are different measures and are not directly comparable.

Council area	Nation	Recycling	Not recycled	Waste spending
Stratford-on-Avon	England	63.9%	284 kg	£32

Scheme	County	Investment
Manor Farm River Test - Regional Habitat Creation Programme	Hampshire	£2k

Indicative allocations for the year, consented by the regional flood and coastal committees; they change as projects move. Locations are the community a scheme serves, not always where it is built.

Source: Environment Agency, Programme of flood and coastal erosion risk management schemes: list of schemes invested in, 2026-27, published 20 March 2026.

Who receives farm payments

In the year to 15 October 2024, 142,553 farm businesses, landowners and others received £1.9bn in payments under the CAP and the rules kept after Brexit; 119,442 of them are named because they received £1,114 or more. Payments follow land area, so a few large recipients receive a large share: in England the top 1% of recipients received 21% of the money and the top 10% received 54%.

CAP and retained CAP payments by nation, 16 October 2023 to 15 October 2024

Nation	Recipients	Paid	Average	Top 1% received	Top 10% received
England	84,060	£718m	£8,538	21%	54%
Scotland	17,312	£536m	£30,944	15%	49%
Wales	16,865	£293m	£17,361	15%	43%
Northern Ireland	24,316	£330m	£13,571	11%	41%

Recipients by size of payment, UK, 16 October 2023 to 15 October 2024

Received in the year	Recipients	Share of recipients	Paid	Share of money
Under £1,114 (name withheld)	23,111	16%	£15m	1%
£1,114 to £5,000	46,709	33%	£127m	7%
£5,000 to £20,000	49,692	35%	£526m	28%
£20,000 to £50,000	16,751	12%	£510m	27%
£50,000 to £100,000	4,454	3%	£303m	16%
£100,000 to £250,000	1,556	1%	£222m	12%
£250,000 and over	280	0%	£174m	9%

As published by the paying agencies on the UK CAP payments site, Open Government Licence. Several of the largest recipients are fruit and vegetable producer organisations, paid on behalf of their members. Recipients are published only to postcode district, which does not map onto council areas, so no council figure is given. Every recipient can be searched on the CAP payments site until it closes in May 2027.

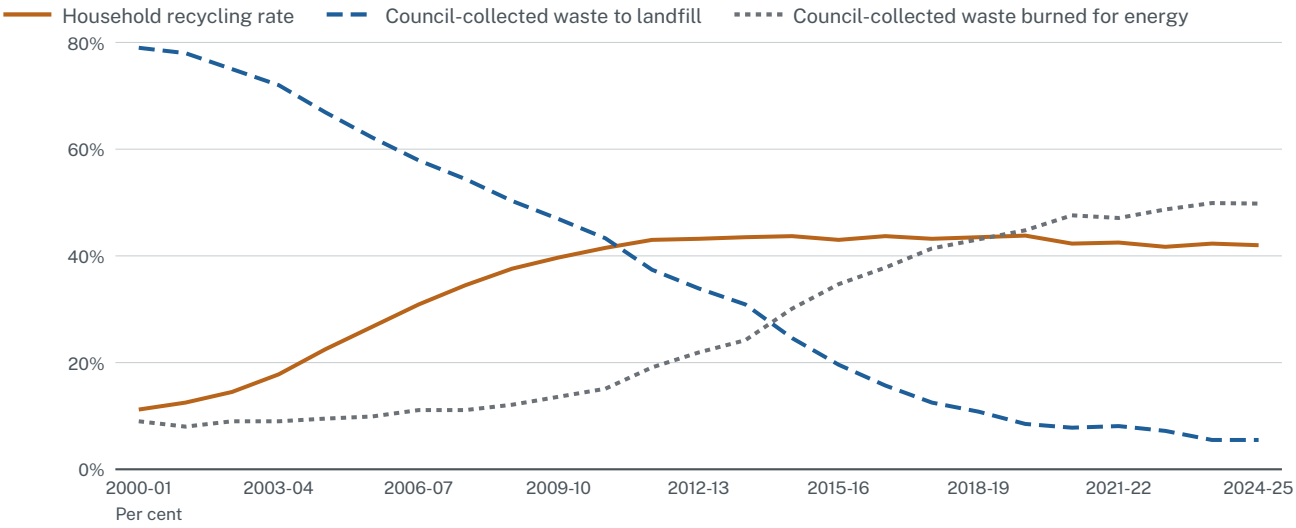

The Sustainable Farming Incentive, England's main new scheme, publishes no list of recipients. Defra's statistics give the spread instead: on 27 October 2025, £848m a year was committed to 35,500 businesses, and "When businesses in SFI are ranked by their annual income through SFI, the highest 4% of businesses will receive 25% of total annual revenue payments."

Source: Department for Environment, Food and Rural Affairs (UK Co-ordinating Body), UK CAP payments: all payments to beneficiaries, EU financial year 2024 (16 October 2023 to 15 October 2024); Department for Environment, Food and Rural Affairs, SFI spend statistics notice January 2026, published 8 January 2026.

Waste and recycling

Councils collect and dispose of household waste: in two-tier England the district collects and the county disposes. England's household recycling rate was 42.0% in 2024-25, up from 11.2% in 2000-01 but little changed for a decade. Recycling rates are measured differently in each nation, so each council is compared with its own nation only.

Household waste sent for reuse, recycling or composting, and council waste sent to landfill, England, %

Line chart from 2000-01 to 2024-25: recycling rate 11.2% to 42.0%; landfill share 79.0% to 5.5%.

What councils spend on waste, net revenue, £ million, latest year

Councils in	Collection	Disposal	Recycling	All waste
England, 2025-26	£1.4bn	£2.4bn	£870m	£4.6bn
Scotland, 2024-25	£237m	£308m	not published	£544m
Wales, 2025-26	not published	not published	not published	£361m

Wales publishes waste as one line, so only its total is shown; Scotland does not publish recycling as a line of its own. England's total is after trade waste income.

Every council: recycling rate and spending on waste (collection and recycling per household in England; all waste per resident in Scotland and Wales), latest year published; residual waste per household is on the map

Council	Recycling rate	Spending on waste

What each measure counts

- **Household waste sent for reuse, recycling or composting** Share of household waste collected by the authority that was sent for reuse, recycling or composting (Defra, formerly NI 192), England, financial years. Published for collection authorities (district councils), disposal authorities (county councils, counting everything collected in their area) and unitary councils; a district's own figure is used where it has one.
- **Residual household waste per household** Kilograms of household waste per household not sent for reuse, recycling or composting (Defra, formerly NI 191), England, financial years. Published for collection, disposal and unitary authorities.
- **Council-collected waste sent to landfill** Share of local authority collected waste sent to landfill (Defra, formerly NI 193), England. Published for disposal and unitary authorities only, which decide where waste goes; districts have no figure.
- **Spending on waste collection and recycling per household** The collection authority's net revenue spending on waste collection and on recycling and waste minimisation, divided by the dwellings on its council tax list (MHCLG council taxbase). England: district, unitary, metropolitan and London borough councils, which all collect household waste. Net revenue spending from the council's own return (MHCLG revenue outturn in England, Scottish Local Government Finance Statistics, StatsWales), after income such as charges for garden waste and bulky collections; capital spending on vehicles, depots and plants is left out.
- **Spending on waste disposal per household** The council's net revenue spending on waste disposal divided by the dwellings in its area. England. County councils and unitaries dispose of waste; in some metropolitan areas and parts of London a joint waste authority does it and charges the councils a levy, which is not in these lines, so figures are not comparable between councils. Net revenue spending from the council's own return (MHCLG revenue outturn in England, Scottish Local Government Finance Statistics, StatsWales), after income such as charges for garden waste and bulky collections; capital spending on vehicles, depots and plants is left out.
- **Spending on waste per resident** The council's net revenue spending on waste collection, disposal and recycling per resident (ONS mid-year estimate). Scotland and Wales, where every council is single-tier; compare within a nation. Net revenue spending from the council's own return (MHCLG revenue outturn in England, Scottish Local Government Finance Statistics, StatsWales), after income such as charges for garden waste and bulky collections; capital spending on vehicles, depots and plants is left out.

- **Household waste recycled (Scotland)** Share of household waste recycled, calendar year (SEPA). Scotland's measure counts differently from England's and Wales's, so it is compared within Scotland only.
- **Municipal waste reused, recycled or composted (Wales)** Share of local authority municipal waste reused, recycled or composted, the statutory target measure (Welsh Government). It covers more than household waste, so it is compared within Wales only.
- **Household waste prepared for reuse, dry recycled or composted (Northern Ireland)** Share of household waste arisings prepared for reuse, dry recycled or composted (DAERA, KPI (a2)), financial years, from the four quarters of DAERA's time series added together. DAERA says other nations' figures are not always measured the same way, so it is compared within Northern Ireland only.
- **Household waste not recycled per person (Scotland)** Kilograms per person of household waste not recycled: SEPA's household waste generated per person less household waste recycled per person, calendar year. Per person rather than per household, and on Scotland's own definitions, so it is compared within Scotland only.
- **Residual household waste per dwelling (Wales)** Annual residual household waste produced per dwelling, in kilograms, as the Welsh Government publishes it (StatsWales), financial years. Compared within Wales only.
- **Household waste not reused, recycled or composted per household (Northern Ireland)** Kilograms per household of household waste not prepared for reuse, dry recycled or composted: DAERA's household waste arisings less the tonnes counted in its KPI (a2), over the year-end housing stock DAERA uses for KPI (h). Compared within Northern Ireland only.

Source: Department for Environment, Food and Rural Affairs, Local authority collected waste management, annual results: local authority and regional spreadsheet (tables 2a, 3 and 3a), published 31 March 2026; Ministry of Housing, Communities and Local Government, Local authority revenue expenditure and financing: Revenue Outturn multi-year data set, published 28 September 2026; Scottish Government, Scottish Local Government Finance Statistics, published 3 February 2026; Welsh Government, Local authority revenue outturn expenditure and financing (StatsWales), published 21 October 2026; Scottish Environment Protection Agency, Household waste data; Welsh Government, Local authority municipal waste management; Ministry of Housing, Communities and Local Government, Council taxbase statistics: dwellings by billing authority.

Where the money comes from, and who does the work

The Environment Agency spent £2.3bn in 2025-26 (£2.1bn in 2024-25); 74% of its funding came from Defra and most of the rest from charges. Its charges raised £537m against £566m of costs they are meant to cover.

Where the money comes from

What	Paid for by	Amount	Year
Environment Agency	Grant-in-aid from Defra (flood defence, environment protection, internal drainage boards and councils)	£1,809.6m	2025-26
Environment Agency	Fees and charges paid by businesses and licence holders (permits, abstraction, fishing and boat licences)	£537.1m	2025-26
Flood and coastal defence, England	Central government (Defra and the Environment Agency's grant-in-aid)	£1,402m	2024-25
Flood and coastal defence, England	Local levy raised from councils by regional flood and coastal committees	£40m	2024-25
Flood and coastal defence, England	Other contributions through the Environment Agency (partnership funding and others)	£58.7m	2024-25
Farm support	UK taxpayers: since 2021 every direct payment is funded by the UK and devolved governments; before, by the EU budget, to which the UK contributed. EU co-funding of rural development ended with the 2014-20 programmes (closed December 2023).	—	—
Council waste services, England	Councils' general funds (council tax, business rates and government grant, not earmarked for waste), after charges such as garden waste collection; from 2025-26 packaging producers also pay councils under Extended Producer Responsibility	£4,574.7m net	2025-26

Staff, full-time equivalent

Body	Staff	Year before	What is counted
Environment Agency, 2025-26	13,419	13,331 (2024-25)	Average full-time equivalent: 12,992 directly employed and 427 contractors and agency staff.
Rural Payments Agency, 2025-26	2,546	2,698 (2024-25)	Average full-time equivalent, permanent and other staff.

Council waste and environmental health staff are not published by service. Natural England, the Animal and Plant Health Agency and core Defra publish staff numbers in their own annual reports, not read here.

Source: Environment Agency, Environment Agency annual report and accounts 2025 to 2026, published 9 July 2026; Department for Environment, Food and Rural Affairs, Flood and coastal erosion risk management in England: central government funding and performance, data tables, published 15 July 2026; Department for Environment, Food and Rural Affairs, Agriculture in the United Kingdom 2025: chapter 10 (agricultural support payments) and chapter 4 (accounts) data sets, published 3 September 2026; Ministry of Housing, Communities and Local Government, Local authority revenue expenditure and financing: Revenue Outturn multi-year data set, published 28 September 2026; Rural Payments Agency, Rural Payments Agency annual report and accounts 2025-26: note 5 (schemes administered by the agency) and staff report, published 9 July 2026.

What these figures do and don't show

- **Farm support is counted three ways here, and they do not match.** Agriculture in the UK counts payments by calendar year when they are paid; the Rural Payments Agency's accounts count spending when it is owed; the Treasury's figures are by financial year and include administration. Each table says which it is.
- **Recipient data stopped with the CAP.** The UK CAP payments site lists payments made under the CAP and retained CAP rules; its last year for England, Scotland and Wales is October 2023 to October 2024, and it closes in May 2027. The Sustainable Farming Incentive and other new schemes publish no list of recipients, only totals and distributions.
- **Flood defence and waste figures are England only** unless a table says otherwise: Scotland, Wales and Northern Ireland fund flood defence through their own governments and councils, and their council waste returns count differently.
- **Outputs are shown beside the money, not as its result.** Properties better protected are the Environment Agency's modelled estimates of schemes completed in the year; recycling rates depend on what households throw away, local markets and how councils collect.
- **Council waste spending is net revenue spending.** It is after charges such as garden waste collection and leaves out capital spending on vehicles and plants; in two-tier areas the district collects and the county disposes, so the two are shown separately.
- **Council figures are keyed by the council that publishes them.** Recycling rates exist for districts, counties and unitaries; spending per household for collection authorities. The map shows a district's own figure where it has one.

Figures from data/services/environment.json, generated 13 November 2026.

Common questions

- **Who pays for flood defences?** In England mostly central government, through Defra and the Environment Agency, with contributions from councils (the local levy), businesses and others under partnership funding. In Scotland, Wales and Northern Ireland flood defence is funded by the devolved governments and councils.
- **Can I see who received farm payments?** For payments under the Common Agricultural Policy and the rules kept after Brexit, yes: the UK CAP payments site names every recipient of £1,114 or more, to October 2024 (October 2025 in Northern Ireland), until it closes in May 2027. The new schemes, such as England's Sustainable Farming Incentive, publish totals and distributions but not recipients.
