Lending, not spending
As of 18 June 2026

The short version

- **Mostly schools:** primary and secondary schools take most of the money; universities are funded mainly through tuition fees paid with student loans, which are lending, not spending.
- **Every English authority and every school:** schools block funding per pupil for each authority over time, and each mainstream school's allocation on its authority's page.
- **Devolved:** each nation sets its own budgets and counts differently, so per-pupil figures are compared within a nation only.

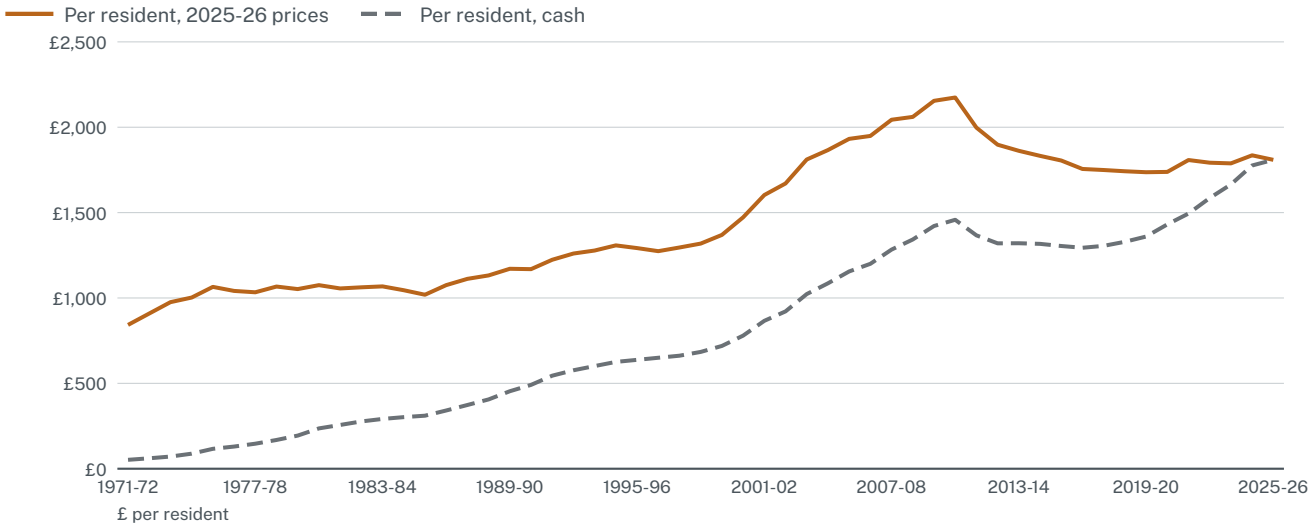

Over the longest run published: cash, real terms and per head

United Kingdom: spending in cash and in 2025-26 prices, £ billion

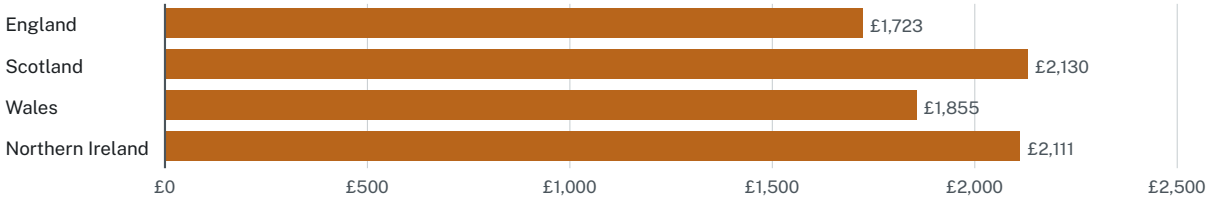

Line chart of United Kingdom spending from 1955-56 to 2025-26: £549m to £125.7bn in cash; £17.8bn to £125.7bn in 2025-26 prices.

United Kingdom: spending per resident, 2025-26 prices

Line chart of United Kingdom spending per resident in 2025-26 prices from 1971-72 (£842) to 2025-26 (£1,809).

Spending per resident by nation, 2024-25

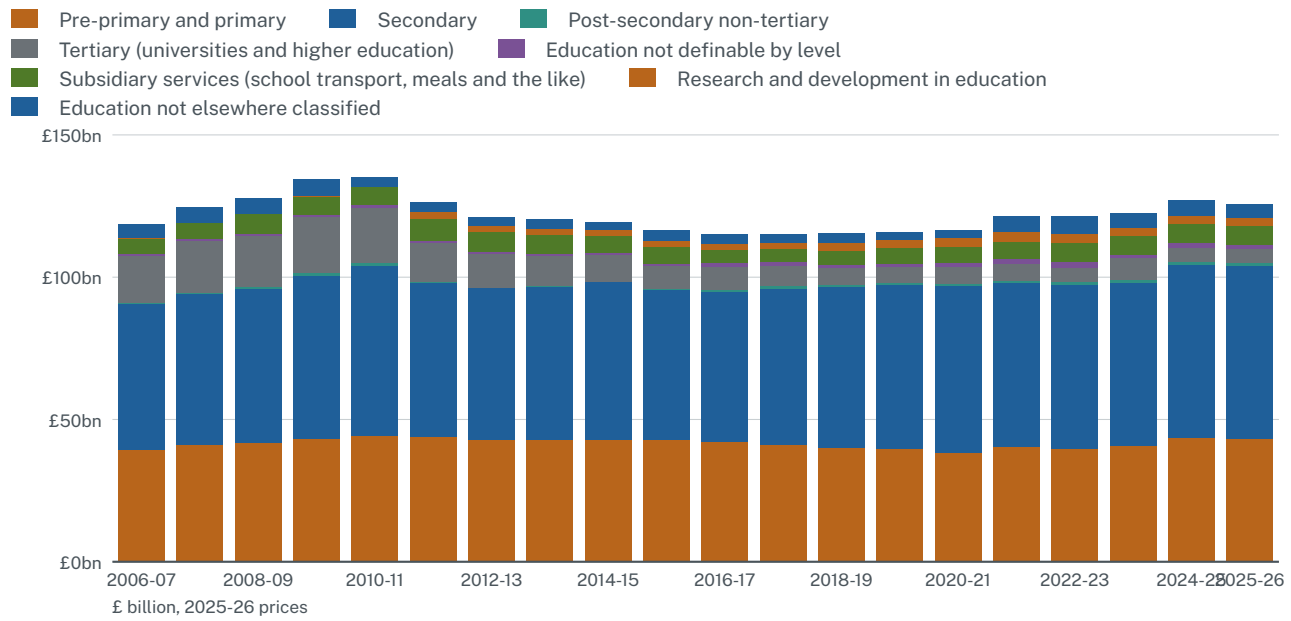

Bar chart of spending per resident by nation in 2024-25: England £1,723, Scotland £2,130, Wales £1,855, Northern Ireland £2,111.

What it is spent on: by phase

Most education money goes on schools: £60.8bn on secondary and £43.4bn on pre-primary and primary in 2025-26, in cash. Universities appear small because in England most of their teaching income now comes from tuition fees paid with student loans, which are lending rather than spending.

UK spending on education by phase, 2025-26 prices, £ billion

Stacked bar chart of UK education spending by phase from 2006-07 to 2025-26, in 2025-26 prices: Pre-primary and primary £43.4bn, Secondary £60.8bn, Post-secondary non-tertiary £1.1bn, Tertiary (universities and higher education) £4.6bn, Education not definable by level £1.3bn, Subsidiary services (school transport, meals and the like) £7.0bn, Research and development in education £2.6bn, Education not elsewhere classified £4.9bn in 2025-26.

Spending per resident by phase and nation, 2024-25, cash (identifiable spending)

Phase	England	Scotland	Wales	Northern Ireland
Pre-primary and primary	£557	£959	£811	£752
Secondary	£902	£748	£774	£1,010
Tertiary (universities and higher education)	£45.51	£277	£152	£122
Subsidiary services (school transport, meals and the like)	£104	£55.20	£33.36	£93.37

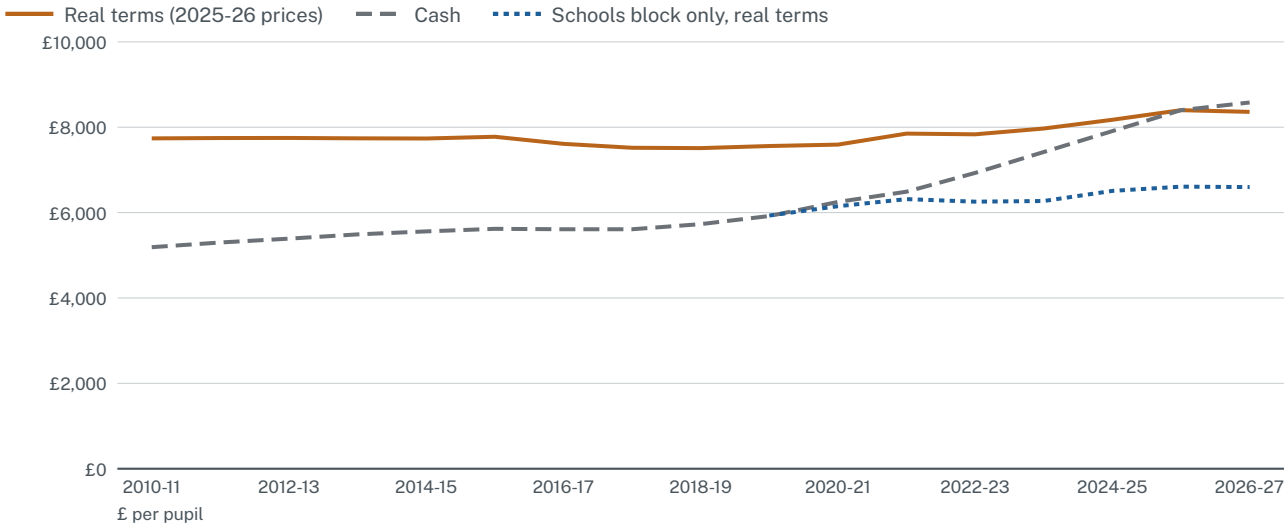

By nation: HM Treasury's country and regional analysis 2025, spending identifiable to each nation's residents, divided by its population.

Source: HM Treasury, PESA 2026: table 5.2, public sector expenditure on services by sub-function, and table 1.9, departmental expenditure limits by departmental group, published 16 July 2026; HM Treasury, Country and regional analysis 2025: B tables, identifiable spending by sub-function, published 19 November 2025.

Schools in England: funding per pupil

England's schools receive £8,400 per pupil aged 5 to 16 in 2025-26 in cash, against £5,190 in 2010-11. After inflation that is £8,400 against £7,739 in 2025-26 prices. DfE plans £8,580 for 2026-27. Each school's allocation is published: every local authority's page lists its schools.

Core schools funding per pupil aged 5 to 16, England, £

Line chart of core schools funding per pupil in England from 2010-11 to 2026-27: £7,739 to £8,360 in 2025-26 prices; £5,190 to £8,580 in cash.

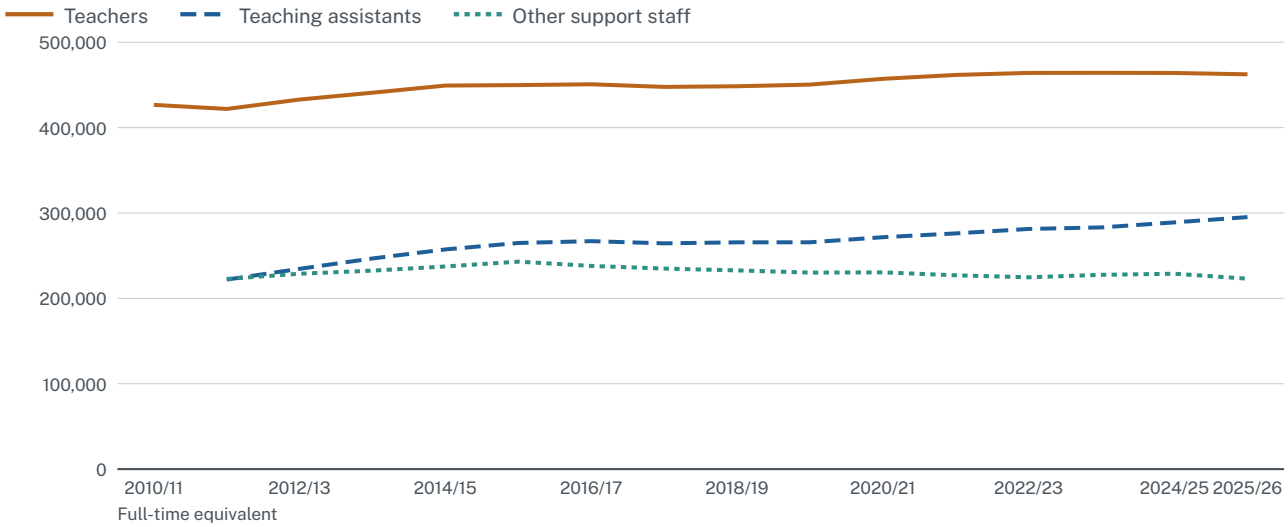

Mainstream state-funded schools in England by phase: allocations for 2025-26

Phase	Schools	Pupils	Allocated	Per pupil
Primary	16,741	4,290,391	£27.4bn	£6,387
Secondary	3,256	3,058,463	£23.9bn	£7,810
All-through	159	194,106	£1.5bn	£7,642
Other	1	396	£3m	£8,009

Source: Department for Education, School funding statistics, Financial year 2025-26: national time series and school-level allocations , published 29 January 2026; Department for Education, National funding formula tables for schools and high needs: summary tables, 2020-21 to 2026-27, published 19 November 2025.

Teachers and support staff

Staff in state-funded schools, England, full-time equivalent

Line chart of full-time equivalent teachers in England's state-funded schools from 2010/11 (426,640) to 2025/26 (462,431).

Pupils per teacher by nation, latest published (each nation's own definition)

Nation	Pupils per teacher	Period
England	17.9	2025/26
Scotland	13.2	2025
Wales	19.5	2025/26

Each nation counts pupils and teachers its own way, so the ratios are shown side by side, not ranked.

Source: Department for Education, School workforce in England, Reporting year 2025: size of the workforce and pupil to teacher ratios, published 4 June 2026; Welsh Government, Maintained schools and pupils by local authority, type of school and year, published 5 August 2026.

6. Line or transaction not published

United Kingdom

HM Treasury's spending on education by function: schools, further and higher education, and services such as school transport and meals. Student loans are lending, not spending, so the money lent is not in it. Since the Office for National Statistics changed how they are recorded (December 2018), the part not expected to be repaid counts as spending when the loan is made; the years before 2016-17 here come from editions of PESA published before that change.

£125.7bn in 2025-26 (cash); £125.7bn in 2025-26 prices; £1,809 per resident; +2.2% on a year earlier in cash, −1.1% in real terms.

United Kingdom: by nation, 2024-25

Nation	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
England	£101.0bn	£104.3bn	£1,723	+3.5%	HM Treasury	Broken down below
Scotland	£11.8bn	£12.2bn	£2,130	−0.1%	HM Treasury	Broken down below

State-funded schools in England: core funding for pupils aged 5 to 16	£64.9bn	£64.9bn	£1,103	+2.1%	Department for Education	Broken down below

State-funded schools in England: core funding for pupils aged 5 to 16

The Department for Education's core schools budget for pupils aged 5 to 16: the dedicated schools grant (without early years and post-16 high needs), pupil premium and the other revenue grants to schools. 2026-27 is DfE's plan, partly estimated. Per resident divides by everyone in England, not pupils; per pupil is in the chart above. Below it: each local authority's schools block, which is most of it (2026-27 provisional).

£65.9bn in 2026-27 (cash); £64.2bn in 2025-26 prices; £1,120 per resident; +1.5% on a year earlier in cash, −1.1% in real terms.

On the map

An interactive map or explorer appears here on the live page.

The map covers the whole UK. Where the nations publish the same measure, they share one scale. Where they publish different ones, each nation is shaded against its own measure on its own scale, named in its own part of the legend, and the nations cannot be compared with each other. Where a nation publishes nothing for a measure, the map says so and links to what it publishes instead. Pick an area for its figures and a link to its page.

Every one of the education authorities, on each measure on the map England: Schools block funding per pupil (Dedicated Schools Grant), 2026-27. Scotland: Spending on primary and secondary schools per pupil, 2024-25. Wales: Individual schools budget per pupil, 2026-27. The nations' figures are different measures and are not directly comparable.

Council area	Nation	Funding per pupil	Pupils per teacher	Apprenticeships	School funding	Academies	Primary	Secondary
Tower Hamlets	England	£8,961	15.6 pupils per teacher	610 per 100,000	£9,500	32.6%	£7,645	£10,295

What comes out: results by body

These are outputs and results published alongside the money. They are not what the money bought: demand, geography and recording practice differ between areas, and none of these figures shows cause and effect.

Each local authority: funding or spending per pupil on its own nation's measure (England: schools block; Wales: delegated schools budget; Scotland: cost per primary and secondary pupil). Compare within a nation only.

What each measure counts

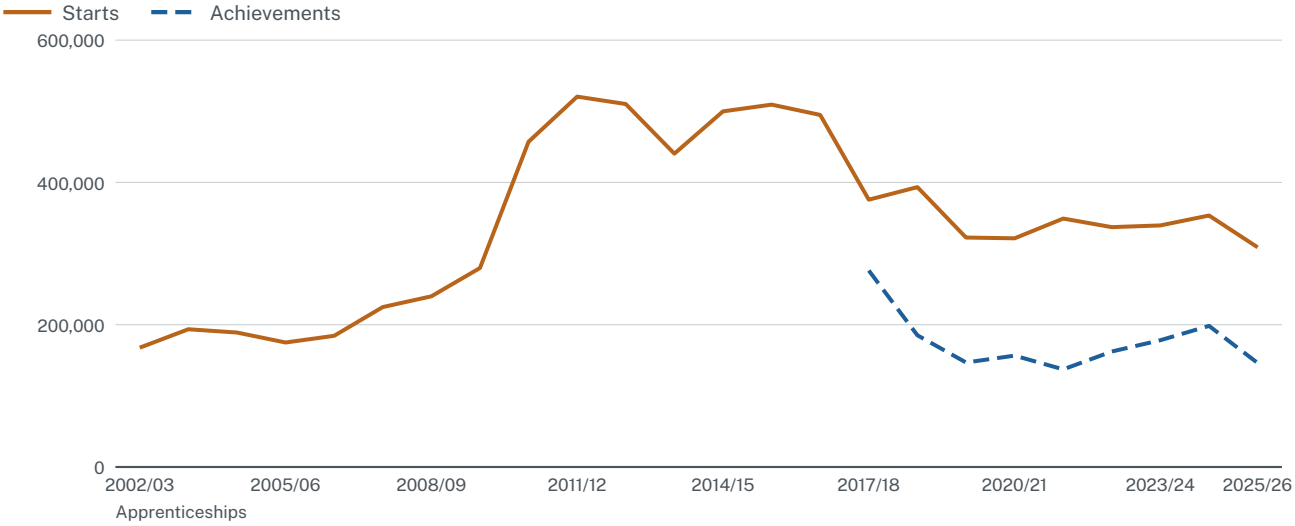

- **Schools block funding per pupil** The local authority's schools block of the dedicated schools grant, with the grants later rolled into it, divided by its schools block pupils (aged 5 to 16, in state-funded mainstream schools). Cash. Upper-tier authorities (counties, unitaries, metropolitan districts, London boroughs), England only. The latest year is the provisional allocation.

- **Schools budget per pupil (Wales)** The individual schools budget the council delegates to its schools, per pupil, as budgeted for the financial year (Welsh Government, delegated school budgets). Cash. It excludes spending the council keeps centrally. Welsh councils only: not comparable with the English schools block.
- **Cost per pupil (Scotland)** Gross revenue spending on primary and secondary schools divided by their pupils, from the Local Government Benchmarking Framework (its primary and secondary indicators combined here). Cash. Scottish councils only.

Further education and apprenticeships

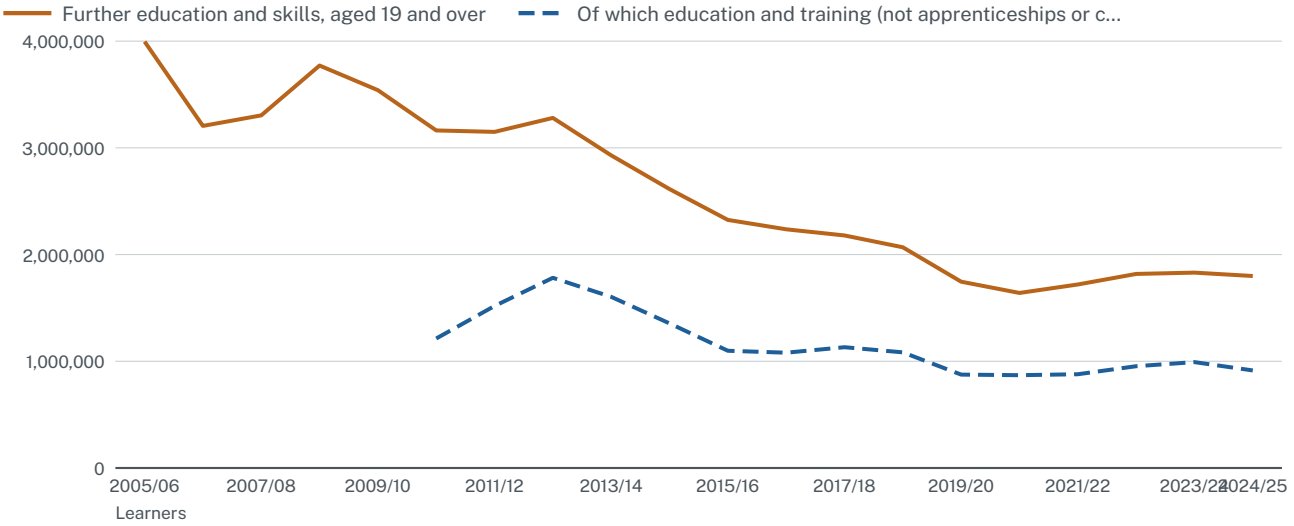

Further education colleges and training providers are funded by DfE in England (16 to 19 funding and the adult skills fund, largely devolved to mayoral authorities) and by the devolved governments elsewhere. Apprenticeships in England are paid for from DfE's apprenticeship budget; large employers pay the apprenticeship levy.

Apprenticeship starts in England, by academic year

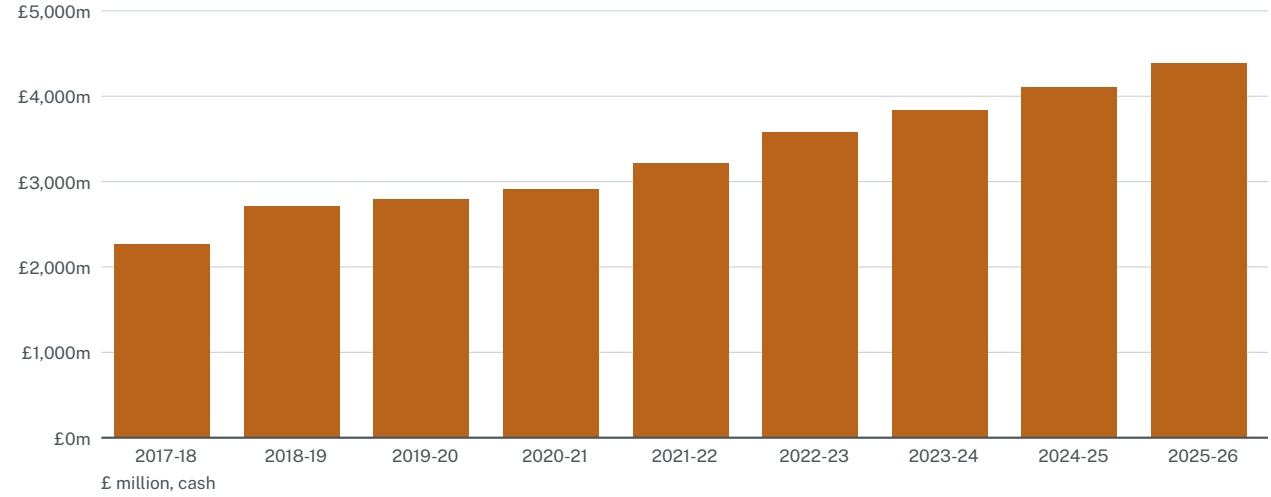

Line chart of apprenticeship starts in England from 2002/03 (167,700) to 2025/26 (308,770).

Adult learners in government-funded further education, England, by academic year

Line chart of adult further education and skills learners in England from 2005/06 (3,996,000) to 2024/25 (1,799,000).

Apprenticeship levy receipts, UK, £ million, cash

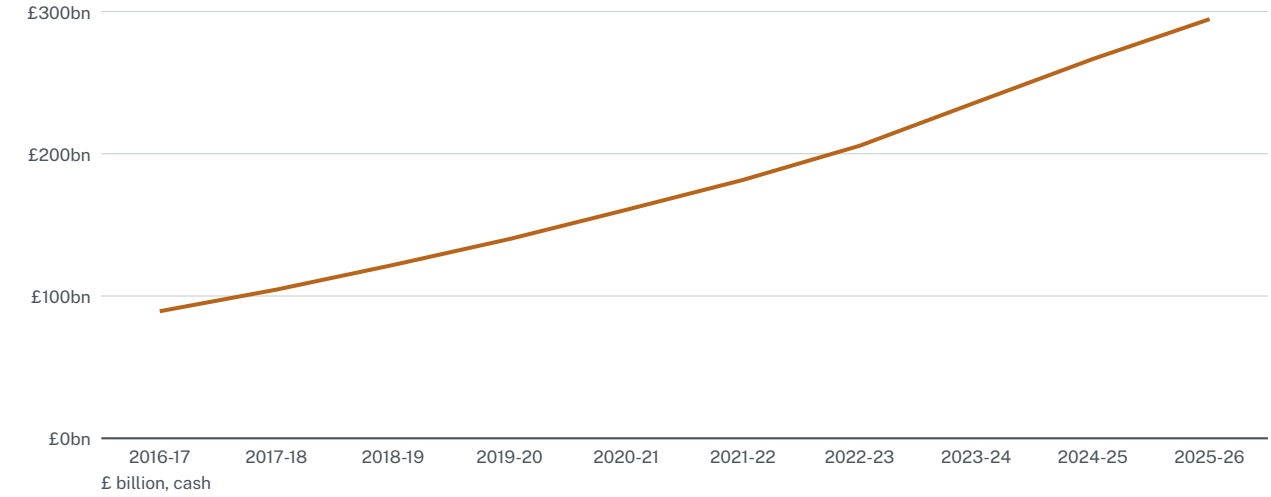

Bar chart of apprenticeship levy receipts from 2017-18 (£2.3bn) to 2025-26 (£4.4bn).

Universities and the student loan book

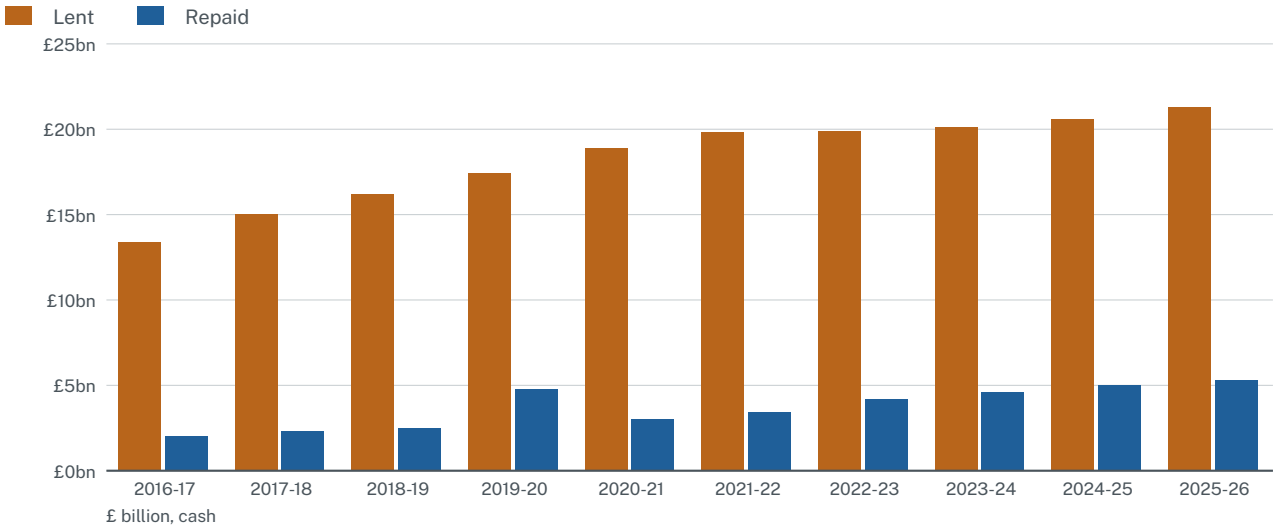

The English student loan book stood at **£294.6bn** at the end of 2025-26, in cash. £21.3bn was lent in the year and £5.3bn repaid. How repayments work is on student loan repayments.

The English student loan book: outstanding at 31 March, £ billion, cash

Line chart of the outstanding English student loan balance from 2016-17 (£89.3bn) to 2025-26 (£294.6bn).

Lent and repaid each year, England, £ billion, cash

Bar chart of student loans lent and repaid each year in England from 2016-17 to 2025-26: in 2025-26, £21.3bn lent and £5.3bn repaid.

What DfE expects to be repaid: its latest forecasts

Forecast	Value	Applies to
Share of Plan 5 full-time undergraduate lending not expected to be repaid (RAB charge)	33.0%	Loans made in 2025-26
Share of Plan 2 full-time undergraduate lending not expected to be repaid (RAB charge)	39.0%	Loans made in 2025-26
Forecast lending in the year, all English student loans	£21.4bn	2025-26
Forecast repayments in the year	£5.5bn	2025-26
Plan 5 full-time borrowers expected to repay in full	55.0%	Starting in 2025/26

The other nations' student loan books, each from its own publication (not added to England's)

Nation	Outstanding	Lent in the year	Repaid	Year
Wales	£11.8bn	£997m	£243m	2025-26
Scotland	£10.4bn	£854m	£210m	2025-26
Northern Ireland	£6.0bn	£389m	£187m	2025-26

Universities in England are funded mainly by tuition fees, most of them paid with student loans, with grants from the Office for Students and research funding on top. The Office for Students' annual report on their finances covers the providers it regulates, excluding further education colleges.

English higher education providers' income and surplus, £ million, cash (OfS 2026)

Figure	2023-24	2024-25	2025-26 (forecast)

Northern Ireland

Schools in Northern Ireland are funded by the Department of Education: most of the money goes to schools through the Common Funding Formula, and the Education Authority, one body for the whole of Northern Ireland, runs special education, transport, meals and other services. The department's resource budget at the start of 2025-26, as published; not outturn. Universities and colleges are funded separately by the Department for the Economy.

In 2025/26, 345,564 pupils were at school and 20,177 full-time equivalent teachers worked in grant-aided schools, 17.1 pupils per teacher.

Northern Ireland: published budget figures

Figure	Value	Period	Source
Department of Education (Northern Ireland): opening resource budget	£3.2bn	2025-26	Department of Education (Northern Ireland)
Aggregated Schools Budget (distributed to schools, mainly through the Common Funding Formula)	£1.8bn	2025-26	Department of Education (Northern Ireland)
Education Authority block grant (special schools, special education in mainstream schools, transport, meals and other support)	£1.2bn	2025-26	Department of Education (Northern Ireland)
Common Funding Formula for schools, final opening	£1.8bn	2026-27	Department of Education (Northern Ireland)
Age-weighted pupil unit, nursery and primary (the formula's base amount per pupil, not total funding per pupil)	3,220 £	2026-27	Department of Education (Northern Ireland)
Age-weighted pupil unit, post-primary (the formula's base amount per pupil, not total funding per pupil)	3,199 £	2026-27	Department of Education (Northern Ireland)

Source: Department of Education (Northern Ireland), School enrolments, Northern Ireland: summary data (schools and pupils from 1991/92); Department of Education (Northern Ireland) and NISRA, Teacher workforce statistics in grant-aided schools in Northern Ireland 2025/26 (figures 1 and 7; tables 10 and 11, teachers and pupils per teacher by district council).

What these figures do and don't show

- **Different measures at each level.** The UK and nation totals are HM Treasury's spending on education by function. Below them are each publisher's own measures: DfE's core schools budget, each authority's schools block, councils' net education spending. They are not expected to add up to the level above.
- **England is not the UK.** Education is devolved. The schools block, school allocations, the school workforce, apprenticeships and the student loan book shown here are England's, and are never added to UK or other nations' figures.
- **Per pupil is not comparable across nations.** England's schools block, Wales's figures and Scotland's council spending per pupil measure different things, so each authority is compared only with its own nation.
- **Student loans are lending, not spending.** The money lent, repaid and still owed is shown beside the spending, not added to it. Only the part not expected to be repaid counts as spending, on the basis the Office for National Statistics introduced in 2018.
- **Nothing here shows cause and effect.** Pupils per teacher, apprenticeship starts and other figures are shown alongside the money, not as its result. Areas differ in deprivation, sparsity, pupils with special needs and costs, which is why funding per pupil differs.
- **Allocations are not spending.** School-level figures are what each school was allocated for the year, not what it spent; the latest schools block year is provisional.

Figures from data/services/education.json, generated 16 November 2026.

Justice: courts, prisons, probation and legal aid

Public services · Last updated 16 November 2026 · https://whereyourmoneygoes.co.uk/justice/

£18.4bn was spent on courts and prisons in the UK in 2025-26, **£265** per resident. That is +7.1% on a year earlier after inflation (+10.7% in cash). In 2025-26 prices it has gone from £16.6bn in 2006-07 to £18.4bn. A prisoner in England and Wales cost £56,618 a year in 2024-25. The Crown Court had 80,829 cases open at the end of 2026 Q2.

The short version

- **Three justice systems:** England and Wales (one jurisdiction), Scotland and Northern Ireland, each counted on its own.
- **Every prison in England and Wales has a page:** its cost per prisoner and per place since 2015-16, how full it is each month, and its staff.
- **Courts, probation and legal aid** are shown with the Crown Court backlog, the probation caseload and legal aid by scheme since 2005-06.

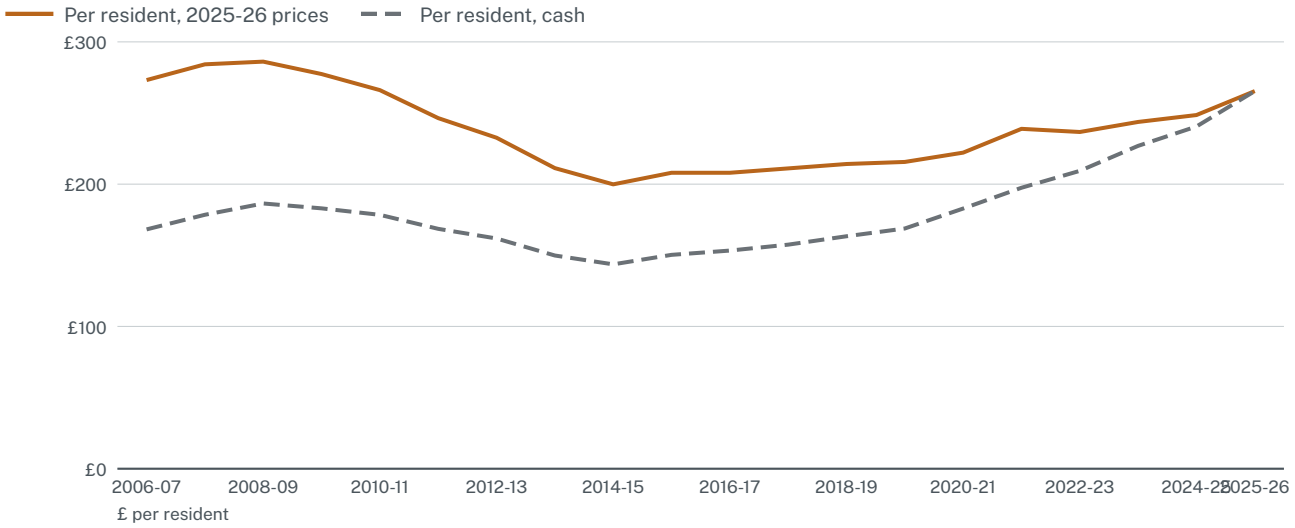

Over the longest run published: cash, real terms and per head

United Kingdom: spending in cash and in 2025-26 prices, £ billion

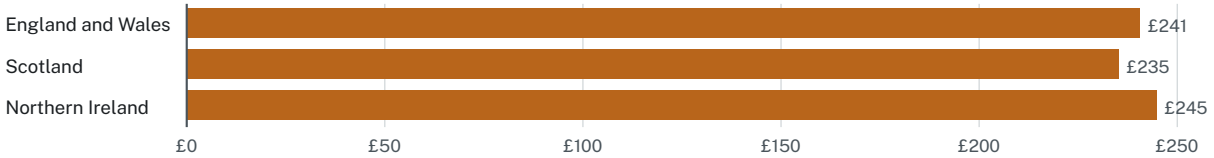

Line chart of United Kingdom spending from 2006-07 to 2025-26: £10.2bn to £18.4bn in cash; £16.6bn to £18.4bn in 2025-26 prices.

United Kingdom: spending per resident, 2025-26 prices

Line chart of United Kingdom spending per resident in 2025-26 prices from 2006-07 (£273) to 2025-26 (£265).

Spending per resident by nation, 2024-25

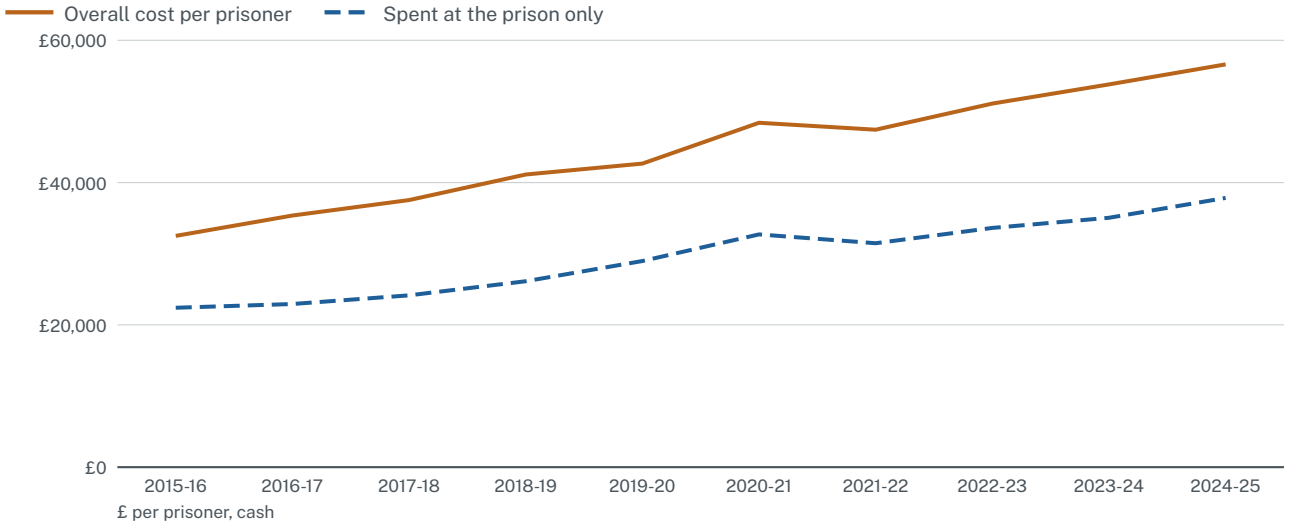

Bar chart of spending per resident by nation in 2024-25: England and Wales £241, Scotland £235, Northern Ireland £245.

Source: HM Treasury, PESA 2026: chapters 4 and 5 tables, published 16 July 2026; HM Treasury, PESA 2021: chapter 4 and 5 tables; HM Treasury, PESA 2016: chapter 4 and 5 tables; HM Treasury, PESA 2011: chapter 4 and 5 tables.

Prisons: what each one costs, and how full it is

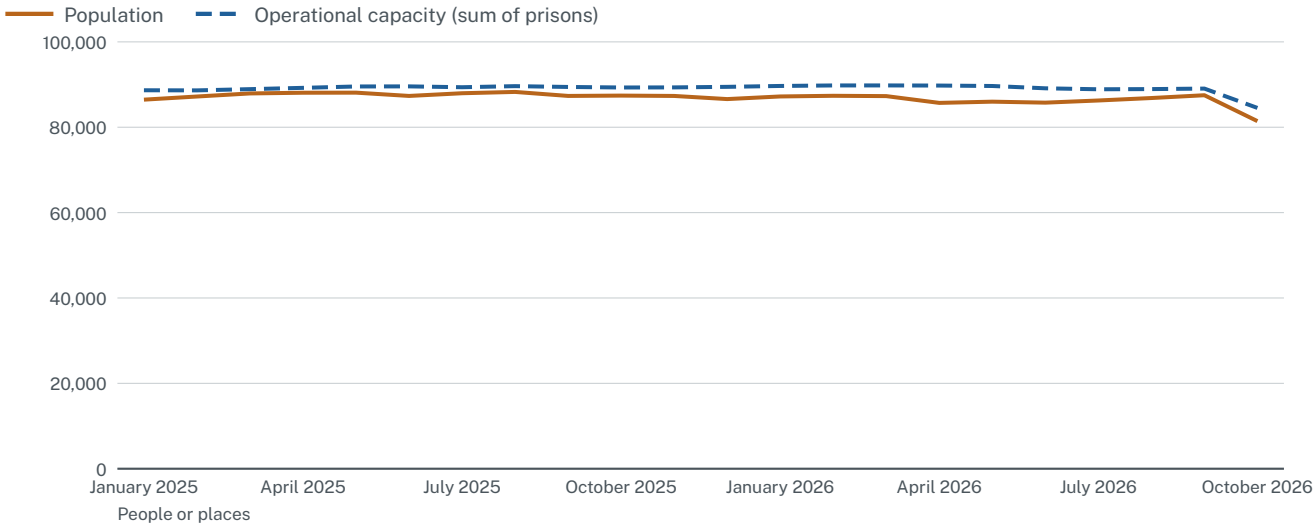

In 2024-25 a prison place in England and Wales cost **£56,618** per prisoner on HMPPS's measure, which adds each prison's share of regional and national costs to what it spends itself. In October 2026 prisons held **81,432** people, **103.1%** of their uncrowded places. Every prison has its own page.

Cost per prisoner, England and Wales, cash

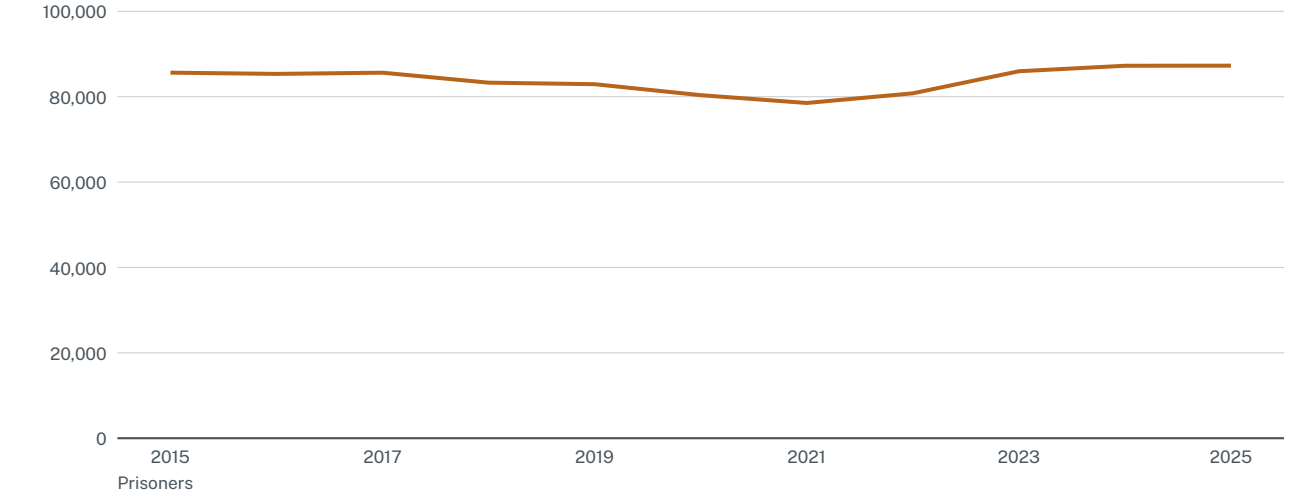

Line chart of cost per prisoner, england and wales, cash from 2015-16 to 2024-25: Overall cost per prisoner 32,510 to 56,618; Spent at the prison only 22,407 to 37,845.

Prison population against capacity, England and Wales

Line chart of prison population against capacity, england and wales from January 2025 to October 2026: Population 86,463 to 81,432; Operational capacity (sum of prisons) 88,662 to 84,526.

Average prison population by year, England and Wales

Line chart of average prison population by year, england and wales from 2015 to 2025: Average population 85,640 to 87,279.

Every prison in England and Wales, searchable, each with its own page: cost per prisoner and per place, population, crowding and staff.

Costs are for 2024-25; population and capacity for October 2026; staff for June 2026. Contracted (private) prisons are costed on a different basis (PFI prisons include interest on capital) and their staff are not on the HMPPS payroll. Council area is where the prison is, from its GOV.UK page; some privately run prisons have none.

Cost per prisoner place in each jurisdiction, as each prison service measures it

Prison service	Year	Cost	What it counts
England and Wales (HMPPS)	2024-25	£59,026	Overall resource cost per baseline place, including national costs
Scotland (Scottish Prison Service)	2024-25	£52,260	Excludes capital charges, exceptional payments and escort contract
Northern Ireland (NI Prison Service)	2024-25	£57,180	Excludes exceptional payments, escorting and court custody

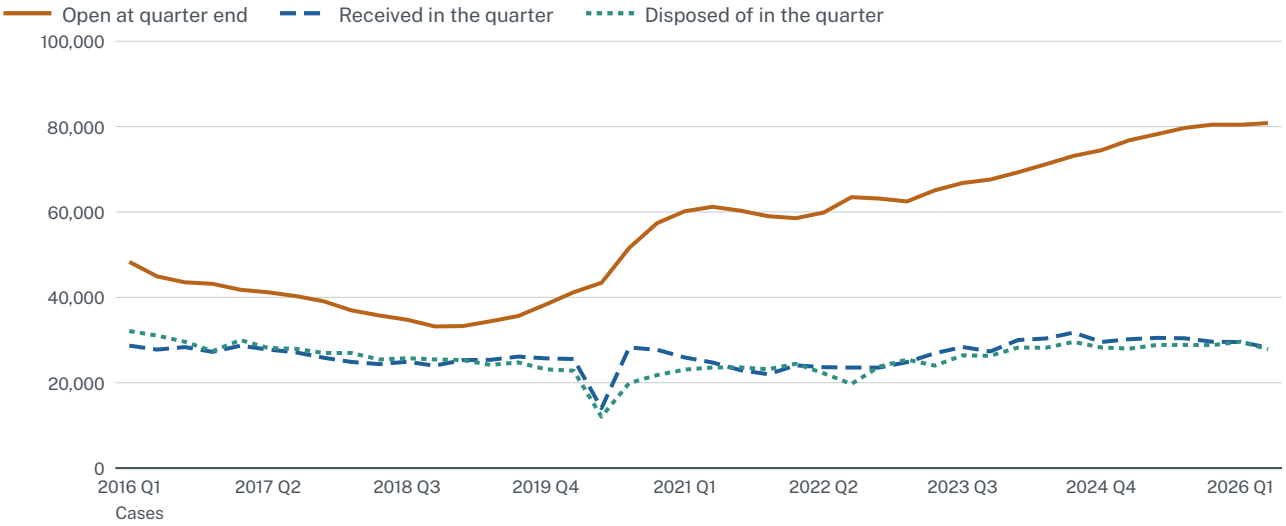

Each service defines its cost per place differently, so the three are shown side by side, not ranked or added.

Source: Ministry of Justice, Costs per prison place and cost per prisoner by individual prison, 2015-16 to 2024-25 (HMPPS annual report and accounts, management information addendum), published 26 March 2026; Ministry of Justice, Prison population: monthly bulletin (2025-01 to 2026-10), published 9 November 2026; Ministry of Justice, Offender management statistics quarterly: January to March 2026: annual prison population, published 30 July 2026; Scottish Prison Service, Scottish Prison Service, Annual Report and Accounts 2024-25; Northern Ireland Prison Service, Northern Ireland Prison Service, Annual Report and Accounts 2024-25.

Courts: the Crown Court backlog

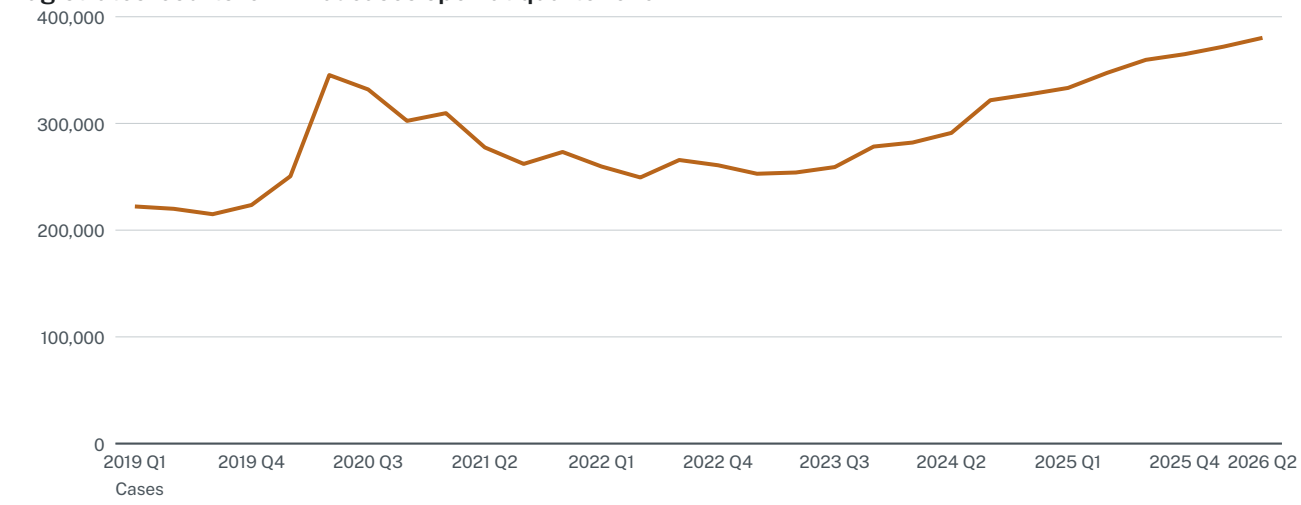

At the end of 2026 Q2 the Crown Court had **80,829** criminal cases open, against 38,341 at the end of 2019. HMCTS runs the courts and tribunals of England and Wales; its spending is in the drill-down below.

Crown Court: cases open at quarter end, received and disposed of

Line chart of crown court: cases open at quarter end, received and disposed of from 2016 Q1 to 2026 Q2: Open at quarter end 48,308 to 80,829; Received in the quarter 28,685 to 28,234; Disposed of in the quarter 32,100 to 27,837.

Magistrates' courts: criminal cases open at quarter end

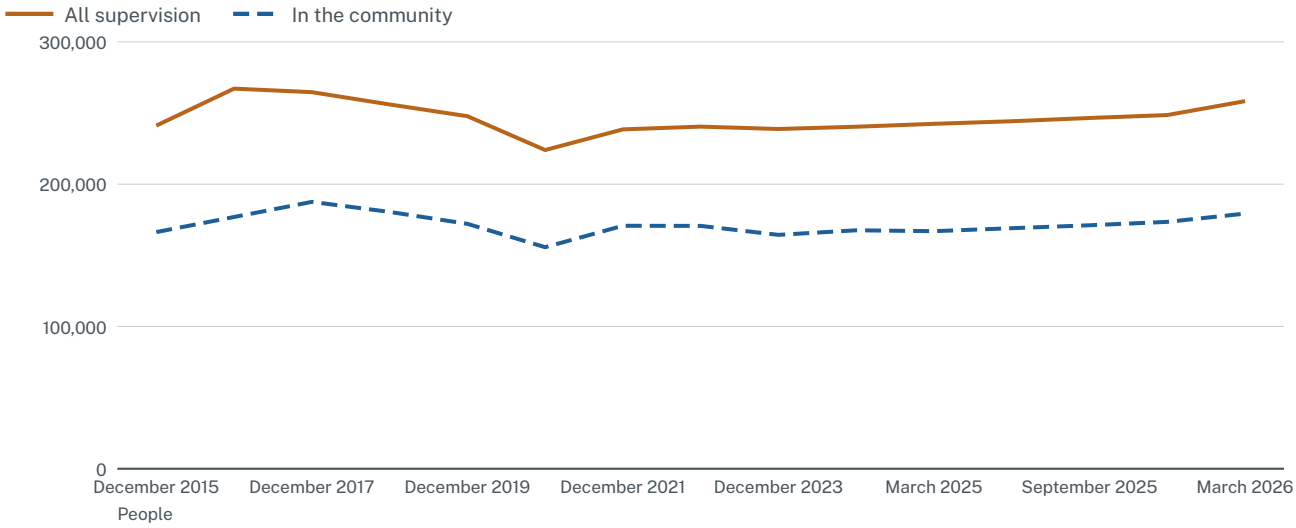

Line chart of magistrates' courts: criminal cases open at quarter end from 2019 Q1 to 2026 Q2: Open at quarter end 222,212 to 380,230.

Source: Ministry of Justice, Criminal court statistics quarterly: April to June 2026 (tables C1 and M1), published 24 September 2026.

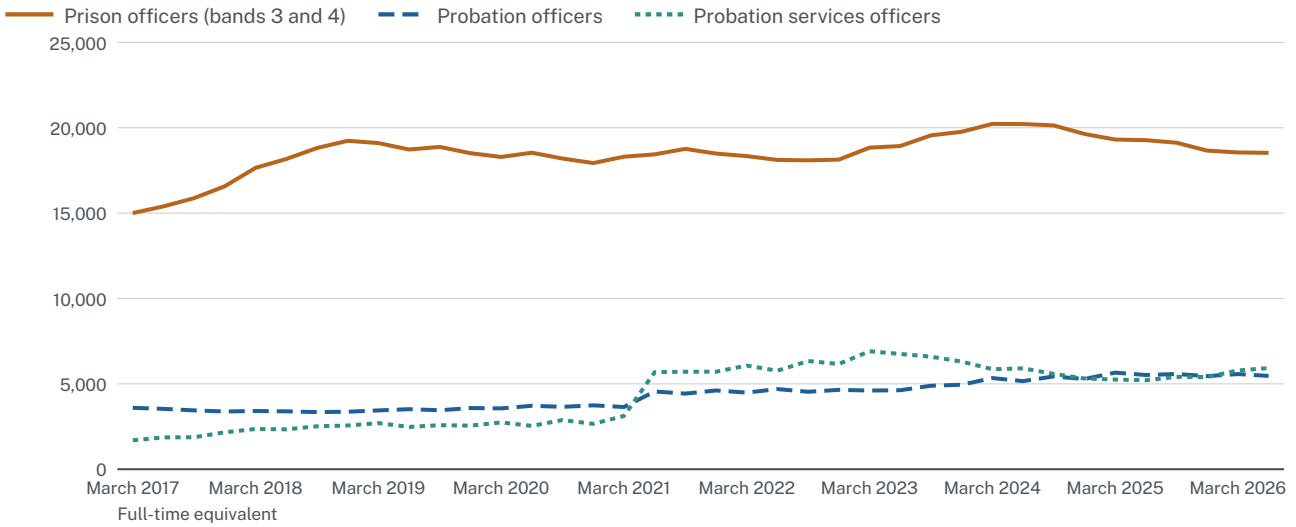

Probation and the people who run prisons

People supervised by the Probation Service, England and Wales

Line chart of people supervised by the probation service, england and wales from December 2015 to March 2026: All supervision 241,144 to 258,332; In the community 166,306 to 179,300.

Prison and probation officers in post, full-time equivalent

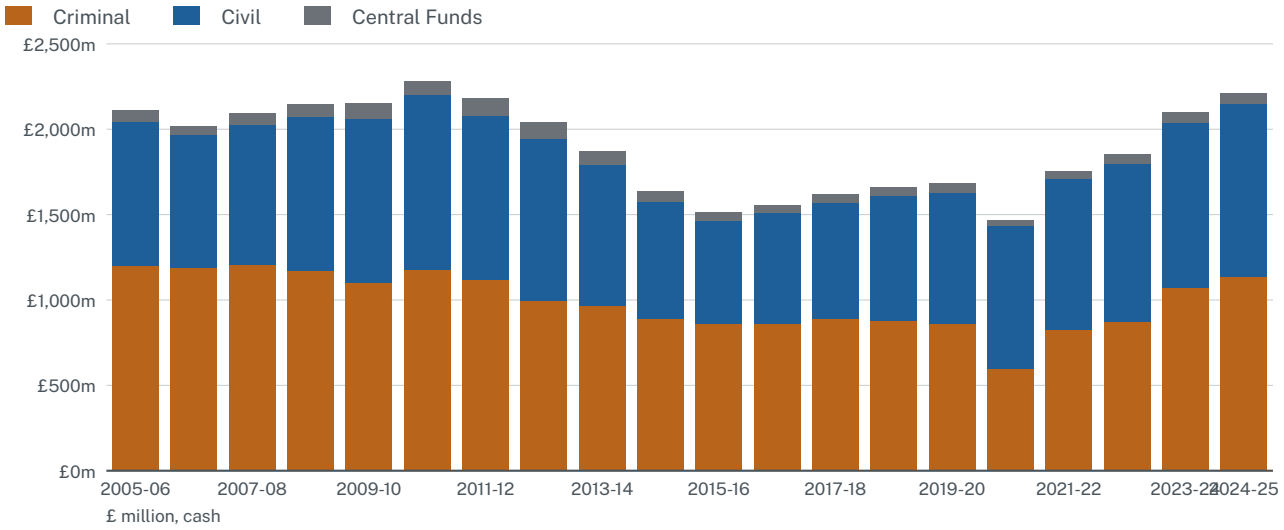

Line chart of prison and probation officers in post, full-time equivalent from March 2017 to June 2026: Prison officers (bands 3 and 4) 15,004 to 18,530; Probation officers 3,595 to 5,465; Probation services officers 1,693 to 5,924.

Source: Ministry of Justice, Offender management statistics quarterly: probation caseload (annual and latest quarterly tables), published 30 July 2026; Ministry of Justice, HM Prison & Probation Service workforce quarterly: June 2026: time series of staff in post , published 20 August 2026.

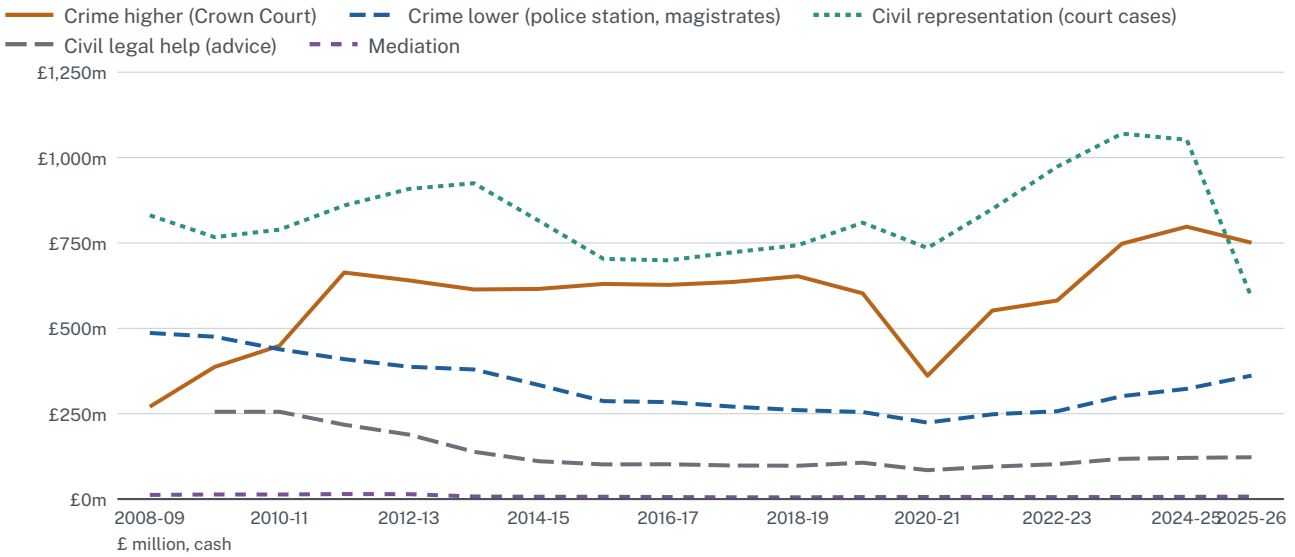

Legal aid: what it is spent on

Legal aid spending by type, England and Wales, £ million, cash

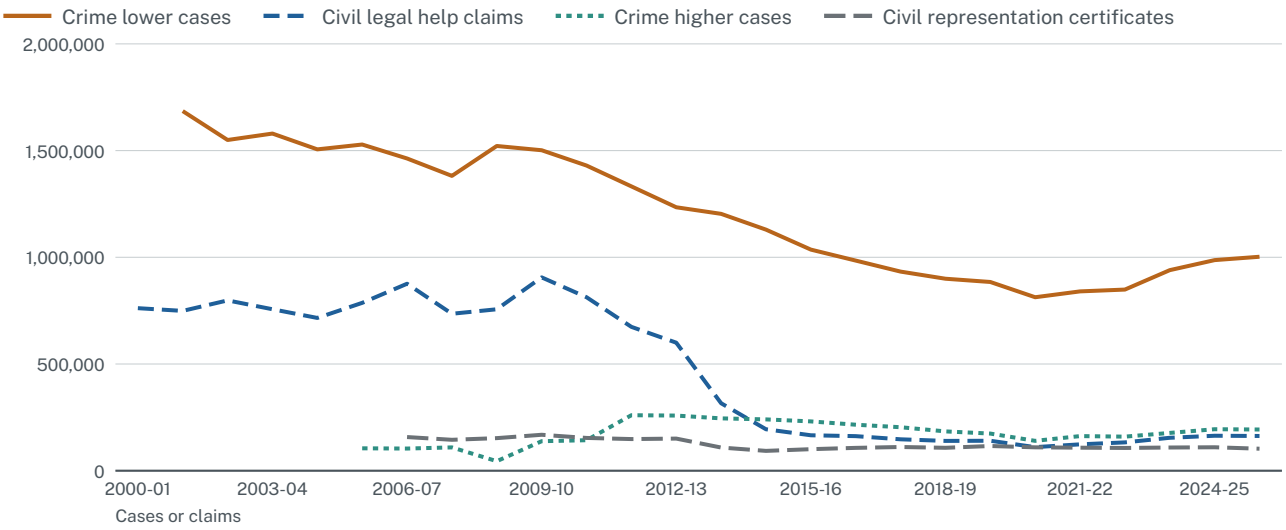

Stacked bar chart of legal aid spending from 2005-06 (£2.1bn) to 2024-25 (£2.2bn), cash.

Legal aid by scheme, completed-claim measure, £ million, cash

Line chart of legal aid by scheme from 2008-09 to 2025-26: crime higher £751m, civil representation £591m, crime lower £362m in the latest year.

Legal aid cases and claims, England and Wales

Line chart of legal aid cases and claims, england and wales from 2000-01 to 2025-26: Crime lower cases not published to 1,002,537; Civil legal help claims 761,583 to 162,766; Crime higher cases not published to 193,101; Civil representation certificates not published to 103,117.

3. Department or service body
4. Local body
5. Spending category
6. Line or transaction not published

United Kingdom

HM Treasury's spending on law courts and on prisons (two sub-functions of public order and safety, COFOG 3.3 and 3.4), added together. Police, fire and immigration are counted elsewhere (see the police and fire pages).

£18.4bn in 2025-26 (cash); £18.4bn in 2025-26 prices; £265 per resident; +10.7% on a year earlier in cash, +7.1% in real terms.

United Kingdom: by nation, 2024-25

Nation	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
England and Wales	£14.9bn	£15.4bn	£241	+2.5%	HM Treasury	Broken down below
Scotland	£1.3bn	£1.3bn	£235	+8.8%	HM Treasury	Broken down below
Northern Ireland	£472m	£488m	£245	+3.0%	HM Treasury	Broken down below

England and Wales

England and Wales are one legal jurisdiction: justice in Wales is not devolved. The figure is HM Treasury's identifiable spending on law courts and prisons in England plus that in Wales. The departments below are measured differently (total managed expenditure) and are not expected to add up to it.

£14.9bn in 2024-25 (cash); £15.4bn in 2025-26 prices; £241 per resident; +6.5% on a year earlier in cash, +2.5% in real terms.

England and Wales: by department or service body, 2024-25

Department or service body	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Ministry of Justice	£14.0bn	£14.5bn	£227	+0.3%	HM Treasury	Broken down below
Law Officers' Departments	£973m	£1.0bn	£15.75	+0.5%	HM Treasury	Broken down below

Ministry of Justice

The Ministry of Justice departmental group's total managed expenditure (resource and capital, including annually managed expenditure such as provision movements), as HM Treasury publishes it. The group includes HMPPS, HMCTS, the Legal Aid Agency and smaller bodies such as the Criminal Injuries Compensation Authority and the Office of the Public Guardian, whose budgets are not shown separately here.

£15.4bn in 2025-26 (cash); £15.4bn in 2025-26 prices; £248 per resident; +9.5% on a year earlier in cash, +5.9% in real terms.

Ministry of Justice: by department or service body, 2024-25

Department or service body	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
HM Prison and Probation Service	£7.2bn	£7.5bn	£117	+4.6%	Ministry of Justice	Broken down below
Legal Aid Agency	£2.2bn	£2.3bn	£35.79	+1.4%	Ministry of Justice	Broken down below
HM Courts and Tribunals Service	£1.9bn	£1.9bn	£30.18	—	HM Courts and Tribunals Service	Local body not published: HMCTS does not publish spending by court or tribunal centre. Its accounts split fee income and costs only for fee-charging business (civil, family and tribunals); criminal courts charge no fees. It publishes its individual payments over £25,000 each month.

HM Prison and Probation Service

Net expenditure in HMPPS's accounts (after income). Below it are two views on different bases that are not meant to add up: every prison's overall cost (HMPPS's cost per place figures, which include shares of national costs) and the operating segments its board is shown (Net resource expenditure by operating segment as reported to the HMPPS Board (note 2a). The segments total less than net expenditure in the accounts: PFI accounting, costs held in the Ministry of Justice, overhead recharges and provisions are added in the reconciliation (note 2b).).

£7.2bn in 2024-25 (cash); £7.5bn in 2025-26 prices; £117 per resident; +8.7% on a year earlier in cash, +4.6% in real terms.

HM Prison and Probation Service: by local body, 2024-25

Local body	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Prisons in England and Wales	£4.9bn	£5.1bn	—	+1.1%	Ministry of Justice	On its own page
Public sector prisons	£2.6bn	£2.7bn	—	+4.5%	HM Prison and Probation Service	Line or transaction not published: Not broken down further in the accounts.
Probation Service	£1.2bn	£1.2bn	—	+3.0%	HM Prison and Probation Service	Line or transaction not published: Probation spending is not published by region or probation delivery unit; staff numbers by region are in the HMPPS workforce statistics.
Contracted prisons and services (Contracted Operational Delivery)	£955m	£987m	—	+0.1%	HM Prison and Probation Service	Line or transaction not published: Not broken down further in the accounts.
National services	£255m	£263m	—	+19.9%	HM Prison and Probation Service	Line or transaction not published: Not broken down further in the accounts.

Transforming delivery	£48m	£50m	—	+115.2%	HM Prison and Probation Service	Line or transaction not published: Not broken down further in the accounts.
Probation operations (headquarters)	£29m	£30m	—	−6.1%	HM Prison and Probation Service	Line or transaction not published: Not broken down further in the accounts.
Prison operations (headquarters)	£21m	£21m	—	−12.7%	HM Prison and Probation Service	Line or transaction not published: Not broken down further in the accounts.

Legal Aid Agency

Legal aid spending on the resource (RDEL) measure used in the Legal Aid Agency's accounts, cash. Before April 2013 legal aid was run by the Legal Services Commission; Central Funds moved to the Agency in 2013-14.

£2.2bn in 2024-25 (cash); £2.3bn in 2025-26 prices; £35.79 per resident; +5.4% on a year earlier in cash, +1.4% in real terms.

Legal Aid Agency: by spending category, 2024-25

Spending category	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Criminal legal aid	£1.1bn	£1.2bn	—	+2.1%	Ministry of Justice	Line or transaction not published: The accounts measure (RDEL) is not split by scheme; the statistics split spending by scheme on a different measure (completed claims), shown in the legal aid section of the page. Payments to individual firms are not published.
Civil legal aid	£1.0bn	£1.0bn	—	+1.0%	Ministry of Justice	Line or transaction not published: The accounts measure (RDEL) is not split by scheme; the statistics split spending by scheme on a different measure (completed claims), shown in the legal aid section of the page. Payments to individual firms are not published.
Central Funds (defence costs paid to acquitted defendants and others)	£63m	£65m	—	−4.8%	Ministry of Justice	Line or transaction not published: Not broken down further in the statistics.

Law Officers' Departments

The Attorney General's departments: the Crown Prosecution Service (most of the money), the Serious Fraud Office, the Government Legal Department and HM Crown Prosecution Service Inspectorate. Total managed expenditure.

£1.0bn in 2025-26 (cash); £1.0bn in 2025-26 prices; £16.48 per resident; +5.0% on a year earlier in cash, +1.6% in real terms.

Law Officers' Departments: by department or service body, 2024-25

Department or service body	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Crown Prosecution Service	£830m	£858m	£13.44	−1.9%	Crown Prosecution Service	Local body not published: The CPS does not publish spending by its 14 areas; its accounts give staff costs and prosecution costs (mostly fees to barristers) for the whole service.

Scotland

Scotland has its own legal system, run by the Scottish Government. The Scottish Courts and Tribunals Service, the Crown Office and Procurator Fiscal Service and the Scottish Legal Aid Board publish their accounts as PDFs; they are not yet carried here, so only the prison service is shown below.

£1.3bn in 2024-25 (cash); £1.3bn in 2025-26 prices; £235 per resident; +13.1% on a year earlier in cash, +8.8% in real terms.

Scotland: by department or service body, 2024-25

Department or service body	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Scottish Prison Service	£505m	£522m	£91.10	−0.4%	Scottish Prison Service	Local body not published: The Scottish Prison Service publishes each prison's average population in its annual report but not its costs, so there is no prison-by-prison money level for Scotland.

Northern Ireland

Northern Ireland has its own courts, prosecution and prisons under its Department of Justice. The Northern Ireland Courts and Tribunals Service, the Public Prosecution Service and the Legal Services Agency are not yet carried here; only the prison service is shown below.

£472m in 2024-25 (cash); £488m in 2025-26 prices; £245 per resident; +7.0% on a year earlier in cash, +3.0% in real terms.

Northern Ireland: by department or service body, 2024-25

Department or service body	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Northern Ireland Prison Service	£155m	£160m	£80.45	+2.6%	Northern Ireland Prison Service	Local body not published: The Northern Ireland Prison Service runs three establishments (Maghaberry, Magilligan and Hydebank Wood) and does not publish costs for each in its accounts.

Cash is as published. Real terms are in 2025-26 prices, using HM Treasury's GDP deflator. Per resident divides by ONS mid-year population for the area the body serves. Changes compare the same body in consecutive years.

Ministry of Justice

Ministry of Justice published **38,654 payments** worth **£7.45bn** to 3,962 suppliers and recipients from March 2025 to February 2026 (12 of 12 months published). The headquarters, HM Prison and Probation Service, HM Courts and Tribunals Service and the Legal Aid Agency; the arm's-length bodies' files are published separately and not read here.

- The newest payment published is from 2026-02, 7 months before this was read.
- 593 credits and refunds (negative amounts, £140,013,135 in all) are included, so totals are net.

Attorney General's Office, Government Legal Department and HMCPSI

Attorney General's Office, Government Legal Department and HMCPSI published **899 payments** worth **£70.2m** to 74 suppliers and recipients from June 2025 to May 2026 (12 of 12 months published). One combined file for the Attorney General's Office, the Government Legal Department and HM Crown Prosecution Service Inspectorate.

- The newest payment published is from 2026-05, 4 months before this was read.
- 17% of rows are under £25,000: the department lists individual lines of larger payments, or publishes some smaller ones. They are kept as published.
- 20.0% of payments (£5,595,307) have the supplier name withheld, redacted or left blank by the department.
- 21 credits and refunds (negative amounts, £1,675,811 in all) are included, so totals are net.

Crown Prosecution Service

Crown Prosecution Service: no file of spending over £25,000 found. No Crown Prosecution Service file of spending over £25,000 was found on GOV.UK; the CPS publishes its transparency data on its own website, which this site does not yet read.

Where it would be published: www.cps.gov.uk/publication-scheme. Checked 2026-09-24.

Where the money comes from

Almost all of it is voted by Parliament from general taxation. Courts also charge fees in civil, family and tribunal cases (not criminal ones), which pay for part of their running costs; prisons earn a little from work and services sold.

Net spending and income, £ million, cash

Body	What	2024-25	2025-26
HM Courts and Tribunals Service	Net spending (paid for by Parliament)	£1.9bn	£2.1bn
HM Courts and Tribunals Service	Court and tribunal fees collected	£830m	£868m
HM Courts and Tribunals Service	Other operating income	£70m	£73m
HM Prison and Probation Service	Net spending (paid for by Parliament)	£7.2bn	not published
HM Prison and Probation Service	Income (prison industries, services sold, recharges)	£302m	not published

Source: HM Courts and Tribunals Service, HM Courts and Tribunals Service, annual report and accounts 2025 to 2026, published 9 July 2026; HM Prison and Probation Service, HM Prison and Probation Service, Annual Report and Accounts 2024 to 2025, published 30 October 2025.

How many work in it

Staff, full-time equivalent

Body	When	Full-time equivalent
HM Prison and Probation Service (average, accounts)	2024-25	65,781
Prison officers in post (bands 3 and 4, HMPPS)	June 2026	18,530
Probation officers in post (HMPPS)	June 2026	5,465
HM Courts and Tribunals Service	2025-26	16,374
Crown Prosecution Service	2024-25	7,291
Scottish Prison Service	2024-25	4,758
Northern Ireland Prison Service	2024-25	1,600

Judges and magistrates are not HMCTS staff and are not counted. Contracted prisons' staff are not counted in HMPPS's figures.

Prosecution: the Crown Prosecution Service

CPS cases ending in a conviction, % of completed cases

Year	Magistrates' courts	Crown Court
2022-23	83.3%	78.1%
2023-24	83.8%	77.5%
2024-25	84.3%	77.0%

A conviction rate is not a measure of whether the right cases were brought: it depends on which cases the police refer and the CPS charges. Worked out from the counts of outcomes in the CPS's accounts.

Source: Crown Prosecution Service, Crown Prosecution Service, annual report and accounts 2024 to 2025, published 23 July 2025.

England and Wales, separately

Spending on law courts and prisons in England and in Wales, £ million, cash (HM Treasury, country and regional analysis)

Year	England	Wales
2020-21	£10.5bn	£644m
2021-22	£11.2bn	£683m
2022-23	£11.9bn	£719m
2023-24	£13.2bn	£751m
2024-25	£14.1bn	£775m

One jurisdiction, but HM Treasury assigns its spending to each country. Justice in Wales is not devolved: the Welsh Government does not fund courts or prisons.

Hand-kept figures last checked against their sources on 24 September 2026.

What these figures do and don't show

- **Different measures at each level.** The UK and jurisdiction figures are HM Treasury's spending on law courts and prisons; the departments are their total managed expenditure; HMPPS, HMCTS and the CPS are net spending in their accounts; legal aid is on the accounts' RDEL measure; each prison is HMPPS's cost per place figure. They are not expected to add up.
- **Three systems, never added.** England and Wales, Scotland and Northern Ireland run their own courts, prosecutors and prisons, and count their costs differently. Scottish and Northern Irish courts, prosecution and legal aid are not yet carried here.
- **Prison costs compare unlike prisons.** A young offender institution or a high-security prison costs far more per prisoner than an open prison. Compare a prison with others of its function, and treat public and contracted prisons' costs as different bases.
- **Nothing here shows cause and effect.** Backlogs, conviction rates and crowding sit beside the money, not as its result: they depend on crime, charging, sentencing law and much else.
- **Hand-kept figures.** HMPPS, HMCTS, CPS and the Scottish and Northern Irish prison services publish their accounts only as PDFs; their figures were read from them and are dated.

Figures from data/services/justice.json, generated 16 November 2026.

Transport: rail, buses, HS2 and active travel

Public services · Last updated 16 November 2026 · https://whereyourmoneygoes.co.uk/transport/

£34.7bn was spent on transport other than roads in the UK in 2025-26, **£499** per resident. That is −0.6% on a year earlier after inflation (+2.7% in cash). In 2025-26 prices it has gone from £18.9bn in 2006-07 to £34.7bn. Government support to the railways in Great Britain was £21.6bn in 2024-25. Franchised train operators received £2.51 of subsidy per passenger journey (2025-26 prices). £44.2bn had been spent on HS2 by the end of March 2026 (nominal (cash) prices).

The short version

- **Rail is most of it:** most transport spending other than roads goes on the railways, including HS2.
- **Every train operator has a page:** its subsidy per journey and per kilometre, fares as a share of costs, punctuality and cancellations, against Great Britain.
- **Buses by area:** support per resident and per journey for every local transport authority in England.
- **Price bases are never mixed:** ORR's real terms, DfT's cash and the HS2 reports' own bases are each labelled.

Rail, buses and the rest: what the money is spent on

Of the £48.9bn the UK spent on transport in 2025-26, £26.5bn went on railways, £5.6bn on local public transport (buses, trams and concessionary fares) and £2.7bn on other transport. National roads (£6.1bn) and local roads (£8.1bn) are on the roads page.

UK public spending on transport other than roads, by kind, 2025-26 prices, £ billion

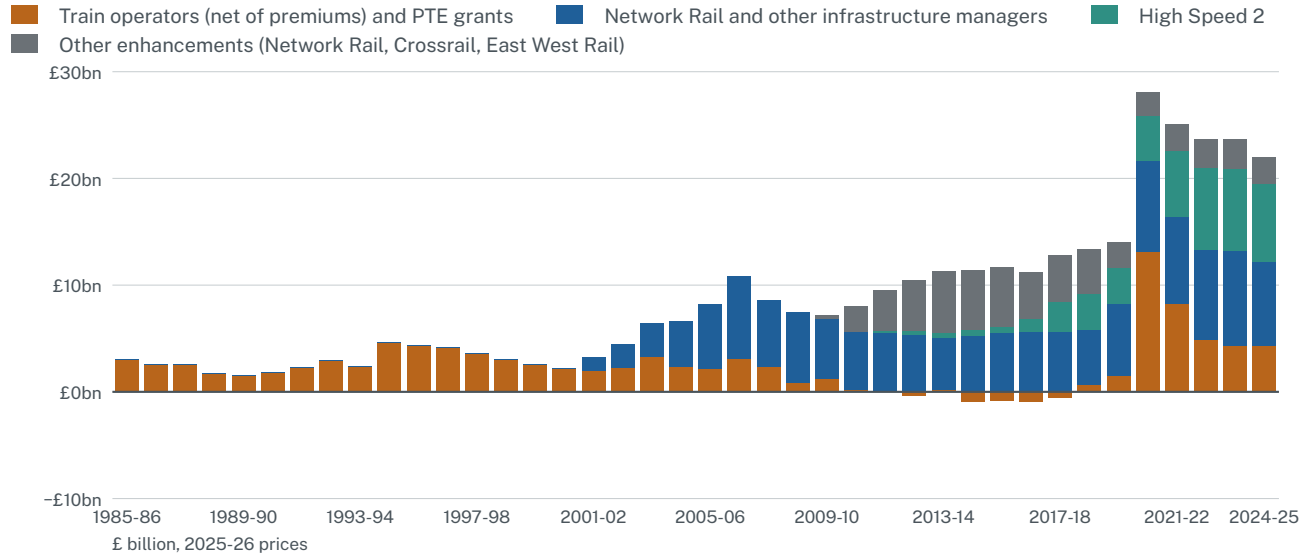

Stacked bar chart of UK spending on railways, local public transport and other transport from 2006-07 to 2025-26, in 2025-26 prices: railway £26.5bn in 2025-26.

Source: HM Treasury, PESA 2026: chapter 5 tables (table 5.2, transport), published 16 July 2026.

Government support to the railways since 1985

Governments paid £21.6bn to the rail industry in Great Britain in 2024-25 (£22.3bn in 2025-26 prices), against £3.2bn in 1985-86 on the same basis. Since 2020 the government has carried the railway's revenue risk, and it now funds HS2 as well as the existing network.

Government support to the rail industry, Great Britain, 2025-26 prices, £ billion

Stacked bar chart of government support to the railways from 1985-86 to 2024-25 in 2025-26 prices: £3.2bn in 1985-86 and £22.3bn in 2024-25.

Where rail support came from in 2024-25, cash

Government funder	To train operators	To Network Rail	All support
Department for Transport	£2.5bn	£6.9bn	£9.5bn
Transport Scotland	£824m	£659m	£1.5bn
Welsh Government	£392m	not published	£431m
Transport for London	£322m	not published	£322m
Passenger Transport Executives	£150m	not published	£150m

"To train operators" is net of premiums. Transport for London and the passenger transport executives fund London Overground, the Elizabeth line and Merseyrail. The Department for Transport's funding of Network Rail covers England and Wales: rail infrastructure in Wales is not devolved.

Source: Office of Rail and Road, Table 7270: government support to the rail industry, published 25 November 2025; Office of Rail and Road, Table 7271: government support to the rail industry by source and recipient, published 25 November 2025.

Train operators: subsidy per journey, and results alongside

Every franchised operator in Great Britain, with its net government subsidy and what it comes to per passenger journey and per kilometre travelled, in 2025-26 prices. A negative figure means the operator paid the government a premium. Fares as a share of operating costs, trains on time and cancellations are shown beside the money, not as its result. Each operator has its own page with the series over time.

Train operators, 2024-25: subsidy and results (money in 2025-26 prices)

Operator	Net subsidy	Per journey	Per passenger km	Fares as share of costs	Trains on time	Cancellations
All franchised operators	£4.3bn	£2.51	6.9 pence	71.4%	67.0%	4.1%
Avanti West Coast	−£152m	−£4.36	−2.3 pence	108.8%	39.9%	6.3%
c2c	£66m	£1.78	7.6 pence	67.6%	79.6%	1.7%
Caledonian Sleeper	£49m	£164.13	24.8 pence	40.0%	69.8%	1.2%
Chiltern Railways	£41m	£1.78	3.3 pence	80.1%	78.9%	2.2%
CrossCountry	£44m	£1.16	1.3 pence	92.3%	48.2%	6.9%
East Midlands Railway	£95m	£3.00	3.8 pence	79.8%	54.4%	3.6%
Elizabeth line	£110m	£0.45	4.6 pence	101.2%	79.4%	3.9%
Govia Thameslink Railway (Thameslink, Southern, Great Northern, Gatwick Express)	£244m	£0.82	3.0 pence	83.3%	68.2%	5.5%
Great Western Railway	£443m	£4.97	7.1 pence	71.7%	61.5%	4.6%
Greater Anglia	−£130m	−£1.59	−3.6 pence	113.3%	84.8%	1.8%
London North Eastern Railway (East Coast)	£96m	£3.60	1.6 pence	85.1%	56.5%	3.8%
London Overground	£223m	£1.24	17.9 pence	53.1%	72.0%	3.5%
Merseyrail	£155m	£5.20	28.7 pence	25.2%	70.7%	3.6%
NI Railways (Translink)	—	—	—	45.4%	—	—
Northern	£743m	£8.09	27.5 pence	35.3%	58.2%	5.8%
ScotRail	£803m	£9.48	30.5 pence	31.8%	69.2%	2.1%
South Western Railway	£132m	£0.80	2.7 pence	86.1%	65.7%	3.6%
Southeastern	£433m	£3.14	11.5 pence	63.9%	66.0%	2.4%
TransPennine Express	£171m	£6.21	8.1 pence	62.5%	48.3%	4.2%
Transport for Wales Rail	£405m	£12.94	33.5 pence	30.2%	62.2%	5.3%
West Midlands Trains (West Midlands Railway, London Northwestern Railway)	£355m	£5.25	12.6 pence	53.1%	64.4%	4.9%

What each measure counts

- **Government subsidy per passenger journey** The operator's net government subsidy (negative where it paid the government a premium) divided by its passenger journeys, in 2025-26 prices. Subsidy is ORR's net franchise subsidy from 2015-16 and, before that, the government's payments to the franchise holder (ORR table 7273, without its estimated share of the network grant), so there is a break at 2015-16. Worked out here from ORR's figures.
- **Government subsidy per passenger kilometre** Net franchise subsidy divided by passenger kilometres travelled on the operator, in 2025-26 prices, from 2015-16. Long-distance operators carry passengers further, so this is the fairer comparison between them and commuter operators.
- **Fares as a share of operating costs** Fare income as a share of the operator's operating expenditure (staff, rolling stock, track access and other costs), from its management accounts (ORR table 7226).
- **Trains on time** Share of recorded station stops where the train arrived early or less than a minute late, over the financial year (ORR table 3133).
- **Cancellations** The cancellations score (a full cancellation counts one, a part cancellation a half) as a share of trains planned, over the financial year (ORR table 3123).

Source: Office of Rail and Road, Table 7226: franchised passenger train operator finances by franchise, published 25 November 2025; Office of Rail and Road, Table 1223: passenger journeys by operator, published 1 October 2026; Office of Rail and Road, Table 3133: train punctuality at recorded station stops by operator, published 17 September 2026; Office of Rail and Road, Table 3123: trains planned and cancellations by operator, published 17 September 2026.

From franchises to public ownership

Until 2020 most passenger services were run under franchises: private companies took the fares and either received a subsidy or paid the government a premium. From March 2020 emergency agreements moved the revenue risk to the government, and operators have since moved into public ownership, ahead of Great British Railways. These changes are marked as breaks on every operator's series.

Changes of ownership, by date

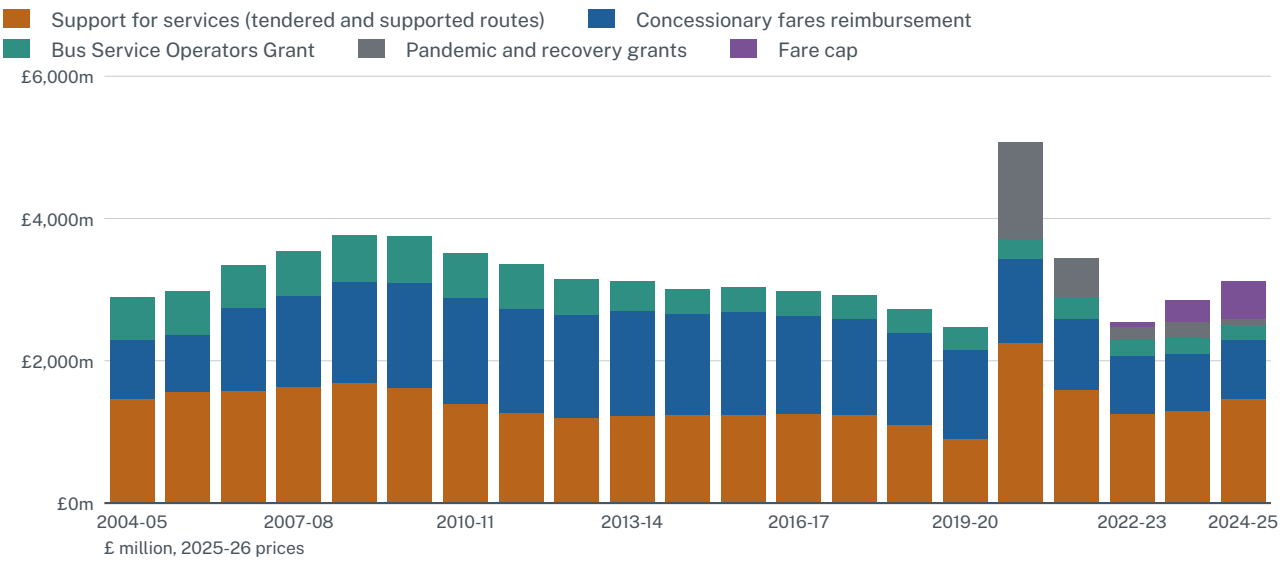

- **June 2018 Operator:** London North Eastern Railway (East Coast) Taken over by the Department for Transport's operator of last resort in June 2018.
- **March 2020 Operator:** Northern Taken over by the Department for Transport's operator of last resort in March 2020.
- **February 2021 Operator:** Transport for Wales Rail Run by Transport for Wales Rail Ltd, owned by the Welsh Government, from February 2021.
- **October 2021 Operator:** Southeastern Taken over by the Department for Transport's operator of last resort in October 2021.
- **1 April 2022 Operator:** ScotRail Transferred to ScotRail Trains Limited, owned by the Scottish Government.
- **May 2023 Operator:** TransPennine Express Taken over by the Department for Transport's operator of last resort in May 2023.
- **June 2023 Operator:** Caledonian Sleeper Run by a company owned by the Scottish Government from June 2023.
- **25 May 2025 Operator:** South Western Railway The first operator transferred under the Passenger Railway Services (Public Ownership) Act 2024.
- **20 July 2025 Operator:** c2c Transferred to public ownership (DfT Operator).
- **12 October 2025 Operator:** Greater Anglia Transferred to public ownership (DfT Operator).
- **1 February 2026 Operator:** West Midlands Trains (West Midlands Railway, London Northwestern Railway) Transferred to public ownership (DfT Operator).
- **31 May 2026 Operator:** Govia Thameslink Railway (Thameslink, Southern, Great Northern, Gatwick Express) Transferred to public ownership (DfT Operator).
- **20 September 2026 Operator:** Chiltern Railways Transferred to public ownership (DfT Operator).
- **13 December 2026 Operator:** Great Western Railway Due to transfer to public ownership (planned).

Dates from Department for Transport, Great British Railways and the public ownership programme and ORR's notes, checked 24 September 2026.

Buses: support by type, and by local transport authority

Central and local government put £3.0bn into local buses in England in 2024-25, including concessionary fares. There were 4,078 million local bus journeys in Great Britain in 2024-25. Support per journey across England was 82.4 pence, spread over every journey, fare-paying or not.

Government support for local buses in England, by type, 2025-26 prices, £ million

Stacked bar chart of net government support for local buses in England from 2004-05 to 2024-25: £2.9bn to £3.1bn in 2025-26 prices.

York	3.4 £ million	£16.51	70.0 journeys	23.5 pence

Support here is each authority's net public transport support (mostly paying for routes that would not run commercially); it leaves out concessionary fares and the Bus Service Operators Grant, which DfT does not publish at this level. Authorities are the county, unitary or combined authority, or Transport for London. DfT warns that figures at this level can swing with recording practice. Journeys per resident are DfT's own figures.

On the map

An interactive map or explorer appears here on the live page.

The map covers the whole UK. Where the nations publish the same measure, they share one scale. Where they publish different ones, each nation is shaded against its own measure on its own scale, named in its own part of the legend, and the nations cannot be compared with each other. Where a nation publishes nothing for a measure, the map says so and links to what it publishes instead. Pick an area for its figures and a link to its page.

Every one of the transport authorities, on each measure on the map England: Net support for local buses per resident, 2024-25. Scotland: Council spending on support to transport operators and co-ordination per resident, 2024-25. Wales: Council spending on support to transport operators and co-ordination per resident, 2025-26. The nations' figures are different measures and are not directly comparable.

Council area	Nation	Bus support	Bus journeys	Support per journey

HS2: spend to date and the cost estimates

The Department for Transport reports to Parliament on HS2 every six months. The reports have used different price bases over time (2019 prices until December 2024, cash since July 2025), so each figure below is shown in its own base and none are added together. Phase 2 north of Birmingham was cancelled in October 2023; the latest estimates cover London Euston to Birmingham and the connection to the West Coast Main Line at Handsacre.

Spent on HS2 to date, as each report gave it

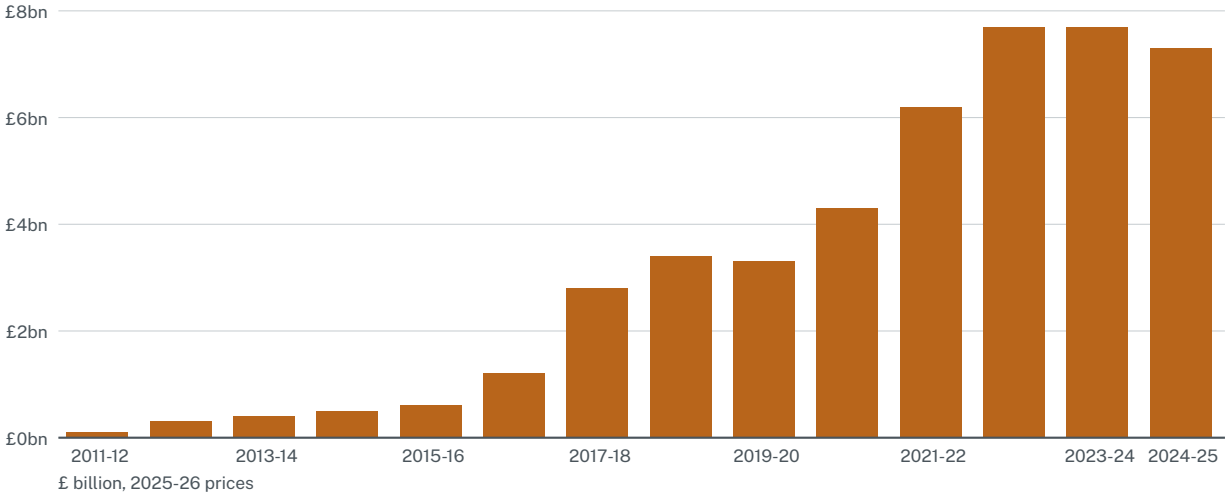

Report	Spent to date	Price base	Covers
12 October 2020	£11.0bn	2019 prices	Phases 1, 2a and 2b, including a £1 billion provision for land and property (to end of August 2020)
23 March 2021	£12.4bn	outturn (cash) prices	Phases 1, 2a and 2b, including a £1 billion provision for land and property (to spring 2021)
19 October 2021	£15.5bn	2019 prices	Phases 1, 2a and 2b, including land and property (£15.3 billion in actual prices) (to autumn 2021)
16 March 2022	£17.4bn	2019 prices	Every phase, including land and property (to early 2022)
27 October 2022	£21.4bn	2019 prices	Every phase, including land and property (to autumn 2022)
19 June 2023	£24.7bn	2019 prices	Every phase, including land and property (to spring 2023)
15 November 2023	£27.0bn	2019 prices	The historic scope, every phase, including land and property (to autumn 2023)
17 December 2024	£32.8bn	2019 prices	Phase One £30.2 billion and former Phase 2 £2.5 billion, including land and property (to end of September 2024)
17 July 2025	£40.5bn	nominal (cash) prices	Phase 1 £37.9 billion and former Phase 2 £2.6 billion, including land and property (to end of April 2025)
23 March 2026	£43.6bn	nominal (cash) prices	The HS2 programme, including land and property (to end of February 2026)
19 May 2026	£44.2bn	nominal (cash) prices	The HS2 programme, including land and property (to end of March 2026)

HS2 cost estimates, as published

Published	What it covers	Estimate	Price base
12 October 2020	Full network (Phases 1, 2a and 2b), estimate at the April 2020 notice to proceed	£72.0bn to £98.0bn	2019 prices
12 October 2020	Phase One: target cost £40.3 billion within a funding envelope of £44.6 billion (range shown is the estimated cost range)	£35.0bn to £45.0bn	2019 prices
27 October 2022	The parts then committed to (Phases 1, 2a and the 2b Western Leg)	£53.0bn to £71.0bn	2019 prices
15 November 2023	Phase One: HS2 Ltd's estimate (the Department's own range was £45 billion to £54 billion)	£49.0bn to £57.0bn	2019 prices
19 May 2026	The whole remaining programme (Euston to Birmingham Curzon Street and Handsacre), after the reset: £70.9 billion to £82.2 billion in an equivalent 2019 mixed price base	£87.7bn to £102.7bn	mixed price base (cash spent so far plus future work excluding inflation)
19 May 2026	The same programme in cash terms, including projected inflation (provisional)	£94.3bn to £112.4bn	cash, including projected inflation

Capital settlement for HS2 Ltd at the 2025 Spending Review, 2026-27 to 2029-30: **£25.3bn** (nominal prices; Department for Transport, HS2 6-monthly report to Parliament: July 2025).

Government funding for HS2 each year, 2025-26 prices, £ billion

Bar chart of government funding for HS2 from 2011-12 to 2024-25, reaching £7.3bn in 2025-26 prices.

Report figures checked against the published reports on 24 September 2026.

The Department for Transport's major projects

12 of the Department's projects in the Government Major Projects Portfolio at March 2026 are not road schemes (road schemes are on the roads page). The independent assessors' rating says how likely delivery on time and budget looked: red means successful delivery appeared unachievable without action. Where no cost is shown it was withheld or not yet set.

Department for Transport major projects other than roads, March 2026

Project	Whole-life cost	A year earlier	Rating
Northern powerhouse rail	£45.0bn	£30.6bn	Amber
Transpennine route upgrade	£10.7bn	£11.1bn	Not rated
East coast digital programme	£3.0bn	£3.5bn	Red
2nd generation uk search and rescue aviation	£2.0bn	£2.0bn	Not rated
East coast mainline programme	£1.3bn	£1.0bn	Not rated
Midlands rail hub	£948m	£1.6bn	Not rated

Active travel: walking, wheeling and cycling

For 2026-27 to 2029-30 the Department for Transport has allocated £121m a year of capital funding and £38m a year of revenue funding for active travel to 79 local transport authorities in England outside London: £600m over the four years. These are allocations, not spending. London is funded through Transport for London, and Scotland, Wales and Northern Ireland fund active travel themselves.

The largest active travel allocations, 2026-27 to 2029-30, cash

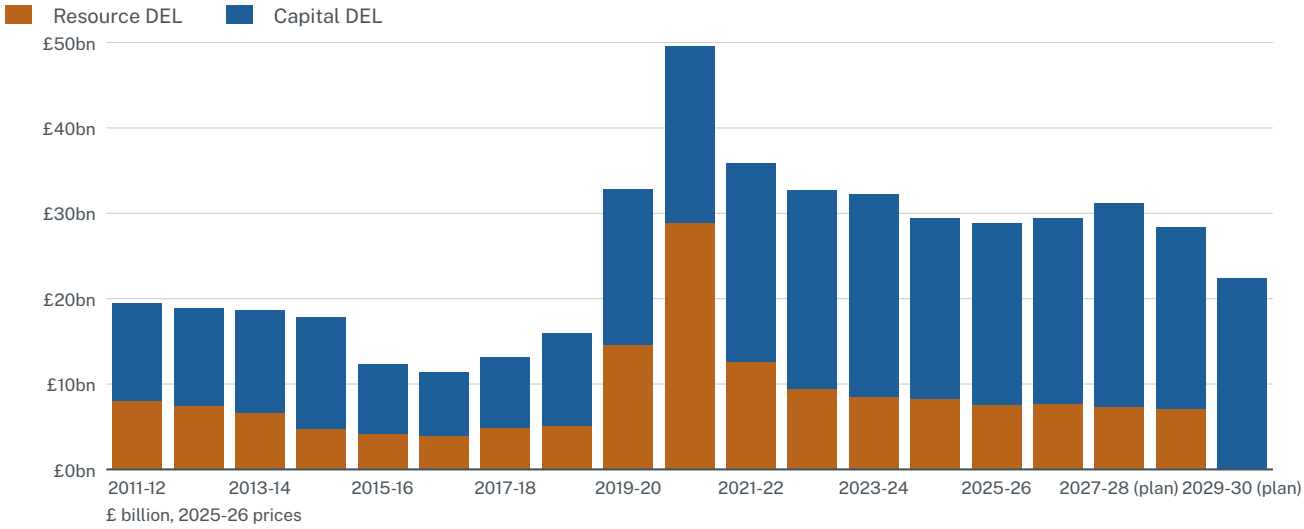

Authority	Capital a year	Revenue a year	Total over four years
West Midlands Combined Authority	£7m	£2m	£36m
Greater Manchester Combined Authority	£7m	£2m	£35m
West Yorkshire Combined Authority	£6m	£2m	£29m
Kent County Council	£5m	£2m	£26m
Cambridgeshire & Peterborough Combined Authority	£5m	£2m	£25m
Essex County Council	£5m	£2m	£25m
Hampshire County Council	£5m	£1m	£23m
Lancashire County Council	£4m	£1m	£20m
Oxfordshire County Council	£4m	£1m	£20m
Surrey County Council	£4m	£1m	£20m
Hertfordshire County Council	£4m	£1m	£20m
Gloucestershire County Council	£4m	£1m	£18m

Revenue funding is for three of the four years. The six largest mayoral combined authorities receive theirs inside their integrated settlements. Past active travel spending is not published as a data series by authority; Active Travel England's own running costs are in its annual report and accounts. Source: Department for Transport, Active travel local transport authority allocations, 2026-27 to 2029-30, published 17 July 2026.

The Department for Transport's budget, outturn and plans

The Department for Transport's budget covers roads as well as rail, buses and the rest, mostly in England, so it is shown here for context and not added to the totals above.

Department for Transport budgets: day-to-day (resource) and investment (capital), 2025-26 prices, £ billion

Stacked bar chart of the Department for Transport's resource and capital budgets from 2011-12 to 2029-30, in 2025-26 prices.

By nation: rail and local public transport per resident

Identifiable public spending per resident, 2024-25, cash

Nation	Railway	Local public transport	Other transport
England	£389	£76	£17
Scotland	£336	£80	£122
Wales	£282	£29	£17
Northern Ireland	£144	£87	£32

HM Treasury's country and regional analysis: spending that can be identified as benefiting each nation, divided by its own population. Transport is devolved: Transport Scotland, the Welsh Government (through Transport for Wales) and Northern Ireland's Department for Infrastructure (through Translink) run their own rail and bus policy. Spending for the UK as a whole is not assigned to a nation, so the nations do not add up to the UK.

Source: HM Treasury, Country and regional analysis 2025: B tables, published 19 November 2025.

What these figures do and don't show

- **Roads are on their own page.** The totals here are railways, local public transport and other transport; roads are left out, so the two pages can be added without counting anything twice.
- **Three measures of rail money.** HM Treasury's railway spending (the long-run chart), ORR's government support to the rail industry, and each operator's net subsidy count different things and do not match. Each chart says which it is.
- **Price bases are stated on every figure.** ORR publishes in real terms; it is converted back to cash here with the same GDP deflator. DfT bus figures are cash. HS2 costs are in the price base each report used (2019 prices, cash, or a mixed base) and are never added together.
- **Breaks in the series are marked.** Network Rail joined central government's books in 2015-16; operator subsidy changes source that year; from March 2020 emergency agreements put revenue risk on the government; and operators have moved into public ownership since 2018.
- **Nothing here shows cause and effect.** Subsidy, punctuality, cancellations and journeys are shown side by side. An operator carrying more passengers further, or running on a busier network, faces different costs.
- **Where a level is not published, it says so.** Government payments to an operator are one net figure; Network Rail and HS2 publish their spending by activity only in reports; bus support by council is published for England only.
- **England-only and UK-wide figures are kept apart.** Bus support by type and by local transport authority is England only; ORR's rail figures are Great Britain; Northern Ireland's railway is shown separately.

Figures from data/services/transport.json, generated 16 November 2026.

Roads and roadworks: spending, condition, potholes and who digs them up

Public services · Last updated 16 November 2026 · https://whereyourmoneygoes.co.uk/roads/

£14.2bn was spent on national and local roads in the UK in 2025-26, **£205** per resident. That is +1.2% on a year earlier after inflation (+4.6% in cash). In 2025-26 prices it has gone from £13.4bn in 2006-07 to £14.2bn. Councils in England and Wales put the one-off cost of clearing the local road repair backlog at £18.62 billion (ALARM 2025-26). Utilities accounted for 61.0% of the days of roadworks finished in England in October 2026. Neither fuel duty nor vehicle excise duty is earmarked for roads.

The short version

- **Motoring taxes are not road taxes:** fuel duty and VED raised £33.6bn in 2025-26; road spending was £14.2bn. Neither tax has been earmarked since 1937.
- **Most local road money is capital grant from government;** council revenue budgets pay for patching, gritting and lights.
- **Condition, ratings and roadworks are England only;** every highway authority has its own page.

What drivers pay, and what is spent on roads

In 2025-26 fuel duty raised £24.6bn and vehicle excise duty £9.0bn: £33.6bn together. Spending on national and local roads across the UK was £14.2bn, equal to 42% of those two taxes (29% in 2006-07).

Neither tax is earmarked for roads, and has not been since the 1930s. The Road Fund set up by the Roads Act 1920 had become notorious for being raided for other purposes, and in the House of Lords Library's words, "Hypothecation was formally ended by provisions in the Finance Act 1936, which ensured that by 1 April 1937 the revenues from motor vehicle taxes were paid directly into the consolidated fund". From 2020 to 2025 the government set strategic road funding in England at a sum equal to vehicle excise duty receipts (the National Roads Fund). That was a spending decision, not an earmark: the duty itself still went into the Consolidated Fund. "Road tax" has not existed since; see vehicle excise duty and fuel duty.

Fuel duty and vehicle excise duty against spending on roads, UK, 2025-26 prices, £ billion

Line chart from 2006-07 to 2025-26: fuel duty and VED together £46.6bn in 2006-07 and £33.6bn in 2025-26; spending on national and local roads £13.4bn and £14.2bn, in 2025-26 prices.

Motoring taxes and road spending, UK, cash, every third year

Year	Fuel duty	VED	Both	Road spending	Spending as share of both
2007-08	£24.9bn	£5.4bn	£30.3bn	£8.4bn	28%
2010-11	£27.3bn	£5.8bn	£33.0bn	£9.3bn	28%

National Highways: funding by road period, and what was delivered

England's motorways and major A roads are run by National Highways (Highways England until 2021), funded through five-year road investment strategies. The Office of Rail and Road checks each period's delivery. Scotland's and Wales's trunk roads are run by their governments and are not funded this way.

Road investment strategies: funding, spending and schemes, £ cash

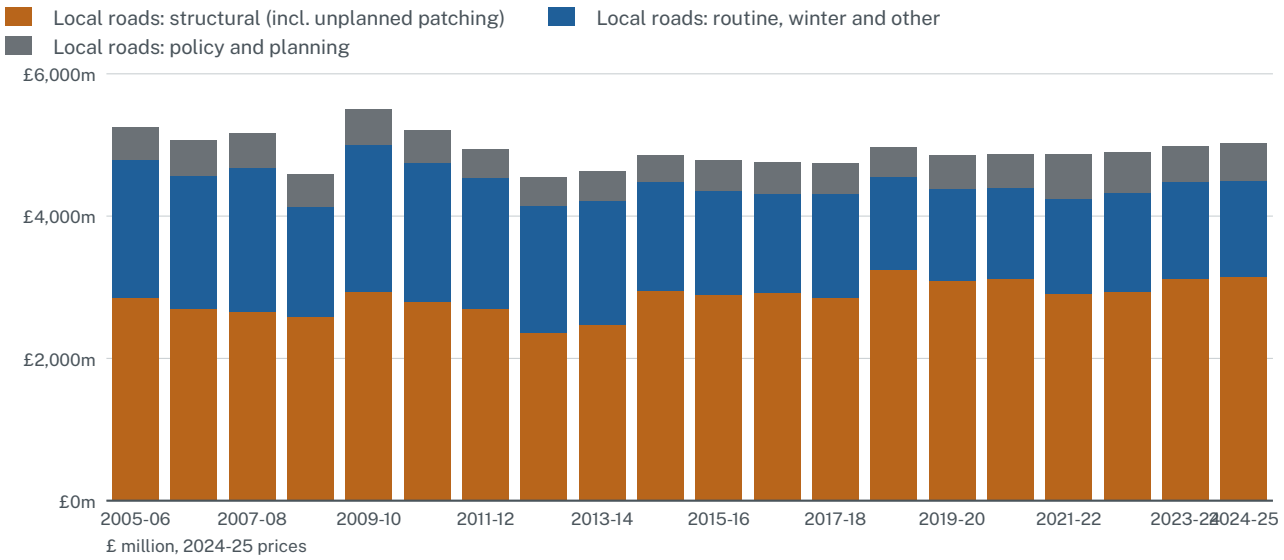

Period	Funding	Spent	Schemes opened (planned)	Renewals spent (funded)	Notes
Road period 1 (RIS1), Highways England, 2015-16 to 2019-20	£16.7bn set; £17.7bn final	£12.2bn capital	36 (28)	£3.5bn (£3.6bn)	Of the 73 schemes in the revised plan, 67 started work, two were funded for a third party to start, and four commitments were missed. 36 schemes opened for traffic, adding 343 lane miles. £11,351m capital (set in the RIS) and £5,310m resource (set in Spending Review 2015). £12,142m capital and £5,513m resource after approved changes, March 2020. Office of Rail and Road, Annual Assessment of Highways England: End of Road Period 1 2015-2020 (HC485), paragraphs 1.10, 1.13, 3.21 and Annex B.
Road period 2 (RIS2), National Highways, 2020-21 to 2024-25	£27.4bn set; £23.0bn final	£23.2bn	30 (52)	£4.9bn (£4.8bn)	The original delivery plan committed to start 43 schemes and open 52; commitments were cut during the period by government changes. National Highways missed 11 enhancement commitments for reasons within its control. £23,244m spent includes £235m on work outside the RIS. Funding in the original 2020-2025 delivery plan. £16,785m capital and £6,258m resource in the final 2024-25 delivery plan update, after cuts of £3,428m (2021 Spending Review) and £1,067m (2024-25 update) for delayed and cancelled schemes. Office of Rail and Road, Annual Assessment of National Highways' performance: End of the second road period April 2020 to March 2025 (HC 1588), paragraphs 3.4, 3.5, 5.45 to 5.56.
Interim settlement, National Highways, 2025-26	£4.8bn	not yet assessed	—	—	What was delivered in 2025-26 is assessed by the Office of Rail and Road in its annual assessment; not yet read into this dataset. One-year settlement for operation, maintenance and enhancement between RIS2 and RIS3. Department for Transport, Road Investment Strategy 3 (RIS3): 2026 to 2031, March 2026.
Road period 3 (RIS3), National Highways, 2026-27 to 2030-31	£25.0bn	not yet assessed	—	(£8.4bn)	The period has just begun: what is delivered will be assessed by the Office of Rail and Road each year. RIS3 moves money from new schemes to renewals. Statement of funds available: £8,441m renewals, £3,846m enhancements, £5,184m other capital and £7,515m resource. A further £402m is ring-fenced for two inward investment projects and £1.65bn for the publicly funded works on the Lower Thames Crossing (over £27bn in all). Department for Transport, Road Investment Strategy 3 (RIS3): 2026 to 2031, RIS3 Statement of Funds Available.

Local roads: where the maintenance money goes

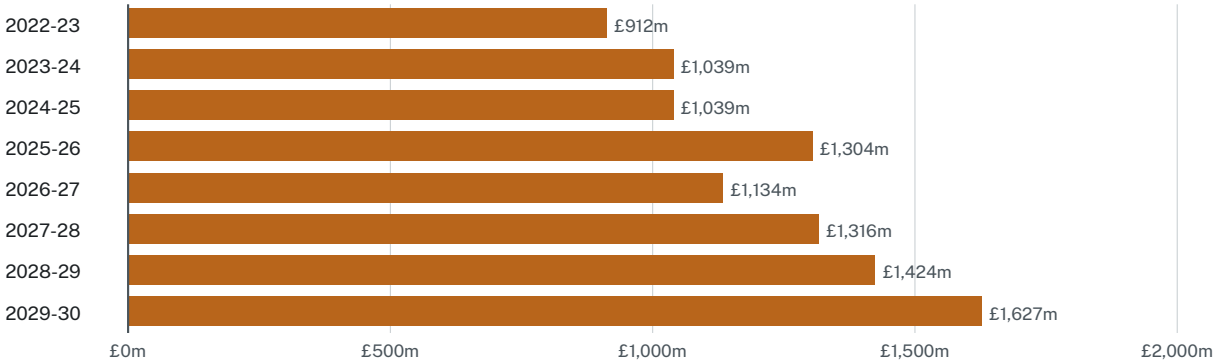

Councils pay for road maintenance from two pots: capital grant from government (in England, DfT's highways maintenance allocations), which pays for most resurfacing, and their own revenue budgets, which pay for routine repairs, gritting and street lighting. DfT's split below covers both for England; each council's page shows its revenue spending per mile of road it looks after.

Maintenance spending on local authority roads in England by type, 2024-25 prices (DfT), £ million

Stacked bar chart of maintenance spending on local authority roads in England from 2005-06 to 2024-25: structural £3.2bn, routine and other £1.3bn, policy and planning £531m in 2024-25.

DfT capital grant for local road maintenance, English councils outside mayoral areas, £ million, cash

Bar chart of DfT highways maintenance allocations to local highway authorities from 2022-23 to 2029-30: 2022-23 £912m, 2023-24 £1.0bn, 2024-25 £1.0bn, 2025-26 £1.3bn, 2026-27 £1.1bn, 2027-28 £1.3bn, 2028-29 £1.4bn, 2029-30 £1.6bn.

Northern Ireland

Identifiable spending on national and local roads in the nation (HM Treasury country and regional analysis): the latest five years only.

£431m in 2024-25 (cash); £445m in 2025-26 prices; £224 per resident; +12.2% on a year earlier in cash, +8.0% in real terms.

Northern Ireland: by department or service body, 2024-25

Department or service body	Cash, 2024-25	Real terms (2025-26 prices)	Per resident	Real change on a year earlier	Source	Below this
Local roads: Department for Infrastructure	£414m	£428m	£215	+9.2%	HM Treasury	Local body not published: Northern Ireland's councils are not highway authorities: DfI Roads looks after local roads too, and publishes no spending by council area.
Trunk roads: Department for Infrastructure	£17m	£18m	£8.82	−13.9%	HM Treasury	Local body not published: In Northern Ireland the Department for Infrastructure (DfI Roads) looks after every public road, trunk and local. Its spending by road is not published as data.

Cash is as published. Real terms are in 2025-26 prices, using HM Treasury's GDP deflator. Per resident divides by ONS mid-year population for the area the body serves. Changes compare the same body in consecutive years.

On the map

An interactive map or explorer appears here on the live page.

The map covers the whole UK. Where the nations publish the same measure, they share one scale. Where they publish different ones, each nation is shaded against its own measure on its own scale, named in its own part of the legend, and the nations cannot be compared with each other. Where a nation publishes nothing for a measure, the map says so and links to what it publishes instead. Pick an area for its figures and a link to its page.

Every one of the highway authorities, on each measure on the map England: Net spending on road maintenance per mile of road, 2025-26. Scotland: Net spending on road construction and maintenance per mile of road, 2024-25. Wales: Net spending on road construction and maintenance per mile of road, 2025-26. The nations' figures are different measures and are not directly comparable.

What comes out: results by body

These are outputs and results published alongside the money. They are not what the money bought: demand, geography and recording practice differ between areas, and none of these figures shows cause and effect.

Each highway authority: road maintenance spending per mile, A roads needing maintenance (England), DfT grant per mile (England) and roadworks per 100 miles (England)

What each measure counts

- **Road maintenance spending per mile** The highway authority's net revenue spending on road maintenance (structural and routine) divided by the miles of road it looks after (locally managed A roads and all minor roads, DfT RDL0102, latest year). Net revenue spending from the council's own return (MHCLG revenue outturn in England, StatsWales in Wales, Scottish Local Government Finance Statistics in Scotland). It leaves out capital spending, which pays for most resurfacing and is funded mainly by government grant, and it is after income such as recharges; the nations' returns differ in what is netted off, so compare councils within a nation.
- **A roads where maintenance should be considered** Share of the council's A roads and motorways in the red category, where maintenance should be considered, from machine surveys (DfT RDC0120). England only. Survey methods changed from 2024-25 as councils moved to a new measure, so recent years are not fully comparable with earlier ones.
- **DfT maintenance grant per mile** The DfT highways maintenance allocation divided by the miles of road the authority looks after. England only, outside mayoral combined authority areas.
- **Roadworks on site per 100 miles of road** Works on site in the month per 100 miles of road the authority looks after. England only (Street Manager, DfT RDL0102).

Condition and the backlog

Local roads in England where maintenance should be considered, %

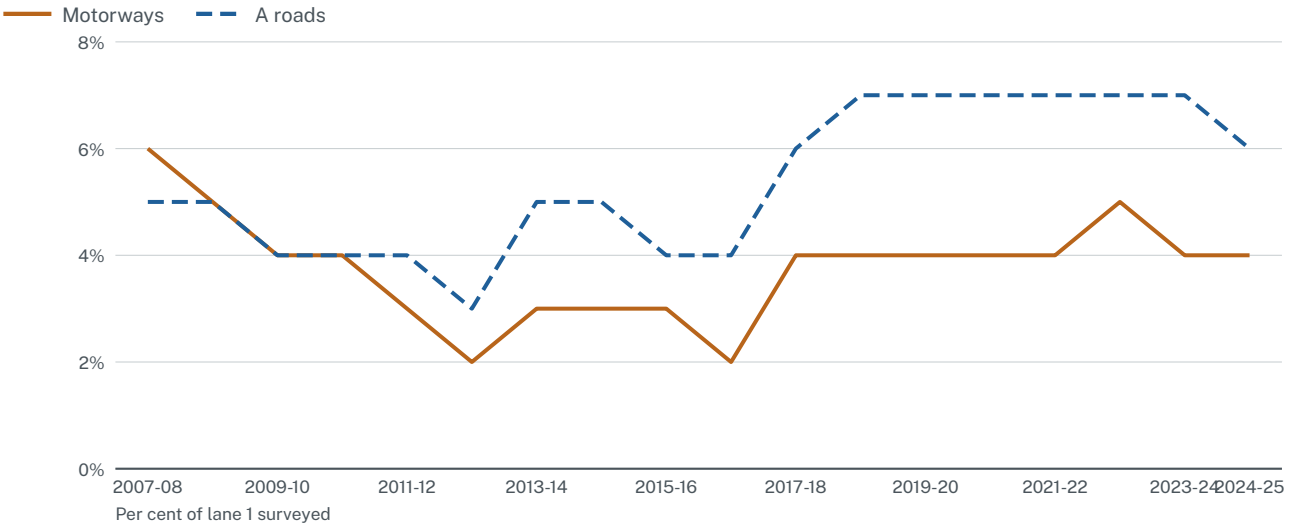

Line chart from 2007-08 to 2024-25: A roads 5% to 5%; B and C roads 8% to 7%; unclassified roads 15% to 17%.

Condition beside maintenance spending on local roads, England (spending at 2024-25 prices)

Year	Maintenance spending	A roads to consider	B and C roads	Unclassified roads

2015-16	£4.8bn	3%	6%	16%
2018-19	£5.0bn	3%	6%	16%
2021-22	£4.9bn	4%	6%	16%
2024-25	£5.0bn	5%	7%	17%

National Highways roads needing further investigation, %

Line chart from 2007-08 to 2024-25 of the share of lane 1 surveyed that needed further investigation: motorways 6% to 4%.

The backlog: what councils say it would cost to catch up

The Asphalt Industry Alliance's annual survey of highway authorities in England and Wales (ALARM 2026) puts the one-off cost of bringing local roads up to a reasonable steady state at **£18.62 billion** in 2025-26, or £91,100 a mile. Councils estimate clearing it would take **12 years** (12 in England outside London, 8 in London, 15 in Wales) if the money were there. Their annual carriageway budgets fell £1.37 billion short of what they said they needed.

Local highway authorities in England (including London) and Wales; 79% responded; results extrapolated to 115 English authorities without a PFI, 32 in London and 22 in Wales.

One-time catch-up cost reported in the ALARM survey, England and Wales

Survey	Catch-up cost
ALARM 2017	£12.06bn
ALARM 2025	£16.81bn
ALARM 2026	£18.62bn

These are local authorities' own estimates, collected by an industry body; the government does not publish a backlog figure. DfT last estimated it in 2019, at £7.6 billion to £11.7 billion (National Audit Office).

Source: Department for Transport, Road condition statistics: data tables (RDC0120, RDC0130, RDC0201, RDC0310, RDC0320, RDC0321), published 21 January 2026; Asphalt Industry Alliance, Annual Local Authority Road Maintenance (ALARM) Survey Report 2026, published 17 March 2026.

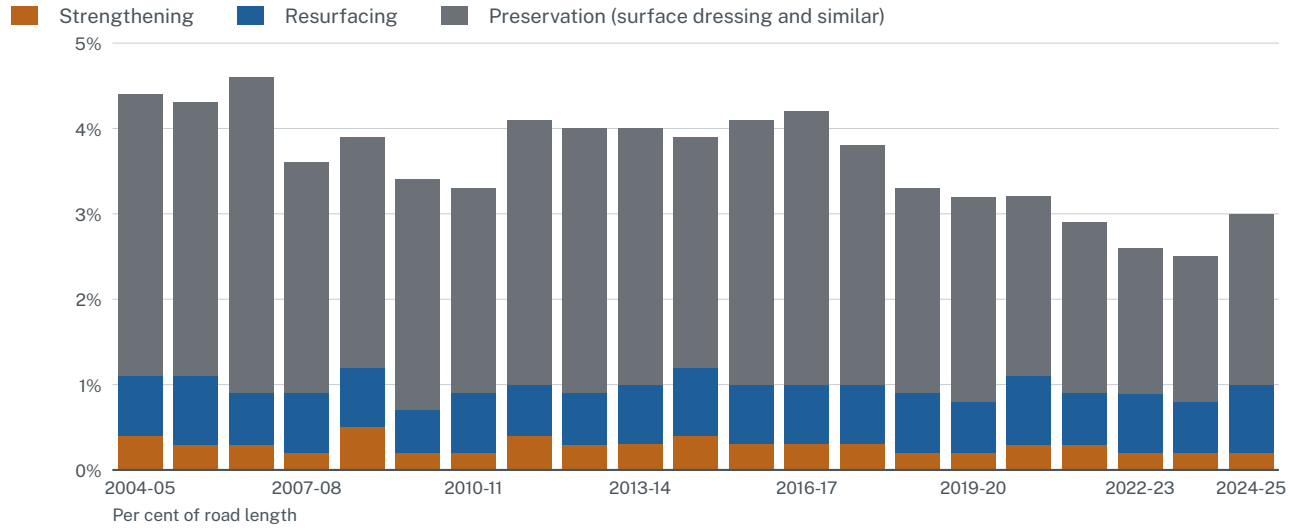

Prevention or patching: the evidence on value for money

Preservation treatments such as surface dressing seal a road before water gets in and potholes form; resurfacing and strengthening replace it once it has failed; reactive patching fills holes as they appear. In the ALARM survey, a pothole filled as part of a planned programme cost £63.11 on average in 2025-26, against £93.79 as a reactive repair, and councils spent 25% of their carriageway budgets on reactive work (they said 18% would be appropriate).

- "The increasing backlog in road maintenance work hinders local authorities in undertaking preventative work that could deliver better value." National Audit Office, The condition and maintenance of local roads in England (HC 117), Summary, paragraph 13 (24 July 2024).
- "DfT and other industry stakeholders, such as the UK Roads Leadership Group, have repeatedly identified that longer-term, preventative approaches deliver better value for money and are more cost effective than reactive, short-term maintenance activities." National Audit Office, The condition and maintenance of local roads in England (HC 117), Paragraph 2.15 (24 July 2024).

- “between 2017 and 2023 the proportion of roads receiving maintenance treatment declined from 7.6% to 5.2% for A roads and 4.3% to 2.4% for B and C roads” National Audit Office, The condition and maintenance of local roads in England (HC 117), Summary, paragraph 13 (24 July 2024).

Share of B, C and unclassified roads treated each year, England, by type, %

Stacked bar chart from 2004-05 to 2024-25 of the share of minor road length treated: 2.9% in 2024-25, of which preservation 2.0%.

Source: Department for Transport, Road condition statistics: data tables (RDC0120, RDC0130, RDC0201, RDC0310, RDC0320, RDC0321), published 21 January 2026; Asphalt Industry Alliance, Annual Local Authority Road Maintenance (ALARM) Survey Report 2026, published 17 March 2026; National Audit Office, The condition and maintenance of local roads in England (HC 117), published 24 July 2024.

Potholes and compensation

“There is no agreed definition of a pothole, and no nationwide data on potholes held by government.” (National Audit Office, 24 July 2024). What exists instead: councils in England and Wales told the ALARM survey they filled 1,903,498 potholes in 2025-26, at about £149.3 million, and paid £15.9 million in compensation claims, with another £15.1 million in staff time handling them. Councils answering the RAC’s Freedom of Information requests received 53,015 claims in 2024 and paid 13,832 of them.

Since 2025 English highway authorities have had to publish a highways maintenance transparency report, setting out their maintenance work, to receive all of their DfT funding; each council’s page links to its report. DfT rates each authority red, amber or green on condition, spending and best practice: for 2025-26, 125 amber, 13 red, 16 green (DfT ratings).

Pothole compensation paid, 2022 to 2024: the ten councils that paid most, as reported

Council	Paid
Staffordshire County Council	£1,039,523
East Sussex County Council	£598,112
Derbyshire County Council	£526,090
Havering	£450,000
Wiltshire	£448,951
Barnet	£424,370
Warwickshire County Council	£414,495
Shropshire	£385,342
Oxfordshire County Council	£321,975
Surrey County Council	£316,331

Source: GoCompare, Pothole compensation claims: over £10.2 million paid out in three years (Freedom of Information requests to 171 councils in England and Wales), published 21 November 2025; RAC, Council pothole claims rise by 90% in three years (Freedom of Information requests to 207 councils in England, Scotland and Wales; 177 replied), published 27 January 2026; Asphalt Industry Alliance, Annual Local Authority Road Maintenance (ALARM) Survey Report 2026, published 17 March 2026; Department for Transport, Local road maintenance ratings 2025-26, published 11 January 2026.

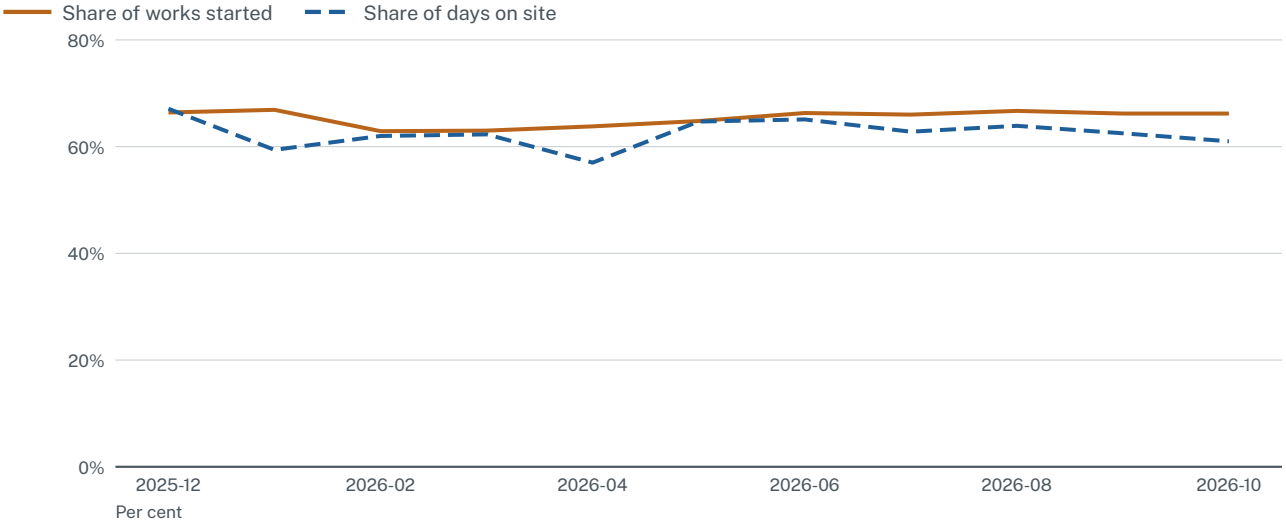

Roadworks: who digs, for how long, and how often they overrun

In October 2026 190,796 works started on English roads. Utilities and other statutory undertakers promoted **66.2%** of them and accounted for **61.0%** of the days on site of works that finished that month; the rest were mostly the highway authorities' own works. 1.6% of works finished on a later day than their permit allowed. Street Manager covers England only; each council's page has its own figures.

Who is digging: roadworks in England, October 2026

Promoter	Works started	Works finished	Days on site (finished works)	Finished late
Utilities and other statutory undertakers	126,352	127,581	416,671	1,655
Highway authorities (councils, National Highways, TfL)	63,783	65,476	257,681	1,339
Others under a street works licence	661	619	8,496	39

Share of roadworks caused by utilities, England, %

Line chart of the utility share of works started and of days on site, by month, from 2025-12 to 2026-10.

Charges on works promoters, and what is published about them

- **Section 74 overrun charges What it is:** A highway authority can charge a utility for every day its works run past the agreed duration, up to £10,000 a day depending on the road. From January 2026 the charges also apply at weekends and on bank holidays.**What it raises:** No national total of overrun charges is published. Individual councils publish theirs in answers to Freedom of Information requests. Source.
- **Lane rental What it is:** A lane rental scheme, approved by the Secretary of State, lets a highway authority charge for each day works occupy its busiest roads at the busiest times. From January 2026 authorities must spend at least half of any lane rental surplus on road maintenance.**What it raises:** What each scheme raises is in its own annual report; no national total is published. Source.
- **Permit schemes What it is:** Highway authorities in England can run a permit scheme: works promoters apply for a permit and may be charged a fee, and fee income must not exceed the scheme's allowable costs over three years. An authority is not required to charge a fee for its own works.**What it raises:** Permit fee income is reported in each scheme's annual evaluation report; no national total is published. Source.

Source: Department for Transport, Street Manager open data: archived permit notifications; Department for Transport, Explanatory memorandum to the Street and Road Works (Charges and Penalties) (Amendments) (England) Regulations 2025 (SI 2025/1074), paragraphs 5.9 and 6.4; Department for Transport, Explanatory memorandum to SI 2025/1074, paragraphs 5.1 to 5.3 and 6.2; DfT, Street works lane rental charges; Department for Transport, Permit schemes: statutory guidance for highway authorities (March 2026), paragraphs 6.1 to 6.8.

What the auditors found

- **National Audit Office**, The condition and maintenance of local roads in England (HC 117) (24 July 2024, Summary, paragraph 13): “The increasing backlog in road maintenance work hinders local authorities in undertaking preventative work that could deliver better value.”
- **National Audit Office**, The condition and maintenance of local roads in England (HC 117) (24 July 2024, Paragraph 2.15): “DfT and other industry stakeholders, such as the UK Roads Leadership Group, have repeatedly identified that longer-term, preventative approaches deliver better value for money and are more cost effective than reactive, short-term maintenance activities.”
- **National Audit Office**, The condition and maintenance of local roads in England (HC 117) (24 July 2024, Conclusion on value for money, paragraph 18): “at present DfT does not have a good enough understanding of the condition of local roads, and does not use the limited data it does have to allocate its funding as effectively as possible.”
- **National Audit Office**, The condition and maintenance of local roads in England (HC 117) (24 July 2024, Figure 6, note 4): “There is no agreed definition of a pothole, and no nationwide data on potholes held by government.”
- **National Audit Office**, The condition and maintenance of local roads in England (HC 117) (24 July 2024, Summary, paragraph 13): “between 2017 and 2023 the proportion of roads receiving maintenance treatment declined from 7.6% to 5.2% for A roads and 4.3% to 2.4% for B and C roads”
- **Office of Rail and Road**, Annual Assessment of National Highways' performance: End of the second road period April 2020 to March 2025 (HC 1588) (15 January 2026, Paragraph 3.2): “National Highways has not achieved everything that it originally planned in RP2 for reasons both within and outside its control. It ultimately missed 11 of its enhancements commitments for reasons within its control.”

Quoted from the reports as published. The Public Accounts Committee’s report on local roads is not quoted here until its text has been checked.

What these figures do and don't show

- **Neither fuel duty nor vehicle excise duty is earmarked for roads.** Both go into the Consolidated Fund with almost every other tax. Motoring taxes and road spending are shown side by side, not as what one paid for.
- **Council figures are revenue spending only.** Most resurfacing is capital spending, paid for mainly by the Department for Transport’s grant, which is shown separately as an allocation. Net figures are after income, and each nation’s return nets off different things, so compare councils within a nation.
- **Condition, treatment, ratings and roadworks are England only.** Scotland and Wales publish road condition through their own council performance frameworks, not read here; Street Manager covers England.
- **Condition is shown beside money, not as its result.** Weather, traffic, the age of the network and survey methods all move the figures, and councils began moving to a new survey standard in 2024-25.
- **Pothole numbers and compensation are not collected by government.** The figures here come from an industry survey (ALARM) and from Freedom of Information compilations, each named; councils outside a compilation have no figure.
- **Roadworks counts are what Street Manager records.** “On site in the month” counts works that started, finished or were updated in the latest full month published, not works on the road today, and misses long works with no update.

Figures from data/services/roads.json, generated 16 November 2026.

Common questions

- **Does road tax pay for roads?** No. Vehicle excise duty, often called road tax, has not been earmarked for roads since 1 April 1937, when motor taxes began to be paid into the Consolidated Fund. Fuel duty is not earmarked either. Road spending is decided each year like any other spending.
- **Who is responsible for fixing a pothole?** The highway authority for the road: National Highways for England’s motorways and major A roads, and for other roads the county council, unitary council, metropolitan district or London borough (Transport for London for its red routes). In Scotland and Wales it

is the council or the government for trunk roads; in Northern Ireland, the Department for Infrastructure.
